Conkling is loading heavily for another "greatest effort of his life." He is smarting under the excoriations of Ben Hill, and his friends say he will be very rough in reply. Well, if Ben cannot take care of himself in an intellectual tussle with Lord Roscoe, then we are much mistaken.

Judge Thurman's speech, according to the moderate Baltimore Sun, was "replete with logic and common sense." It says:

"In replying to the speeches of some of the Republican Senators, and exposing the falsity of their statements, he used very plain and severe language, but which many will think not undeserved. In the course of his remarks he drew a very graphic picture of the evil effects of the operation of the juror's test oath and of the election laws, and instanced in the mosi striking manner how these laws were administered simply and solely for the benefit of the Republican party and to carry out its partisan purposes and ends."

The Richmond State gives notice that Dr. G. W. Bagby ("Mosis Addums") will act as special correspondent of that paper, and will make an extended tour through Northern and Eastern North Carolina, and that he will be "amang" our people "takin'

"And faith, he'll prent em."

Well, let him come, our people have seen big Virginians before, for Washington once travelled through the Old North State. We have plenty of boys and girls who can beat Mosis spelling "all holler." But he will be none the less welcome.

Old Zach (Mizzer President) Chandler must have looked lovely when Ben Hill gave him such "fatiguing time." There is no doubt of it he came near exploding from "spontaneous combustion." The Chicago Inter-Ocean loves Chandler. He is a fellow after its own style, and yet its correspondent thus paints Old Zach's "picture:"

"His aftack on Chandler made the war Senator furious. The latter flushed in the face. Great red spots appeared under his eyes, while he rolled his optics in such great excitement that sometimes only the whites were visible. There was something grotesque about the old man's savagery to-day. The way he sagged to and fro, pounding the desk and rolling his eyes until only the whites were visible, made some fear that Mr. Chandler might have an apoplec-

THE CITY.

Senator Thurman, in his recent speech, showed that five-sixths of the money expended as bribes, in the shape of salaries to deputy marshals, was applied to four Northern Democratic States, and the result was, by using such infamous means, fourteen Republican Congressmen were gained. That explains why the Stalwarts are so much bent on retaining the old despotic and corrupt machinery.

Attorney General Kenan says that it is the duty of the person appointed to list the taxable property in his township, to require each citizen to give in the amount of his productions, upon the blanks prepared for the purpose, in order to facilitate the collection of rehable statistics.

"This duty is imposed by law upon the Justice of the Peace, or free holder selected by the Commissioners under Section 1, Chapter 155, laws 1876-'77 (Machinery Act), and as its performance will increase the number of days which would otherwise be sufficient for taking the tax list only, his compensation to be allowed by the Commissioners under said Section 1, would be proportionstely increased."

LETTER FROM COL. WADDELL.

The following letter from Colonel Waddell speaks for itself:

MAY 17, 1879.

Editor of the Star: My attention has been called to a statement in a correspondence of the STAR from Onslow county, that much regret was expressed at my failure to be present at the railroad meeting at Jacksonville, on Monday last, and to address them "according to promise." I desire to say that I not only made no promise to speak there, cbut that I was not invited to be present by any person connected with the railroad enter-Very respectfully,

THE NORTH CAMOLINA EPISCO-PAL CONVENTION.

> [Reported for the Star.] THIRD DAY'S PROCEEDINGS.

FAYETTEVILLE, May 16.—The Convention met this morning at 10, and was opened with prayer by the Bishop. Hon. Mr. Manning, chairman of the committee appointed to report on the indebtedness of John Wilder to the Diocese.

offered the following resolution: Resolved, That a committee of three laymen be appointed to take such measures as they deem proper to adjust and secure, and by compromising or otherwise, the in-debtedness of the former Treasurer, John Wilder, to the Diocese, and report to the next Convention, which was carried.

Hon. John Manning, and Messrs. Henry A. London and R. H. Battle were appointed as the committee. The resolution in regard to the alteration

of the Constitution in the matter of electing a Bishop, so as to allow the Laity the privilege of participating in the nomination, instead of the Clergy being alone entitled to the right of nomination, as at present, next came up, and was warmly discussed After speeches on the part of Mr. H. A. Lendon, in favor, and Rev. Mr. Keenan and Rev. Dr. Watson against the proposed change, the resolution was rejected by the following vote: Clergy—yeas 14, nays 26; Laity—yeas 14, nays 13.

On motion of Dr. DeRosset, Resolved, That the Finance Committee be requested to report at the next Convention a plan for the safe keeping and man-agement of the permanent Episcopal fund now belonging to, or which may hereafter be acquired by, this Diocese; and also to report whether, and in what manner, the Treasurer had been required to enter into bond for the safe keeping and proper disbursement of the funds coming into his hands from time to time for the current purposes of the Diocese. Carried

The Committee to draft resolutions concerning the deaths of Gen. J. G. Martin and Hon. John Manning, reported and the resolutions were unanimously adopted. Appropriate tributes to the memory of the deceased were delivered by Rev. Dr.

Buxton, Major James C. McRae, Dr. A. J. DeRosset, Mr. H. A. London, and lastly by Bishop Atkinson. Dr. Marshall read the report of the com-mittee on the State of the Church, and pre-

sented the following statistics: Families 2554, number of souls 11,205, infant baptisms 629, adult baptisms 150. Total 779. Confirmations 449, communicanta 5544, marriages 124, burials 237, Sunday School scholars 3039, Parochial scholars 322, contributions \$51,853 92.

The committee on Finance made a written report reducing the assessments of several of the parishioners. The Committee on New Parishes made another report recommending that St. Augustine's Parish, Raleigh, be admitted

into the Diocese. The committee en changing the canons without changing their intent, so that there may be no derangement among them, made

On motion, the report was referred to he Committee on Canons. On motion, it was resolved that the Convention adjourn, to meet at half-past 4

Dr. Watson then made a speech, proposing some improvement in the wording of the Constitution and of the Canons. On motion, the Convention adjourned.

A Rare and Curious Fish.

very curious specimen of a fish, which was caught on Tepsail Sound, by Mr. S. J. Sneeden, yesterday morning. Mr. Sneeden left the fish on exhibition at Huggins' store during the day, where it was viewed by many curious persons, none of whom could designate its variety except one professional gentleman, noted for his naturalist tastes. This gentleman, after consulting the authorities, pronounced it to be what is known as the "hair-tailed mackerel, or

scabbard fish," a variety very rarely seen. The fish looks like a cross between a mackerel and an eel, with a scaleless skin. much like the former. In shape it closely resembles a scabbard, is about two feet and a half long by two inches wide at the breadest part, its body terminating in a flat tail, nearly round at the ends and about six inches long, with a slight growth nearly resembling hair. The head is somewhat similar in shape to a mackerel, with the under part of the mouth protruding in advance of the nose. The mouth is furnished on the sides with rows of fine, sharp teeth, while those in front are long and resemble a squirrel or a rat. Taken altogether, it is a most curious specimen, and warrants, by its rarity, this detailed de-

The Excursion Tuesday.

scription.

There will be an excursion on Tuesday next, the 20th instant, under the auspices of the Fifth Street M. E. Church, on the steamer Passport, to Smithville and Fort Caswell, the proceeds to be for the benefit of the Sunday-school and Sewing Society of that church. Ice cream and strawberries will be served by the ladies at reasonable prices. Tickets are offered at very low figures, and all can embrace the opportunity to visit the seashore.

In justice to the managers of this excursion we would state that at the time they made their arrangements they knew nothing of the proposed "Pilots' Excursion" for that day, as might be inferred from a notice in our paper of Wednesday last. When the fact did come to their knowledge they considered it too late to change They had no disposition, as we are assured, to run in opposition to the "Pilots' Excur

A New Industry.

A new industry and article of export has lately come to the surface in our commercial world, in the hitherto neglected, despised and apparently worthless pine straw, which formerly could not be utilized in any other manner than in making hog beds, covering Irish potato beds, strawberry beds, &c. Mr. C. H. Wessell, of this city, acting as agent for a factory in New York, is now buying and shipping all the pine straw he can get. He shipped eight tons by the last New York steamer, and he informs us that the factory requires about fifty tons per week. It is said that at the factory where it is consumed it first undergoes a sweating process, by which an article of spirits is obtained which is used for medical purposes, and that it is then manufactured into paper and also into an article for stuffing mattresses. Quite number of the colored population are now engaged in baling the straw and bringing it to this city for the purposes above men-

The Pilots' Excursion. Our readers will bear in mind the excursion to Smithville on Thursday. The proceeds will be for the widows and orphans of the pilots who sacrificed their lives in the discharge of duty several years ago, and it is hoped that a large number of excursionists, both ladies and gentlemen, wil not only patronize the excursion, but attend the monumental dedicatory services at Smithville. The address by Rev. E. A. Yates, of this city, will of itself be a rich treat, if we are permitted to express an opinion based upon his fine pulpit ability as displayed in his ministrations at the Fron Street Methodist Church in this place.

Ladies having flowers to centribute for the purpose of decorating the graves of the brave pilots, will please have them at the boat Thursday morning before the hour for leaving.

Anniversary. Yesterday was Norway's "4th of July," being the anniversary of the union between Norway and Sweden, which took place on the 17th of May, 1814. It was also the birthday of Vice Consul Heide, the representative of Norway, Sweden and Denmark at this port. In honor of the double event the flags of the Scandinavian shipping in port were displayed during the day, as also the flag of the Vice Consulate. Mr. R. E. Heide, the Vice Consul, being absent from the city, there was only a private entertainment at the residence of Acting Vice Consul A. S. Heide, last evening, where a few friends were invited, in lieu of the more public celebration usual on the oc-

Another Entertainment at the Academy of the Incarnation.

The pupils of the Academy of the Incarnation will present some time this week, "Athaka," a drama translated from the French of Racine by Miss Annie Conigland, a pupil of the institution and daughter of the late Col. Edward Conigland, of Halifax. The author's high rank in the literary world as a dramatist, and the fact that the translation is spoken of as excellent by competent critics, should attract a large sudience to witness the first presentation of "Athalia" in this city.

There is an unmailable letter remaining in the pessonice addressed to county, Nebraska.

We had brought to this office, last night, LADIRS' BENEVOLENT SOCIETY. Not willingly, but of necessity, the President feels called upon to make a plain statement of the present condition of this Society, which for more than thirty years has been active in dispensing aid, as op-portunity and means enabled us, to the sick and needy around us. In latter years it has become common for gentlemen to send strangers to the President or Visitors for such aid. This was not the original purpose of the organization, which at first restricted its operations to the poor of the community in sickness or some other great trouble. The amount required for mem-bership was placed very low, in the hope that none would find excuse for failing to spare from dress or indulgence \$1 00 annually-less than two cents a week-for sustaining this branch of the Lord's Treasury. In this we have been disappointed and now we deem it proper to let it be known that since the war the number subscribing has never exceeded, and hardly ever reached, one hundred, while the amount distributed (enlarged often by generous donations) has sometimes been more than \$200. This year we have but sixtyone subscribers on our list, and fewer donations in money than usual. Consequently, after settling bills for April, we find our selves with just \$5 remaining in the Bank. And now it is right that we should say, with many thanks to the denors, that nearly all the provisions distributed by us during the last three months have been the gift of one firm (well known for its liberality) whom delicacy forbids us to name here; and it is only through their bounty we have wherewith to meet the claims, this month, of those whose necessities

drive them to us. Might we venture to add the request that some of the gentlemen who read this will aid us by their wiser counsels, individually or otherwise, as to some suitable means of replenishing our treasury? The summer is before us, and necessities may then be more urgent. Several solicitations for a Lecture on this behalf have been unsuccessful, yet we feel assured that the Lord's Poor will be fed. PRESIDENT. May 17th, 1879. Review please copy.
