Patterson, of South Carolina, says he will speak on the Butler-Corbin case when it comes up in the Senate. He says Butler was elected, hence his first vote for seating him, and hence his course in the matter now.

The witnesses in the Reno trial are not very good judges of crowds. Some estimate the Indian forces at 1,000, whilst others saw more than double, for they swore there were probably 10,000. It was evidently scarey times.

Col. Ellison S. Keitt, of South Carolina, was grossly slandered by the New York Times. He sought redress before a New York jury, putting his damages at \$50,000. He got one sixpence. And yet there is cation. scarcely any doubt as to the fact that he was slandered.

Hayes and his Cabinet are represented as not doubting the propriety of the pension bill. They say about \$2,000,000 a month can be adjusted, and that it can be met by paying out the standard silver dollar. Whilst Democrats were voting away tens of millions to pay pensions to the Union soldiers, if they had not been afraid they would have voted to a man to pension the Mexican war veterans. It will be popular in the North to pay the "Union defenders," hence the vote, both parties trying to make capital. It would be unpopular in the North to pension Mexican war soldiers, because the South would get the much larger share, having done most of the fighting and furnished most of the volunteers-hence the

- Rockingham Bee: We hear that clamor for the new county out of Richmond, Robeson and Cumberland runs high and is developing much strength. The new county meeting at Shoe Heel agreed upon the details and boundaries.

- Greensboro Patriot: There appears to be a difficulty in the colored Presbyterian church of this place, between a portion of the congregation and the pastor, Rev. J. A. Crestfield, which resulted, last Sunday, in an assault upon him and his ejectment from the pulpit. There was a considerable row, and Chief of Police

Reese was called in to preserve the peace. - Charlotte Southern Home: We were pleased to meet Rev. T. W. Erwin, of White Oak, Fairfield county, South Carolina. Mr. Erwin is a native of this county, and was raised about twelve miles from this city. Reid of Boyd & Reid for defendant. The bill charged unfitness and breach of trust on the part of Dr. Wilson, but by the decision of His Honor, who disallowed the motion both for a receiver and injunction, the trustee is fully vindicated. The investigation of Dr. Wilson's management exhibited in its true light the purity and excellence of his Christian character. -The Hillsboro Recorder represents Cobb of Lincoln as having a maturity of judgment kindled by the warmth of eloquence. A detachment of the committee appointed to visit Raleigh with a view of defeating, if possible, the proposed iniquity of authorizing the projected extension of the Augusta Air Line Railroad, left yesterday morning. Another squad departed last night, and the remainder will leave

this morning. We believe that earnest, intelligent efforts will be necessary in order to avert the calamity which threatens us. The gentlemen entrusted with the matter are equal to this requirement, but we suggest that they should not forget to make it known that apart from the local interests we have in this particular case Wilmington is now and forever the enemy, upon general principles, to any and all legislation which compromises the interests of the State for the benefit of ports, cities, towns or core porations beyond North Carolina borders. We cannot, should not afford to build bridges or conduits for other people.

Visit of the Grand Master of the I. O. To-morrow night is the regular time for the meeting of Ocion Lodge, I. O. of O. F. and on the same evening the Grand Master of the State will reach this city. Cape Fear Lodge will unite with Orion on the occasion, and we know that the chief officer of the Order will have to prove himself an expert indeed if he brings with him a "goat" that can toss the members higher than he will find himself elevated in the dreadful contest. In fact, in view of the urdeals to be gone through, the two Lodges in this city will not allow any of the craft to wear either padded garments or pasteboard, so the Grand Master may bring in his most perfectly heated frons. As to intellectual tests, we say nothing. He will find them up in the books, and also-well we wont tell the outside heathen.

Saturday was a day of misfortune to Maj. Burgess, in that a sprightly horse, attached to a buggy from which he had just alighted, took fright at something, ran away and broke the vehicle so thoroughly as to require little less than rebuilding. To add to this mishap, some rogue or rogues, on Sunday night, appropriated a valuable quantity of commissary supplies from the storehouse of his Academy, on Fourth, near Princess street.

The Fire Yesterday Morning. The alarm of fire yesterday morning was

caused by Policeman Mayer bearing an ex- barometer," a slight rise in temperature, plosion in the confectionery store of Price. & Cooper, on South Front, a few doors from Market street. The officers of the night were prompt in their movements and in very short time secured the presence of the entire Fire Department, but not in time to save the stock of goods in the store where the fire originated. It had been making headway long enough to render it impossible to do more than confine it to that immediate locality. The value of the goods lost is estimated at \$900, while the insurance was only \$350, and this in one of the companies represented by Jno. W. Gordon & Bro. The building was not extensively injured. It belonged to Mr. Jno. L.

Helmes and was covered by insurance. The "Little Giant" is reported to have got the first stream, though the Cape Fear was first at the scene. Indeed, all the machines in the city responded with a readiness and such lightning speed as to bring the devourer under control within fifteen minutes after reaching the scene of the confiagration.

The Signal Office.

Sergeant D. C. Ralston, Chief Signal Officer in this city, has been ordered to Bismarck, Dakota Territory, where instructions as to his future operations will probably precede him. This transfer of Mr. Ralston will sever the pleasant relations which have subsisted between that gentleman and many of our people, but, like bread cast upon the waters, he may return to us after many days. At all events he will carry with him to his far off field of labor myriads of kind wishes.

The successor here of Mr. R. is Mr. James M. Watson, who comes hither from New Mexico. While regretting the loss of Mr. Ralston, we are glad that he is replaced by so agreeable and competent officer as Mr. Watson, and we guarantee him the kindest treatment here if he will only keep the weather straight.

Death of a Well Known Minister.

Many of our Baptist friends in this city, as well as people of other denominations, who have heard his pulpit efforts, will regret to be apprised of the death of Rev. Levi Thorne, in Baltimore, on Wednesday of last week. His father was a pastor of the same denomination, coming to this country from Devonshire, England. The subject of this notice was born in 1826. He studied medicine but abandoned it for the Church, and was licensed as a preacher in 1852, at the High Street Baptist Church, Baltimore, and his first pastorate was at Harper's Ferry, Va. He was afterward pastor of Churches at Chapel Hill, Newbern and Kinston in this State. His last charge was in Delaware, but two years ago he was compelled to relinquish it on account of ill-health.

Sudden Death. We regret to hear of the sudden death, last Sunday, of the wife of Mr. Wm. Murrill, who resides on Middle Sound, eight miles from the city. In company with others she left home to attend services at the Masonbero Sound Baptist Church, and while on the road and near the point of her destination, she complained of being unable to proceed and soon after became so faint as to require to be carried to the residence of her daughter, Mrs. Thomas Glad" ding. She was attacked about 11 o'clock and died in less than one hour. Our informant did not know the nature of her complaint, and no inquest had been held

when he left there yesterday.

Lecture by Col. D. K. McRae. The simple announcement of a lecture by this gentleman is a guarantee of the presence of a vast multitude at the Opera House next Friday night. His reputation as an author, member of the bar and politician, is semething more than State, and those who are familiar with his public addresses and lectures well know that in the humorous field he excels. "Genius and Talent," the theme of his promised lecture, opens to him a broad domain for the exhibition of his splendid capabilities, and we prophesy that he will present the subject in a manner that will be equally eloquent and instructive.

A Society Item. That wicked fellow Caldwell, of the Charlotte Observer, who never lets anything newsy pass him, says: "Miss Davis, of Wilmington, and Miss Pickens, of Edgefield, S. C., both of whom have many acquaintances in Charlotte, are visiting in Atlanta. Night before last an elegant ball was given in their honor at the Kimball House." We knew this Joseph, and thank you for saving our modesty, -we never like to speak of the worth and beauty of our ladies for fear of an avalanche of mountaineers down this way.

The Opera House has been engaged for next Monday and Tuesday evenings, February 3rd and 4th, at which time the Ada Richmond Opera Bouffe Company will appear. We are glad to announce that this company, which has recently met with such especial success in Galveston, New Orleans, and other Southern cities, is to visit Wilmington.

To-Day's Indications.

For the South Atlantic States, falling southeast to southwest winds, and partly cloudy weather, with light rains, are the indications for to-day.

Attention ! Cadets, We publish this morning a call, from the Chairman of the committee of arrangements, for a meeting of the ex-Cadets of the Cape Fear Military Academy, at the armory of the Wilmington Light Infantry, this evening. We conclude that there will be such a turnout as to do proper honor to the coming man, Gen. R. E. Colston, and at the same time show that they have lost none of their olden repute for attention at roll-call. They seldom, if ever, failed of reflecting credit on themselves as an organized body, and it will be a pity if they now efface or blemish their record.

Personal.

We were glad to welcome back to Wilming, yesterday, D. M. Wright, Esq., who returned on Sunday last from a trip to Waco. Texas, his former home. Dunc says he had an exceedingly pleasant time, and found that many changes and improvements had taken place in the "Loke Star State'i since he was there. His many friends in Wilmington and other portions of North Carolina will be pleased to learn that the old North State possesses greater attractions for him than Texas or elsewhere, and that he proposes to remain us.

Cape Fear Club. At the annual meeting of the Cape Fear Club, held in their rooms last Saturday evening, the following officers were elected

for the ensuing year, viz.: President-Capt. Chas. D. Myers. Vice President-Maj. John W. Dunham. Secretary and Treasurer-Mr. O. G.

Paraley, Jr. Of course this Club is in a felicitous condition, having a large and substantial membership, and being composed of gentlemen who know how to enjoy life without abusing it.

Cape Fear Improvement. We are glad to observe that the Legislature recognizes the importance of our River and Bar Improvements, and has adopted a resolution calling upon our Sepators and Representatives in Congress to press the matter of national aid for that purpose. Congress should, because of the importance of this improvement to commerce, domestic as well as foreign, enlarge upon past yearly appropriations. As a question of economy, it would be far better to increase the amount by one-half.

ENJOY LIFE.—What a truly beautiful world we live in! We can desire no better when in perfect health; but how often do the majority of people feel like giving up disheartened, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof that Green's August Flower will make them as free from disease as when bern. GOOD CHEER FOR CONSUMPTIVES.—There is a form of Consumption which was better indicated by the old fashioned name of "decline." It is the dreaded scourge of some parts of the Southern States, claiming, more victims every year than are swept away by the most terrible visitations of yellow fever. The malady arises from the inability of the patient's system to take up and assimilate the nourishing ingredients of the food that is eaten. Some years ago the medical profession, with remarkable unanimity, agreed that Cod Liver Oil contained the most concentrated and easily absorbed elements of nutrition. If the nanseous taste and smell of the oil could be avoided it would unquestionably be the most soyereign remedy that ever in fact, a veteran in noise-making, who is familiar with every ward in the guard house, except one, and not having a V convenient went down on an exploring tour for ten days, after which Richard will probably be himself again.
