The Suez canal stock is looming. Shares have gone up from 100 francs each to 700. There are 400,000 shares.

There are 13,186 convicts in the United States now employed in mechanical industries. They earn 40 cents a day, or \$8,122,576 annually.

Prof. J. L. Cabell, of Virginia, has been appointed a member of the National Board of Health. Dr. S. M. Bemis is at the head. There are seven members.

The Washington Post is prospering. It has been compelled to buy a new Hoe press. It is a paper of very uncommon vivacity, point' and force, and is Democratic all ever, inside and outside.

The new Secretary of the Senate and Chief Clerk are both "Kurnels" -Burch and Shober. Even the Sergeant-at-Arms is a "Kurnel" too. In fact, they are all "Kurnels" except the Brigadiers.

A New York letter of the date of the 25th thus summarizes the market:

"The dry goods jobbing trade continues fair. Garner's and Harmony prints are advanced \(\frac{1}{2} \) cent. Cotton and dress goods are in steady request at first hands; brown and blesched cottons firm, and stocks light; men's wear woollens quiet in agent's hands, but are jobbing fairly."

Absenteeism will be at a heavy discount in Congress during the present session. The Democrats have but four majority, including Speaker Randall. The boys will have to stand fast, and watch all the time. It may, indeed, prove a blessing to the country and to the Democrats themselves.

The Holmans made no more impression at Savannah than they did in Wilmington or Charleston. The Neics says:

"The very faint applause of the evening showed unmistakably the feelings and opinions of the audience, the only encore being given Mr. Bradshaw's song of 'Nancy

The Charleston News and Courier of the 26th says that "Senator Hampton is improving steadily, but the physicians in attendance upon him agree in the opinion that it would be exceedingly imprudent in him to go, at this time, to Washington." It

"We are authorized to say, however, that in case any emergency should arise calling for the voice or vote of Senator Hampton, he will, whatever the cost to himself, go instantly to Washington and be sworn in."

Senator Beck was correct when he said in the Senate that if it is true that the President has said he would veto the appropriation bill, he had been guilty of "an indecent threat." Gen. Grant said some years ago that it was an insult to the Senate for a President to declare in advance of legislation what he would do with a bill. He was clearly right, although his own conduct may not have tallied with his declarations.

The New York Tribune-run mad Radical-says the President "will accept the challenge unhesitatingly, and will veto the bills proposed by the Democrats in regard to Deputy Marshals, &c. It says "every such law, if passed, whether as a separate measure or as a rider on appropriation bills, will be vetoed." So a square issue will be made and a square fight will follow. We cannot doubt the result. The people are not yet ready to be bull-dozed out of all their rights, or to be cheated again out of their choice for President and Vice President.

The fire is supposed to have originated from the chimney. The citizens of the neighborhood, inspired with that true Christian sympathy and charity that helps a fellow man when in trouble, nobly raised a liberal subscrip tion for Mr. Carmichæl, which will be of great help to him in his loss. - A youthful drummer named

Wellhouse, from Baltimore, sold goods in Charlotte without license. The Observer says he was a very young and inexperi-enced salesman, this being his first trip, and in consideration of these facts he was let off with a small fine and the costs, and ordered to sell no more goods in the State. The fine attached to this offence is \$250, and the guilty party may be imprisoned for thirty days. The cost of a State license is \$100. Charlotte imposes no tax for the right to sell within the city limits, though many other cities do.

Catholic Jubilee.

Pone Leo XIII. having, as usual on the occasion of a new Pope, proclaimed a jubilee, that is, a plenary indulgence, to be gained upon the fulfilment of certain conditions, in order to obtain, by a union of prayers and good works, the blessings of God upon his pontificate and the fight and grace of the Holy Spirit for the proper discharge of his duties, Bishop Keane, of Richmond, has issued a pastoral letter, explaining the conditions required for gaining the indulgence, and giving directions for the religious exercises. Here, where there is but one church, six visits are to be paid, and each time prayer recited "for the prosperity and exaltation of the Catholic Church and the Apostolic See, the extirpation of heresies, and the conversion of all who are in error; the concord of Christian ruler; the peace and unity of all faithful people; and the intentions of the Holy Father." Where there is no church, prayers are to be recited on six different days in families or congregations. Secondly, to keep a strict fast of one day; thirdly, to receive devoutly the Sacrament of Penance and the Hely Eucharist, and fourthly, to give some alms to the poor or in aid of some pious work, as may be suggested by the piety of each one.

The time allowed for the jubilee extends to Pentecost, June 5th. The Forty Hour devotion to the blessed Sacrament in memory of the forty hours of Christ's passion is also sometimes observed.

Military Meception of a Lady's Me-

The unusual, but in this case not inappropriate spectacle, of the reception of a lady's remains by military, was witnessed in this city, the late Mrs. Derah Gregory being the subject of the honor. At the hour of 11.25 A. M., yesterday, the train of the Central Railway reached the depot, and besides a large number of friends of the family, a detachment of the Wilmington Light Infantry was present. The remains were removed from the special car, the cortege was formed, and, with the citizens soldiery in front, all that was spared of the amiable and beloved lady was borne to the residence of her kinsman, Mr. Jao. E. Lippitt. The scene was one of unusual solemnity, and inspired general sympathy for those who are specially bereaved by the death of Mrs. Gregory.

The funeral takes place this afternoon at 4 o'clock, from St. James' Episcopal Church, and the W. L. I, in which the deceased held membership, will attend in a body and in full uniform as a further tribute to the deceased.

Killing Stock.

Before Justice Gardner, yesterday morning, was heard the cases of Creach and Mrs. Ward, of Columbus, vs. the Receiver of the W. C. & A. R. R., for damages for stock alleged to have been killed on said road. The attorney for the road moved the dismissal of the cases on the ground that the Court had no jurisdiction in bringing suit against a Receiver of the road. In other words, that when a road has passed into the hands of a Receiver it is not liable to any such action. The motion was overruled and the cases tried, upon the conclu sion of which judgment was rendered for the plaintiff in each case, and the attorney for the road appealed to the Superior

Peschau & Westermann have received a letter to the effect that the German barque Frederich Scalla, which was announced to be on her way to this port from Rio Jaceiro, will not come here at all, but is making her way to Port Royal, Jamaica. It will be remembered that Capt. Wasck, the commander of this vessel, and who was well known in shipping circles in this city, died of yellow fever while at Rio, and that a week or two since, under the supposition that the Frederich Scalla was on her way here and might soon arrive at the mouth of the river, Dr. Curtis, quarantine physician, was notified by the Mayor that she would not be allowed to come up to

Intimidation Among the Braymen. There are lively scenes sometimes among the draymen who usually congregate at the wharves where wood is landed. There is a sort of understanding among them that a certain price is to be charged for the delivaery of a load of wood, and if one happens to charge less, on account of the nearness of the place of delivery, or for any other cause, the rest of the draymen make a great fuss about it and endeavor to intimidate the man by threats, &c., to relinquish ers, we learn, actually had his horse and dray pitched into the dock because he insisted upon hauling a load for twenty cents, when the regular price was twenty-

The Way to Do It. The steamer Clinton, Capt. Bisby, arrived here yesterday from Bannerman's Bridge, with a cargo of 700 barrels rosin. A few months ago the Clinton was a mere wreck, but thrift and go-aheadativeness led Bisby to suppose that he could make her pay. He is doing it, and it is this kind of energy which we need right here and now.
