Symptoms of a Diseased Liver.

JAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone some-thing which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensa-tion of the skin; his spirits are low;

Facts that the Public Should Remember.

Advice that Should Not be Forgotten.

It is the "old, old story." It is found in the an nals of every medical specialty possessing merit that a brood of adventurers are certain to fellow in its wake, clamoring for public favor, in order to derive profit by palming off their imitations, and thus hoping to reap where others have sown. Genuine remedies alone attain after long trial and salutary results, a permanent reputation and lodgment in the affections of the afflicted. This the Holman Liver Pad Company's remedies confessedly have done in every clime where sufferers have tested

During the last five years, since their reputation has been established, not less than fifty-eight imitations have made their appearance and been placed on the market, usually under a great flourish and blast of trumpets; and each of these within a short time has died, as all others of a similar class are certain to do, namely, with quick consumptiontheir fleeting existence being sometimes a little prolenged by a liberal waste of money. And why? Because some so-called "Liver Pads" have proved a dangerous poison; others, in a vain attempt to make up for the lack of the necessary ingredients were to be kept moist with a fiery liquid, but with the direction that it be applied with extreme cantion, while others were as passive as so much sawdust. The imitators cometimes add to the stolen title of their pad the name of some noted physician who died long before absorption was heard of as

They also act in defiance of an Act of Congress. declaring the use of copy-righted matter, etc., as riminal. More fiagrant, brazen-faced examples, li able to the fullest extent of punishment, were never before witnessed than from this class of buzsards in human form.

These are a few of the many practices resorted to in palming off upon the public these monstrous deceptions. The following is another instance: An employee recently discharged from the effice of an gent of the Holman Liver Pad Company, appar ently desirous of getting into the pad business as a proprietor, and believing that the formula was in the pessession of that agent, repeatedly offered money to the office boy to obtain a copy of the ame. Upon the private desk was left a decoy paper marked "Important-Fermula." He secured a duplicate copy, supposing it to be the true secret of making pads, whereas it contained, in fact, not one ingredient of the Bolman Pad, but was absolutely | The Durham Brand of Smoking Tobacco worthless. Nevertheless, it has been proclaimed as the "scientific" basis of one of the "GRANDEST DISCOVERIES OF THE AGE." but sold at a reduced price. This thing has been so advertised and put upon the market within the last few weeks; and this and similar enterprises are aided by firms known, in the language of Marc Antony, as "hono

Because of these oft-repeated 'honorable" pra tices, and as a protection to the public and to this ompany, a convention was held at the Holman Li ver Pad Company's headquarters, No. 93 William Street, New York, January 8, 1879, attended by all the sgents in this country, the Canadas, and representatives from Europe, to devise some plan whereby the genuine pad and its auxiliaries should hereafter be found in the hands of one reliable representative, properly accredited, in every town in the United States and elcewhere. It was decided the representative should be, generally, one of the best retail druggists in the place. This plan is now be-

ing thoroughly carried out. Good judgment will suggest the purchase of nor but the HOLMAN LIVER PAD OCMPANY'S REMEDIES, which have stood the severest test. Remember always that it is the genuine article only that imitators copy.

Holman Liver Pad Company.

These remedies, which are the sole exponents of the CURE BY ABSORPTION, as opposed to DOS-ING. have been proved the cheapest and MOST EFFECTUAL REMEDY FOR ALL DISEASES ARISING FROM MALARIA OR A DISORDERED STOMACH OR LIVER, and it is a well known fact that nearly all the diseases that attack the human body can be traced directly or indirectly to these two ergans. body can be traced directly or indirectly to these two brgans.

It is known by actual experience that there is no disease that attacks the youth er adult of both sexes that can even be modified by the use of drugs, but that can be acted on in a far more satisfactory and permanent manner by the HOLMAN LIVER PAD CO.'S REMEDIES.

TIMBOELLANGOUS.

This important organ weighs but about three pounds, and all the blood in a living person (about three gallons) passes through it at least once every half hour, to have the bile and other imputities strained or filtered from it. Bile is the natural purgative of the bowels, and if the Liver becomes the principal it is not separated from the blood, but carried through the veins to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased, and Dyspepsia, Indigestion, Constipation, Headache, Elliousness, Jaundice, Chills, Malarial Fevers, Piles, Sick and Sour Stomach, and general debility follow. MERRELL'S HEPATINE, the great vegetable discovery for torpidity, causes the Liver to throw off from one to two ounces of bile each time the blood passes through it, as long as there is an excess of bile; and the effect of even a lew doses upon yellow complexion or a brown dirty looking skin, will astonish all who try it—they being the first symptoms to disappear. The cure of all bilious diseases and Liver complaint is made certain by taking Hapatine in accordance with directions. Headache is generally cured in twenty minutes, and no disease that arises from the Liver can exist if a fair trial is given.

Grave mistakes are made in the treatment of all diseases that arise from poison in the blood. Not one case of Scrofula, Syphilis, White Swelling, Ulcerous Sores and Skin Disease, in a thousand, is treated without the use of Mercury in some form. Mercury rots the bones, and the diseases it produces are worse than any other kind of blood or skin disease can be. Dr. Pemberton's Stillingia or Queen's Delight is the only medicine upon which a hope of recovery from Scrofula, Syphilis and Mercurial diseases in all stages, can be reasonably founded, and that will cure Cancer. \$10,000 will be paid by the proprietors if Mercury, or any ingredient not purely vegetable and harmless can be found in it.
