The Republicans who helped the South in securing the passage of the bill reducing the tobacco tax to 16 cents a pound, were from the Southern States and the Pacific slope. Some one has been in Wilmington interviewing Judge Russell. A com munication nearly a column long, dated "Wilmington, N. C., February 15," appears in the Philadelphia Times of Wednesday. It gives a pretty full description of the Greenback-so-called-member of Congress elect. We copy the last paragraph, because it is the most important. It will be seen how true were the accusations of the STAR when the disguised Radical was canvassing against Col. Waddell. Our prophecy as to his course will be fulfilled if the subjoined paragraph is true:

"Judge Russell states explicitly, in answer to a categorical question which I addressed to him, that he will act with the National Greenback Labor party in the Forty-sixth Congress. He tells me that he will join vigorously in any movement looking towards the capture of the balance of power by that party in the House of Rep- | the Deaf and Dumb and Blind, or resentatives. As between the Republican resentatives. As between the Republican, and Democratic parties, he says, with emphasis, that he will be what he claims he has always been, an out-and-out Republican. He declares that one secret of his strength with the masses of his district lies in their conviction of his sincere hostility to the old slaveholding aristocracy and their belief in his abiding sympathy with the laboring people. To a remark that he had been accused of decided communistic tendencies he replied that the charge was perhaps a just one. Judge Russell says he will attend the Greenback-Labor conference at Washington city on the 22d inst." ence at Washington city on the 22d inst " | county treasurers. Passed.
