

Warner Silver bill if amended in some particulars, but not until next winter. He says the Democrats are trying to pass it new to affect the Ohio election. Very likely.

It will be remembered that the committee who formulated the report that was adopted by the Democratic caucus was composed as follows: Senators Thurman, Eaton, Vance and Bailey, and Representatives Chalmers, Springer, Ewing and Reagan.

We have faith not only in Edison, but in his electric light. He says it will be all right after awhile, and we expect it will be so. On May 20th he wrote to a Northern paper:

"I have nothing new at present to communicate regarding the electric light, but the whole subject will go through the 'press mill' ere long, as I am just now rounding up the corners, and expect to show the unbelievers something that will make them doubt no longer. As soon as I am ready to make an exhibition of the light here, I shall open my laboratory."

The Tildenites of New York are much exercised over the probability of Thurman's nomination for Governor of Ohio. Grammercy Park is in a flutter. The Tammany boys are in corresponding good spirits. The well informed correspondent of the Philadelphia Ledger says:

"The Republican politicians, judging by their talk, would rather see any other man than Thurman nominated, and to that extent therefore they must be said to be in sympathy with the Anti-Tammanyites. They say they calculate to carry the State anyhow, but they think they could have au easier fight with Bishop, or some other man of that kind."

Every newspaper reader knows "Gath"-a gifted, wordy fellow, whose real name is Townsend. He is a regular Bohemian, and of the worst type. He is now engaged in lampooning leading Democrats in the Senate. Here is what he says of North Carolina Senators:

"Until Vance got into the Senate North Carolina had one of the best representations from the South-Ransom and Merrimon. The latter, from Buncombe county, which has changed its name to Transylvania, was a good judicial officer, and left one of the best records in the Senate. However, his election was an accident, as it was the intention of the Democratic party to choose a worse man, but, coming to a deadlock, the opponents of the positive candidate rallied on Merrimon. Ransom is regarded as a kind, upright man; not very strong, but faithful to his engagements. Vance has a bad record."

- Washington Press: We learn from a party over in Martin county that a frost visited this section on Thursday and Friday night of last week, and worked havoc with the cotton crop in that region. We learn that a severe slorm passed over Pitt, Craven and Pamlico counties on last Wedneeday, accompanied by a heavy hail, doing considerable damage in Pamlico t

the growing crops through that section. - Norfolk Landmark: Governor Vance, as our readers know, delivered the address at the Lynchburg Fair, and took his audience by storm as 18 his habit on such occasions. He was pathetic, humor-ous and full of robust sense by turne, and as an evidence of the latter quality, we are glad to mention the fact that he urged his hearers not to neglect the acquisition of useful trades. These were wholesome words.

Destructive Fire in the Country. Information received here vesterday confirmed the first report of the destruction by fire, on Tuesday morning last, of the fine residence of Mr. David S. Sanders, about eight miles from this city, on the Holly Shelter road. It appears that the fire was first discovered by Mr. J. E. St. George, son-in-law of Mr. Sanders, who at the time was out in the field. He immediately gave the alarm and quite a number of colored laborers from that and adjoining plantations came to his assistance, and Jacksonville,.....81 through their united exertions nearly all of the furniture was saved, but the building itself was entirely consumed. A set of harness, a bedstead and a few other articles

of slight value were burned. A fine setter dog, belonging to Mr. St. George, was accidentally shut up iu a room on the second floor during the hurry of known it was too late to save him. The house was a very fine one, consisting of two stories and a basement, and supplied with all the modern improvements and conveniences. Its original cost, we understand, was about \$9,000. It was insured in a company represented by Mr. Norwood Giles, of this city, for \$4,500. It is almost impossible to form any idea as to how the fire originated. It was first discovered in the attic, but there had really been no fire in the house during the morning. The only theory so far advanced is that it must have been caused by the ignition of matches by rats or mice.

Expected Visit of Rev. Dr. Hiden-His Proposed Lecture on Tuesday Evening. Rev. Dr. J. C. Hiden, formerly pastor of the First Baptist Church of this city, is expected to arrive here on Friday or Saturday morning next, accompanied by Mrs. Hiden, and on Sunday will preach to his old con-

gregation at the above place of worship. On the Tuesday evening following, at the Opera House, he is expected to deliver his lecture on "Shadows," admission to which will be free.
