

It was said in Washington on Monday that Watterson would get the most votes on the first ballot for Secretaryship of the Senate, and that Burch had a great deal of strength.

It is only recently we have been able to ascertain approximately the number of Chinese in San Francisco. It is stated at 30,000, of whom 2,000 are women, 7,001 servants, and 5,000 cigar makers.

A New York letter of Saturday last thus briefly notes the market for the week:

"The week closes up with the dry goods jubbing trade fairly active. Cotton goods are in steady demand and firm. Prints ginghams and dress goods are also doing well. Men's wear woollens are sluggish. Foreign goods more. active. A noticeable feature of the trade next week will be an auction sale of 2500 pieces dress silks

Judge Rives is still weeding his row in Virginia. Judge J. D Coles, of Pittsylvania County Court, was arrested by a United States Marshal on Friday last. He told the Marshal that he would offer neither bail nor personal recognizance, but at the same time would offer no resistance, and was his prisoner, ready to be dealt with as such. The Marshal then said he would not imprison the Judge, but would hold him as his prisoner, allowing him the freedom of the county. Mr. Coles then applied to Chief Justice Waite for a writ of habeas corpus.

That uncompromisingly bitter Radical partisan, Senator Ingalls, of Kansas, is in very hot water. He is to be investigated. The charges are very grave, for he is accused of bribery and corruption in obtaining his recent election. A Radical paper, the Baltimore American, contains the following special from Washington:

"A committee of the Kansas Legislature arrived here to-day, bringing with them charges to be laid before the Senate committee on Privileges and Elections. The charges allege that Ingalls bribed thirteen members of the Kansas Legislature, and by that means only succeeded in beating Hory ton, the regular nominee of the caucus. The amounts said to have been paid are from \$600 to \$1,500 per vote. The presentments of the case before the Senate committee are entrusted to Sidney Clark, one of the most prominent lawyers in Kansas. Colonel Stambaugh, a member of the com-mittee, says that the testimony to be pre-sented would be overwhelming in a court of justice."
