OUTLINES.

The text of the resolution for the impeachment of the DeBroglie Fouton Ministry is published. — There is a divergence of views on the subject of the French Chamber of Deputies returning to Paris.

Two men named Smith and Evans had a shooting affair at Petersburg on Friday, and nobody was hurt.

The Court of Inquiry in the case of Major Reno has reported. It finds nothing in his conduct that requires animadversion.

And now the de facto President, made so by fraud, declares the Democratic resistance to the election thumb-screw laws to be "revolutionary."

"Aliunde" Jo Bradley is sought after, and, strange to say, by Democrats. The Louisiana delegation in Congress want Jo to go to New Orleans to try the political prisoners.

Three students at the University of Virginia got into a fight with three negroes. One of the students was knocked down, another was brought to his knees, when he fired, wounding one of the negroes.

When John E. Poindexter, of Richmond, Va., was under examination for the killing of C. C. Curtis, he is represented as appearing self-possessed, but at times, when the witnesses were detailing occurrences of the shooting, put his hands to his face as if to shut out from his view the picture of that scene.

As a matter of interest we copy a paragraph from the Washington letter to Baltimore Sun concerning what is said about the approaching extra session of Congress in that city.

"The session is likely to be stormy and exciting, and some of the Senators say it may last till December, when the regular session commences, and Zach. Chandler says he will not be surprised if Congress runs right on till March, 1881.

There will be war soon. There are now at Raleigh about seventy-five colored regiments (not known), be the same more or less.

To-Day's Indications.

Mayor's Court. Wesley Sanders, colored, charged with violating a city ordinance, was ordered to pay a fine of \$3.

Proposed Meeting of Trade Organizations. Captain R. M. McIntire, President of the Board of Trade of this city, received a telegram from Governor Jarvis, yesterday, requesting him to name a suitable person to represent that body in the General Convention of the various trade organizations of the United States, to be held at New York on Wednesday next, the 12th instant.

Attempted Incendiarism. An attempt was made Friday night, between 7 and 8 o'clock, to set fire to the car house and stables of Mr. B. J. H. Arhous, situated at the corner of Seventh and Market streets. Fortunately the fire was discovered by a countryman in time to extinguish the flames before much damage was done.

TO THE CITIZENS OF WILMINGTON. As certain misrepresentations have been made to the citizens of this city, relative to the erection and conducting of the proposed new Market House, we, the Stockholders, in justice to ourselves, desire to make a plain statement, and let the people know what we propose.

We propose to obtain the consent of the Board of Aldermen to remove the present market from where it is now situated, free of cost to the city, and to pave the street with cobble stones where it now stands; to erect a handsome and commodious building, which will be an ornament and credit to the city, to be used as a Market House, and to build suitable sheds for the accommodation of carts; to erect on the wharf a suitable water and oyster market; to pave South Water street with cobble stones, or some other suitable material, the width of the Market; to pay into the City Treasury (monthly) a sum equal to the present net revenue which the city derives from her Market and all of the butcher shops in the city.

We also agree to fix the price of stalls at figures not to exceed the following, viz: The first section of stalls at \$12.50 per month, the second section at \$8 per month, and the third section at \$5 per month; that the choice of stalls shall be disposed of at auction, and the premiums received for such choice shall go to the city, in addition to the above tax, to keep the market clean, and as free as possible from smell. We also agree, if the city so desires, that at any time after the lapse of five years to sell to them the property at cost, for their bonds at their market value. We also agree to build suitable markets in the 1st and 5th Wards, if so desired by the city.

Now what we require of the city, (with the consent of the Board of Aldermen) is simply this, viz: If any one should elect to sell beef or other meats outside of said market, that then they shall pay to the city the same tax as they are now required to pay.

Also that an ordinance be passed forbidding the selling of produce from boats, carts or otherwise in the public streets or docks during the continuance of market hours.

Also to pass an ordinance forbidding FORESTALLING in the city, so as to give the citizens an opportunity of making their purchases, before the articles are bought up by speculators.
