Payments for transient advertisements must be made in advance. Known parties, or atrangers with proper reference, may pay monthly or quarterly as cording to contract.

Advertisers should always specify the Issue or in-sues they desire to advertise in. Where no issue is named the advertisement will be inserted in the Daily. Where an advertiser contracts for the paper to be sent to him during the time his advertisement is in, the proprietor will only be responsible for the mailing of the paper to his address. Remittances must be made by Check, Draft, Postal Money Order, Express, or in Registered Letter. Only such remittances will be at the risk of the publisher.

Communications, unless they contain important news, or discuss briefly and properly subjects of real interest, are not wanted; and, if acceptable in every other way, they will invariably be rejected if the real name of the author is withheld.

WILMINGTON, N. C .:

SATURDAY MORNING, Jan. 25, 1879.

THE ALABAMA PLAN.

The continued, oft-repeated violations of the rights of States on the part of the Federal authorities will necessarily attract much attention throughout the North, as well as in the South. Of course Radical pa pers will only see unnecessary sensi tiveness and untimely aggressiveness on the part of such Southern States as may consider Federal encroach ments in their Legislatures. The will accuse the South of the old stereotyped rebellious purposes, and swear that our people are disloyal, and all that. They are blinded partisans, and are ready to justify any assaults that may be made upon the sacred rights of Southern States.

But what shall the South do Must the people sit with folded hands whilst oppressions and violations of justice and law and humanity con tinue? Shall the Federal Govern ment be allowed unchallenged to in vade the Courts of the State, to interfere in the elections, and with it twelve, or, fifty thousand deputy marshals, as the case may be, bull doze voters and corrupt the ballot?

Some of the Southern States have taken initial steps in the matter. Virginia has protested through he Legislature against the inroads made upon the State Courts, Florida protested against Federal usurpations, and Alabama, as we informed our readers recently. has through her Legislature made a solemn protest against the violations of law and the rights of free and sovereign commonwealths. Ala bama has gone even further, as w before showed. She has expressed deliberate purpose to place the election of Presidential electors in the Legislature, instead of making her choice by popular vote, unless the Federal Government shall discontinue its unwarranted and unconstitutional encroachments. Of course a State can do this under the Consti tution. But it may not after all be the wisest action that could be taken.

When we regarded the many instances of Federal interference and the Savannah News suggests a difficulty that had not occurred to us, and satisfies us that a State should not have recourse to such a step as that proposed, save under the extremest provocation, and when the case appeared utterly hopeless unless such treatment was resorted to. It may come, if it has not come already, that only heroic treatment can work

TO ZHOW GOR The News offers two objections lo the Alabama plan that should be very gravely considered. We copy

republican in its nature. It gives the peoole an opportunity of themselves express-ng their wishes at the ballot-box, and is therefore more in accordance with the sovereignty of the people, which is one of the chief principles of our government.

"In the next place, were such choice

transferred to the State Legislatures it work harm to the Democratic party. Many States, of which New York is a conspicuous example, fre-quently, through Radical gerrymanderings, give Democratic majorities, yet elect Radi-Legislatures. It is evident, therefore that should this plan come into general favor, the will of the people would, frequently, not be properly expressed through their Legislatures. Moreover, the temptation to all kinds of frauds and trickery in securing State Legislatures would be very greatly increased, and in this sort of work experience has shown that the Radicals are adepts."

The News, however, holds that in case the outrages are to be prolonged that every Southern State should adopt the plan now undergoing discussion in Alabama. It thinks when the Democrats come into power in both Houses of Congress that Federal bulldozing will cease. We can but hope so, but we cannot say we are altogether confident of such good results. The election in 1880 will offer the old Radical party its last, its only chance of getting back into power. With such a man as Haves in office—such a man as he as shown himself to be-and with

such a Cabinet and such leaders in Congress as Blaine, Conkling, Cameron, Garfield, Conger and fifty cultural implements is very considerothers, the Radical party will make a able. We copy a comparative state desperate effort to win the fight, and to this end will leave no stone unturned, no scheme untried. They will cause fifty thousand sub-marshals to be appointed, if necessary, to compass their end. They will take any steps however iniquitous and illegal and unmerciful and unjust in order that their corrupt party may once more "rule the roast." They are bent on victory, cost what it may Morning Star. to the peace and prosperity of the the country, because they know it is with them either political victory or political death. So it may become absolutely necessary for every State to consider and possibly to adopt the plan proposed by Alabama.

GOVERNORS SALARIES.

We have put ourselves to the trouble to ascertain the salaries of the Governors of some of the States. Alabama pays \$3,000, Connecticut \$2,000, Iowa \$3,000, Kansas \$3,000, Maine \$2,500, Michigan \$1,000, Minnesota \$3,000, Nebraska \$2,500, New Hampshire \$1,000, Oregon \$1,500, South Carolina \$3,500, Vermont \$1,000, West Virginia \$2,700, Arkansas \$3,000, Georgia, most prosperous of Southern States, pays \$4,600. Illinois, with three times the wealth and population of North Carolina, pays but \$6,000. Missouri, double as large and as rich, pays \$5,000. Ohio, with its three and a quarter million people, pays but \$4,000. New York, worth twenty times as much as North Carolina and with a population considerably over five million, can afford to pay \$10, 000, even though it be excessive and anti-republican.

If North Carolina should pay its Governor \$3,000 and furnish him home it will be doing as well, in proportion, as the most of the large and prosperous States, and be giving all that it can afford considering it owes over twenty-seven million dollars. Of course, if the Governor receives but \$3,000, it cannot be expected that other officials should receive more than two-thirds as much. It is not "so nominated in the bond."

INVESTIGATION IN SOUTH CARO

The Teller Smelling committee, naving completed its list of horrors in Louisiana, is now in Charleston. preparing another dish of "funeral balted meats" with which to entertain the country at large. It is reported as doing the work nobly. A new and highly seasoned dish of horrors s being rapidly concocted and will be sent to Congress soon, and then Copkling, Blaine, and the remainder of the carniverous animals may feed to their utmost satisfaction and repletion. The Charleston News and

Courier of Thursday says: outrages, we were inclined to indorse the propriety of the course proposed by the Alabama Legislature. But shaw, Richland, Sumter, Williamsburg, and Orangeburg. These witnesses are summoned at the instance of the Republicans, and other witnesses are now being, or have been, summoned from these same counties, to give the Democratic side of the matter in controversy."

Two witnesses appeared before the committee of the Radical stripe. One was absent from the polls, the other was dead drunk and fast asleep even Robt. S. Catheart and Mr. George D. Bryan, both Democrats, testified. We make room for a small portion of Mr. Bryan's testimony:

Witness: No; but I have known white men to be killed while protecting Demoeratic negroes.

Mr. Teller: Did you ever hear of negroes being killed because they were Republicans?

Witness: No, sir. Mr. Teller: You think, then, that the colored people would vote the Democratic ticket if they were not intimidated by their

Witness: I believe firmly that if the colored people were left alone more than one-half of them would vote with what is called the Democratic party in this State. I remember, in 1876, that up to Saturday night before the election a very large number of the colored people had pledged themselves to vote with us, and we would have carried the county by at least eight thousand majority. On Monday, however, there was a complete revolution among them, and it is supposed that, on Sanday, the colored preachers in the several churches gave out that if they voted the Democratic tieket they would be placed back in clayers. back in slavery.

The increase in the exportation of American produce and live stock during 1878, we have before referred to more than once. The increase in mowers and reapers and other agri ment as to the live stock exported:

A Governor's chair is becoming good stepping-stone to the U. S. Senate. Hampton and Vance have just been elected, and it is now reported from New Orleans that Gov. Nicholls stands a good chance of being elected from Louisiana. It is now of the utmost importance to select just as good a man for the second place on a State ticket as for the first, as the Lieutenant Governor will in all probability become the Governor. In 1880 the Democrate in North Carolina should nominate two really able men-men of high character for integrity, sobriety and conscientiousness, for the offices of Governor and Lieutenant Governor. With such men as could be named there will be no excuse if inferior men are nomi nated. The best men can be elected. Governors Clark, Caldwell, Brogden and now Jarvis, were all Lieutenant Governors or Speakers of the Senate.

A correspondent asks to know the number of white voters in North Carolina. We have not the tables convenient and can only give an approximate estimate. White vote 140,000, colored 90,000. We examined three North Carolina Almanads for the popular vote of the State and could not find it. Good Almanaes those for statistics!

THE PERIODICALS. Scribner's Monthly for February is an excellent number of one of the choicest and best magazines in the world. We found some of its papers very entertaining. It mellows with age. Its criticisms appear to us to be unusually good. It is a "midwinter number," and a very beautiful and enticing one it is. There is a full page engraving of Ralph Waldo Emerson, and a olever and very laudatory paper, fully illustrated, on the philosopher and poet, giving pleasant pictures of his home at Concord, Mass. The opening paper gives an account of the adventures of "The Tile Club," and is rather amusing. Another article, also well illustrated, is by Allen C. Redwood, a Baltimore artist. and treats humorously of "The Fortunes" of Company A. A Sketch of the Days of the Southern Confederacy." The entire number is well up to the old mark. Price \$4 a year. CURRENT COMMENT.

Democratic Senators will, of course, sustain Senator Conkling in his grotesque hostility to the Administration. - Cincinnati Commercial. Democratic Senators will do nothin of the kind. Mr. Conkling has been tried once, and found lamentably wanting. Although very little bet-ter treatment is expected from Mr. Hayes, the Democrats in the Senate, if for no other purpose than to create dissension in the Radical organization by alternately up ending both factions, propose this time to give Mr. Hayes a lift. And all for the greater honor and glory of the Demoeratic party. - Washington Post,

-- If the pension arrearages bill,

amendments made by the Senate, a ture of the President and become a law, it will be because the President lacks the moral courage to give it the veto that it well deserves. To like at the Baldwin. moral cowardice on the part of members of Congress, the bill owes its existence; for a more preposterous proposition in the guise of a measure of equity and patriotism has seldom dared show its face in the company of reputable legislation. We doubt whether the movers of the bill ever expected that it would get to the President. It was a political, scheme, a device for making partisan capital on behalf of the Democratic party as an offset for what the Republican party had done, with the full approval of the country, for the men who fought the battles of the Union and suffered most in the struggle. The provision thus originally made was more than just; it was generous, coming as a free-will offering from the people to their defenders while the memory of the claims of the soldier was fresh in every loyal heart. The scheme is the product of cool calculation, tempered by no patriotic impulse,-Phil. Times, Ind.

OUR STATE CONTEMPORARIES. It is the duty of the Legislature, in conformity with the provision of the constitution to that effect, to make an appropriagoverned at home, has a magnificent | tion for the maintenance of the Orphan Asylum, at its present session .- Monroe

For six years, during the most trying period in our national politics, Judge politics, Judge derrimon has proven himself a fearless, faithful and able public servant, and one of whom if his State is not proud it deserves rebuke for its ingratitude. -Alamance Gleaner.

The Observer has very earnestly urged that General Ransom should be the next Democratic candidate for the Vice Presidency. The South is entitled to the place, and we did not believe that the nomination of a Southern man, even of a "Confederate Brigadier," would jeopard the success of the Democratic ticket. Elsewhere the nomination of Senator Merrimon is suggested by a friend of that distinguished gentleman. Neither would accept the nomination.—Raleigh Observer.

POLITICAL POINTS.

- "John Logan is a credit to his party," says a Radical paper, which shows where the party has got to. - Wash. Post,

- It is only coined money that the government can constitutionally issue from the Treasury. But John Sherman is issuing paper money, and after it has once een redeemed besides .- Boston Post, Dem. - If Grant really wants a position

in this country, we hope Congress will em-pley him to mobilize the tramps and then out him in command of them. As a brigadier bummer he would outshine any American of whom we have any knowledge .-Atlanta Constitution, Dem.

- The great business of this session of Congress, providing for future counting of the electoral vote, will proba-bly not be attended to. The Democrats follow Republican precedent in putting party above the interests of the whole country; but the fact is none the less to be gravely deplered and rebuked.—Springfield Republican, Ind.

SOUTHERN ITEMS.

-- Louisiana, in her November lection, rejected all of the twenty constiutional amendments proposed, and Baton Rouge again will become the capital of the Pelican State.

-Gen. Robert Toombs puts on airs. It is said that if he happens to be at Barnett or some other point on the railroad and wants to get home faster than the regular train would carry him, he tele-graphs to Washington, Ga., for a special, riding with hot axles and a roar like a king. -Phil. Times.

- Old Virginia has a rival in the Mammoth Cave business in California, where a miner, in chasing a squirrel into a crevice in the rocks in the dividing ridge between the South Branch and Stanislaus rivers, two miles above the junction, discovered a subterranean vacuum of extraordinary dimensions. Explorations made of the cave extend over an area of ones half a mile. In no direction already ex-plored has there been found any terminate ing point to the cavern.
