SHORTCOMINGS.

BY MRS. BROWNING. She has laughed as softly as if she sighed! She has counted six and over. Of a purse well filled and a heart well

O! each a worthy lover! They give her time: for her soul must slip Where the world has set the grooving. She will lie to none, with her fair red lip-But love seeks truer loving.

She trembles her fan in a sweetness dumb. As her thoughts were beyond recalling, With a glance for one, and a glance for

From her eyelids rising and falling. Speaks common words with a blushful air; Hears bold ones, unreproving; But her silence says what she never will

And love seeks better loving.

Go, lady! lean to the night guitar, And drop a smile to the bringer, Then smile as sweetly when he is far, At the voice of an indoor singer; Bask tenderly beneath tender eyes; Glance lightly on their removing And join new vows to old perjuries-But dare not call it loving!

Unless you can think when the song is done No other is soft in the rhythm: Unless you can feel when left by one That all men else go with him, Unless you can know when uppraised by

That your beauty itself needs proving; Unless you swear, "For life—for death!" Oh! fear to call it loving!

Unless you can muse in a crowd all day On the absent face that fixed you; Unless you can love, as the angels may, With the breath of heaven betwixt you; Unless you can dream that his faith is fast, Through behooving and unbehooving: Unless you can die when the dream is past! Oh! never call it loving!

LIVER PILLS.

CELEBRATED

FOR THE CURE OF Hepatitis, or Liver Complaint, DYSPERSIA AND SICK HEADACHE.

Symptoms of a Diseased Liver.

DAIN in the right side, under the I edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sen-sation of having left undone some-thing which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low: and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

DR. C. McLane's Liver Pills, in CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL. For all bilious derangements, and as

a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated. Every box has a red wax seal on the lid. with the impression Dr. McLane's LIVER PILLS.

The genuine McLANE'S LIVER PILLS bear the signatures of C. McLane and Fleming Bros. on the wrappers.

Insist upon having the genuine Dr. C. McLane's Liver Pills, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name McLane, spelled differently but same pronunciation. jan 11 eowD&W1y ch Sa

DEPARTURE!

Pad Company's Remedies.

There convened, on the 8th day of January, 1879, (Prof. D. A. Loomis, M. D., chairman), at the head office of the Holman Liver Pad Co., 93 William st., New York, a large delegation—a first general reunion—consisting of all the many important agents of the United States, the Canadas, and representatives from Europe and Asia, for the specific purpose of reviewing the pros and cons of the past practical workings of this wonderful system of successfully treating disease by absorption without the use of medicine, as illustrated in the Holman Liver Pad Co.'s remedies, and in a united manner to decide what course in future should, in their judgment be adopted as the best and speediest plan to meet the great and increasing demand that is daily manifested from every quarter of the globe—not only for the remedies, but also to learn the proper mode of utilizing them.

great and increasing demand that is daily manifested from every quarter of the globe—not only for the remedies, but also to learn the proper mode of utilizing them.

Much time and attention were faithfully given to hearing the many interesting reports of the wonderful efficacy found in this way of treating disease wherever it had been faithfully used. The subject took a wide and extended range. It was found from these official sources that nearly every kind of incurable disease known to the human system, so far as it had come within their knewledge, had been successfully treated to a marvelous degree, and to an extent never before known in the history of medicine; and that the number of its patrons during the short time since its introduction was unprecedented; that it long since ceased to be an experiment, and its success should forever stand a burning disgrace to the medical faculty that it had not for ages past availed itself of a principle—Nature's own law, illustrated in every portion of the human body, and the entire economy of nature; as old as the universe, as fixed as any natural law can be, and unaliterably certain in its good results as a treatment when properly utilized; with little or no difference as to climate or nationality in its uniformity of action. What makes it more precious still is that its comparative small expense brings it within the reach of all. It is now attracting the attention and receiving the endorsement of every fairmined physician wherever an opportunity is afforded for testing its practical workings. Added to this is the fact that many distinguished in their profession are now counted as co-workers; also that an enormous army of enthusiastic friends, who have been made happy through the use of these sumple remedies (a large proportion of whom have found everything else herctofore failing them), are working zealously among the afflicted, overcoming prejudice by living examples of cures; or, what is better still, the successful prevention of disease. It was clearly demonstrated

its cheapness and rapid effect. And with rare exceptions, it has been the studied efforts of druggists to decry their merits, to discourage their use, or a refusal to explain or answer inquiries; also to encourage other remedies, or substitute an inferior article—a counterfeit or imitations—some a dangerous poisen, others as passive and useless as so much sawdust; also to throw every obstacle in the way of local agents by underquoting and underselling, down to starvation prices, with the view of forcing them to abandon their blessed work. These and many other practices that are a dishonor to any profession have caused this Company and its many agents in convention to pass resolutions, unanidescion have caused this Company and its many agents in convention to pass resolutions, unanimously adopted, to the effect that hereafter the Holman Liver Pad Co.'s remedies will be sold only by such agents as shall be found properly accredited by this Company. This decision opens up a large and wide field of usefulness to good and efficient persons everywhere, and on a basis of pecuniary resuits that warrant little or no risk in the enterprise, the particulars of which can always be learned by

making application to the office nearest them; those having felt or seen the 'practical workings of these having felt or seen the practical workings of these remedies always preferred.

This Company and its general agents mean by these acts to be understood that in the future as in the past, without fear or favor, they intend to disseminate useful knowledge, heretofore by nearly all medical schools designedly made dark and obscure; and also in every manner within their power try to do the greatest good in the least possible time to suffering humanity everywhere, and the public are carnestly cautioned to be on their guard, in simple justice and protection to themselves and this Company, to show a total discountenance and contempt pany, to show a total discountenance and contempt for any and all combinations of individual adventurers (always sinister in their motives) who hereafter thrust any substitutes in opposition to or in competition with our remedies, that have proved their efficiency by the severest test possible.

New York SHOOTING COAT. A STYLISH, MANDSOME COAT,

First Class in every particular

Pleasant to wear, durable, and in the end the cheapest, MADE OF BROWN VELVETEEN. Pockets and Lining made to take out, so that may be worn for early fall and winter shooting.

Horace Smith, Esq., says: "It is my idea of shooting coat. I have worn them for several years and will have none other."

Price for Coat, \$25; Vest, \$6.50. Alse, the best brown corduroy Pants, at \$10 per pair. I make on ty the one grade, as the cheapest goods do not turn briars and will not give satisfaction.

Also, in addition to the above, I am making Waterproef Canvass Suit, cut same style as the Vel veteen! goods, not stiff and hard, but soft and plea sant to wear; guaranteed to turn water. Sportsmen who have seen it say it is The Best Yet. Coat \$6.50. I also make the Sleeveless Coat; Vest with sleeves I also make the Sleeveless Coat; Vest with sleeves
