LITERARY GOSSIP.

Donald G. Mitchell is writing - George Eliot has lately fallen into a state of such indifferent health that she is unfit for much intellectual labor, and her medical advisers are dubious as to the propriety of her resuming the writing of iction for several years.

- Edmond About, in the London Athenaum, condemns th "Assommer" and all the other novels of Emile Zolu as foul trash, reaping a pecuniary harvest through the debased taste of the hour; by their side, he says, Paul de Kock's novels entitle him to a monument five hundred feet high.

Mr. Tennyson has written for — Mr. Tennyson has written for the London Lyceum a new play in verse and five acts, entitled "Eleaner and Ross-mond." Mr. Green, the author of the "His-tory of the English People," says that with all his researches into the annals of the twelfth century, he had never arrived at so vivid a conception of the characters of Henry II. and his Court as is embodied in

DRAMATIC NOTE.

- Ada Cavendish begins her engagement at Wallack's with "As You Like It." - Ford and Zimmerman's children "Pinafore" will go from New York to

- Charles A. Mendum will leave for Europe in June in search of novelties, for the Arch.

DIXIE SOAP CAUTION

Facts that the Public Should Remember.

Advice that Should Not be Forgotten.

It is the "old, o'd story." It is found in the annals of every medical specialty possessing merit that a brood of adventurers are certain to fellow in its wake, clamoring for public favor, in order to derive profit by paiming off their imitations, and thus hoping to reap where others have sown. Gennine remedies alone attain after long trial and salutary results, a permanent reputation and lodgmen in the affections of the afflicted. This the Holman Liver Pad Company's remedies confessedly have done in every clime where sufferers have tested

During the last five years, since their reputation has been established, not less than fifty-eight imitations have made their appearance and been placed on the market, usually under a great flourish and blast of trumpets; and each of these within a short time has died, as all others of a similar class are ertain to do, namely, with quick consumptiontheir flecting existence being sometimes a little prolenged by a liberal waste of money. And why ! Because some so-called "Liver Pads" have proved dangerous poison; others, in a vain attempt to make up for the lack of the necessary ingredient were to be kept moist with a flery liquid, but with the direction that it be applied with extreme can tion, while others were as passive as so much saw dust. The imitators sometimes add to the stoler title of their pad the name of some noted physician who died long before absorption was heard of as a

They also act in defiance of an Act of Congres leclaring the use of copy-righted matter, etc., a eriminal. More flagrant, brazen faced examples, li able to the fullest extent of punishment, were ne ver before witnessed than from this class of buzsards in human form.

These are a few of the many practices resorted to ceptions. The following is another instance : An agent of the Holman Liver Pad Company, apparently desirous of getting into the pad business as proprietor, and believing that the formula was the possession of that agent, repeatelly offered money to the office boy to obtain a copy of the ame. Upon the private desk was left a decoy p per marked "Important-Formula." He secured a implicate copy, supposing it to be the true secret of peredient of the Holman Pad, but was absolutely this and similar enterprises are aided by firms known, in the language of Marc Antony, as "hone

company, a convention was held at the Holman Liver Pad Company's headquarters, No. 93 William Street, New York, January 8, 1879, attended by all the agents in this country, the Canadas, and repreentatives from Europe, to devise some plan whereby the genuine pad and its suxiliaries should hereafter be found in the hands of one reliable representative, properly accredited, in every town in the United States and elsewhere. It was decided the representative should be, generally, one of the bes retail druggists in the place. This plan is now be ing thoroughly carried out.

Good judgment will suggest the purchase of none but the HOLMAN LIVER PAD OCMPANY'S REMEDIES, which have stood the severest test. Remember always that it is the genuine article only

Holman Liver Pad Company.

These remedies, which are the sole exponents of the CURE BY ABSORPTION, as opposed to DOS-ING. have been proved the cheapest and MOST EFFECTUAL. REMEDY FOR ALL DISEASES ARISING FROM MALARIA OR A DISORDERED STOMACH OR LIVER, and it is a well known fact that nearly all the diseases that attack the human body can be traced directly or indirectly to these two ergans.

It is known by actual experience that there is no disease that attacks the youth er adult of both sexes that can even be modified by the use of drugs, but that can be acted on in a far more satisfactory and permanent manner by the HOLMAN LIVER PAD OO. 8 REMEDIES.

NUMBERLESS CASES, FINALLY ACKNOWL EDGED TO BE BEYOND THE REACH OF ME DICINE, HAVE BEEN SAVED UNDER THE MILD ACTION OF THESE REMEDIES ALONE.
