THE MORNING STAR.

VOL. XXIV. NO. 104.

WILMINGTON, N. C., FRIDAY, JULY 25, 1879.

WHOLE NO. 3,728

OUTLINE.

At Quincy, Ill., a band of men took Frank Hobbes (colored) from jail, killed him, and dragged his body through the town. A band of men attempted to release Thompson Moore, an ill-dressed man, from jail at Overton, Tenn. They were driven off by the sheriff and a posse. Fourteen new cases reported at Memphis. Government tents have arrived. A camp will be established seven miles from the city; the colored people are freely offering themselves as nurses. The British have fallen back to Kambavase; the whole force will unite under Sir Garnet Wolsey's command; nothing of value was found at Ulundi; Cetwayo is in a new stronghold; it is doubted if he is coming to terms. Republican State Convention of New York will be held at Saratoga on the 30th of September. Two hundred nihilists are to be tried by court martial, at Odessa, in August. Lees & Bro., cotton spinners of Manchester, England, have failed; liabilities \$300,000. Crowded meeting at Bordeaux, France, in interest of Darien canal; it was announced that American support had been secured for the project. It is positively stated that the bequest to Ex-President Jefferson Davis, by Mrs. Sarah A. Dorsey, is to be contested. Large fire prevails in Salisbury, Md., and the whole town is threatened with destruction. A less despondent feeling prevails at Memphis; the poor are being removed, and hopes are entertained that the fever will exhaust itself for want of material; negroes are flocking into the city and threaten to plunder and enrich themselves; fever of less violent type than last year. Galveston has established a rigid quarantine against passengers and freight from infected points. Four deaths yesterday at Memphis; five cases and one death at Mississippi city; three cases at Bon Aqua Springs, Tenn. John Bright, in a speech Wednesday, pronounced the effort of the English to rule in Asia a failure. An aged female was choked to death and her husband shot near Coonewong, N. Y. The New York Hebrews are indignant at the order excluding them from the Manhattan Railway and hotel. Another case of supposed yellow fever developed in New York. New York markets: Money easy at 2 1/2 per cent; cotton firmer at 14 1/2@15 cents; flour, shipping grades scarce and wanted at full price; southern steady at \$5.00@7.00; wheat quiet and without important change; corn 3c better and moderately active; spirits turpentine dull and weak at 26 1/2@26 3/4; rosin quiet at \$1 27 1/2@1 32 1/2.

The pistol has been used in Washington with perhaps fatal effect. A saloon keeper named Wm. Brown shot Thomas Sutton because he "assaulted his wife and refused to pay for some cigars he bought." Capt. Webb, who swam across the English Channel from Dover to Calais in 1875, in a simple bathing suit, is in New York. He will challenge Capt. Boynton for a swimming match, and will give exhibitions in swimming. The Richmond State, after copying the composer's blunder about "Much Sounding Tilden," says: "The composer we think had the best of you in truth as well as poetry. It is so Homer-like—'Loud Thundering Jove,' 'Cloud-Compelling Jupiter,' &c., but he met a just fate." The Charlotte Observer of the 23rd has some good reading for dulcet piping times of peace. It is a strong and pointed editorial upon "The North Carolina System." We shall make some extracts when our columns are more at our command than at present. The great German Volkfest is progressing near New York. Daily attendance from 15,000 to 20,000 people. Lager beer in abundance but no whiskey allowed to come on the grounds. The New York letter of the 22nd to the Philadelphia Ledger says: "The German programme is a very extensive one, and includes not only gymnastics, singing and dancing, but pyrotechnics and oratory as well. The instrumental music, as at almost all German festivals, is of a very high order, the bands being made up of the choicest talent to be found in the city and the country roundabout. The display of the Turners' societies was the leading attraction of to-day's proceedings." Col. Mosby has written a letter to his brother contradicting the report concerning his gross breach of etiquette, &c. He says there is not one word of truth in it. He appeared in the regulation spike tail. He adds: "Just before I left Washington I met Minister Seward and his clerk Bradford. You remember that they were then undergoing an investigation by Congress. I had on a new slouch hat that I had just bought. Bradford asked me 'if I was going to wear a slouch hat to Ohio?' I replied that I was. He said, 'That won't do; the English newspapers will ridicule you; I felt indignant, of course, at the impertinence of the fellow, and I replied that 'I would dress in China just as I dressed in Washington, as I pleased and as suited me. You may rely on one thing, they may object to my dress, but they will never accuse me of stealing anything.' He felt the cut I gave him, and of course that angered him, and he said his crowd had been doing everything in their power to annoy me ever since."

THREE DISTINGUISHED MEMBERS.

Three distinguished members of the House of Representatives have been interviewed recently, and what they said is important enough to be noted specially. Gen. Chalmers, of Mississippi, said Tilden is unpopular in the South. The Southern has no faith in him; does not like him. Mississippi prefers Thurman. General Hancock is popular, and General Chalmers is not certain that he is not the most available man. He is a thorough Democrat, is in sympathy with the Southern people, and his being a Union General would not hurt him in the South. He thinks Grant will get the Republican support in Mississippi, and if nominated would receive every Republican vote in the South. If the Democrats nominate Thurman or Hancock they will win. If they nominate Tilden they will be beaten. So much for General Chalmers' views, which we have greatly condensed.

Gen. Johnston was next interviewed by the correspondent of the Cincinnati Commercial. He thinks Judge Thurman is the choice of Virginia. We copy from the report: "What do you consider as the most important work of your party during the session?" "Our persistent action to defeat the employment of marshals and deputy marshals at the polls. That of itself was a great victory and will entitle us to a great consideration, I think, at the hands of all those who wish to see the freedom of the ballot maintained and all elections held by the party themselves, and the judges they select, unswayed and untrifled by the dictation of a soldiery and police force which is used for partisan purposes only. From present appearances I do not see how they can help but win."

Next Col. Roger Q. Mills, of Texas, was cornered. He thinks Thurman the best man to harmonize the party. Bayard has no showing. Hancock is quite available. "He stands well with our people and has a splendid record. His views on politics and finance suit us exactly, and I am not so sure but that he would be our strongest man."

Of Tilden he said: "Tilden is unpopular in the South. We have lost our confidence in him. He was forced on us in 1876, and we don't want the game repeated. I think he is the weakest candidate that could be named by our party."

He thinks the Republicans will nominate either Grant or Sherman. Both are strong and would poll the full strength of the party. He says the ex-leaders are for Grant. So much for the interviews.

The Chattanooga, Tenn., correspondent of the Norfolk Virginian says that what he wrote months ago that "there had been suspicious cases of fever at Memphis throughout the whole season" has been "confirmed" by "the events of the past few days."

The cases that have occurred recently "are from cases which have survived last year's epidemic." He draws this inference: "This doctrine should be sufficient, in my judgment, to warn the people of the Southern States that their cities are liable to annual attacks from this disease, coming not from foreign countries, but from our own climate and local sanitary causes. What we have reached this conclusion we meet the question face to face of what is best to be done about it."

He advises every one to leave who can, and says further: "We should organize a thorough system of hospitals and internal quarantine, so that we may be able to put into effect the best means of holding the sick and keeping them from spreading the disease. It is likely to appear in some cities sooner than others, though the germs of the disease lie undeveloped in all, its development depending upon local causes, mere accidents. But when once started, the disease may be carried to and planted where it has not yet sprung up voluntarily."

Once more we quote, and it is important: "Do not listen to talk about 'spreads' and 'panic.' The people of Memphis, those who can go, are not leaving soon. Cities where the fever finds a congenial home or temporary lodgment are not quarantining any too soon and cannot make it too tight."

A communication in reply to "Junius" will appear to-morrow.

The Railroad Question. [Correspondence of the Star.] The accomplished author of the very interesting and forcible letters signed "Junius," and published in the STAR, upon the subject of the "So-called North Carolina System," is entitled to the gratitude of not only our business community at large, but of all true North Carolinians who are interested in the development of our splendid resources, and the fostering of home enterprise. Cities where the fever finds a congenial home or temporary lodgment are not quarantining any too soon and cannot make it too tight. The display of the Turners' societies was the leading attraction of to-day's proceedings. Col. Mosby has written a letter to his brother contradicting the report concerning his gross breach of etiquette, &c. He says there is not one word of truth in it. He appeared in the regulation spike tail. He adds: "Just before I left Washington I met Minister Seward and his clerk Bradford. You remember that they were then undergoing an investigation by Congress. I had on a new slouch hat that I had just bought. Bradford asked me 'if I was going to wear a slouch hat to Ohio?' I replied that I was. He said, 'That won't do; the English newspapers will ridicule you; I felt indignant, of course, at the impertinence of the fellow, and I replied that 'I would dress in China just as I dressed in Washington, as I pleased and as suited me. You may rely on one thing, they may object to my dress, but they will never accuse me of stealing anything.' He felt the cut I gave him, and of course that angered him, and he said his crowd had been doing everything in their power to annoy me ever since."

Spirits Turpentine.

One of the negroes who broke jail at Wadesboro has been captured. Blackall & Co., of Durham, have shipped tobacco to thirteen foreign ports. The Amateur Press Convention met at Goldsboro on the 21st inst. Geo. M. Carr, of Rose Hill, N. C., was elected President.

The Baptist Church at Raleigh has flourished very greatly under the pastorate of Rev. Mr. Pritchard, both natives of North Carolina. Asheville Courier: Judge Avery runs the court "machine" day and night, and is an everlasting worker. Heavy rain on Sunday of last week. Simon Dicks, colored, who stole Henderson Burns' horse from his stable in this place last February goes to the penitentiary for fifteen years.

Blackwell & Co. have been negotiating for the sinking of an artesian well upon their factory premises, and probably with this successful result will furnish us with the first example of such wells in this State. Ellboro Recorder. It strikes us there are wells of this sort in Edgecombe and Beaufort counties.

A large congregation assembled at the dedication of the new Baptist Church at Weldon, on Sunday. The Rev. Dr. McDonald, of Richmond, preached the dedicatory sermon, and also preached again last night. It is proposed to protract the meeting for a day or two at least. It is reported that a sufficient amount was subscribed to nearly or quite pay for the building of the church.

Durham Recorder: Mrs. Catharine Ray, who, as survivor, drew the pension of her husband, David Ray, a soldier of the war of 1812, died last week in Little River township, at a very advanced age. The following are the committees on the part of the Alumni of the University, appointed to solicit funds to be applied to the erection of a monument on Mount Mitchell to the memory of Dr. Elisha Mitchell, who fell a martyr to the cause of science in the service of the University. K. P. Battle, Chairman; J. B. Vance, R. Bingham, J. S. Carr and John A. Gilmer.

Oxford Torchlight: Mr. J. C. Hundley returned from Washington city last Saturday, where he obtained a patent on Young's X Roads. Our correspondent under date of 18th inst. says that "on the evening of the 17th, about 4 o'clock, two clouds, one from the northwest, the other from the southwest, met, resulting in the severest storm that has visited this community for fifty years. On the plantation of Mr. L. A. Blankenship there were some four houses blown down, including a barn, stable, &c. On the premises of Mr. S. Y. Ragsdale, the house of one of his tenants was unroofed."

Wadesboro Herald: The hog cholera is very prevalent in the southern portion of this county. We learn that the following persons had hogs to die during the past two weeks: Chapman Jeans 17, Lewis Horne 15, W. C. Little 30, Dave Smith 13, and Rich Taylor 28. Joe Lowe, living on the plantation of B. V. Henry, Esq., near Lileville, was bitten by a snake on Friday morning last, on his arm, and is in a very critical condition. He is pleased to be told that the work has commenced on the Cheraw & Wadesboro road in earnest, and that every effort will be used to push the work to an early completion.

Goldsboro Messenger: The unusually dry weather which has prevailed for the past two weeks, throughout this section, excepting now and then a small locality, has done some serious damage to the crops, and in some parts the prospects look indeed gloomy. An interesting revival of religion is in progress in the Quaker Church at Pine Grove, in this county, conducted by Prof. R. P. Troy of this town. Some sixty persons have professed religion. Mr. Lewis Henry Harris, a well-known citizen, who died on the 18th inst., and in him a good citizen has passed away. He was a consistent member of the Baptist Church at Magnolia. A telegram received by Mr. E. A. Wright, at Asheville, on the 23rd, brings the sorrowful tidings that his brother, Mr. C. B. Wright, is dead. We are pleased to receive very encouraging reports concerning the crops in Sampson county.

Shelby Advocate: The meeting is still in progress in the M. E. Church in this place. There have been several conversions and a large number of penitents. King's Mountain Baptist Association will be held this year at Prospect Church, six miles northeast of Shelby, embracing the fourth Sunday in August. It is learned that the Rev. Dr. Pritchard has been invited to preach a series of revival sermons in the Baptist church in this place. Dogs have been killing sheep again in the southeastern portion of the county. We say kill the dogs. Four prisoners in Cleveland jail, three white, one colored. The crops in some sections of this county have suffered considerably for want of rain. It is reported that a convict, an escaped convict who was sent to the penitentiary from Rutherford county, is at large in that county and threatening to burn out any man who attempts to arrest him. We learn that two men by the name of Powell, charged with being implicated in the killing of William Wilson, at the Cherry Mountain, have been arrested and lodged in the Rutherford jail. It is further stated that they implicate Mr. Owens, who is also in the same jail on the charge of retailing whiskey.

Charlotte Observer: Two forces of hands are at work on the side tracks and transfer platform which are being built for the Air-Line and Carolina Canal Railroads, at the junction of these roads near Asheville Mill. Side tracks are to be made sufficient for the accommodation of twenty cars, and the passenger shed will be 420 feet in length. Arrangements are being made in this city for a pedestrian match to take place shortly. The Engineers' Wooden Berry of the Air-Line, and A. L. Whaling, of the Charlotte, Columbia & Augusta Railroads. John M. Boyce, Esq., the Mayor of Pineville and Justice of the Peace of the township of the same name, died at his residence in this village on Wednesday morning, at 5 o'clock, aged 81 years. There is to be a prayer meeting of the people of Steel Creek township, at Big Steel Creek church to-day, for the special purpose of praying for rain. A young man named Wm. Miller, formerly employed in McNeill's miller yard, passed the Charlotte, Columbia & Augusta Railroad depot last night, and being accosted by an acquaintance, started to him that a negro on the outskirts of the city had fired at him, that he had killed his assailant with a rock, and was at that time going to see the sheriff for the purpose of delivering himself up.

THE MORNING STAR can always be had at the following places in this city: The House, Harris' News Stand, and the Star Office.

THE CITY.

NEW ADVERTISEMENTS. In this column a man has been killed by an oxcar through his back. Information was received here early yesterday morning of a fatal shooting affair at Castle Hayne, in Cape Fear Township, a few miles above this city. It appears that on Saturday evening last, about half-past 7 o'clock, a colored man named Randall Jordan, under commitment by Justice A. J. Grady for a fine and costs in a case of assault and battery, was being brought to the city in charge of Mr. E. E. Schriver, Town-ship Constable, to be delivered to the Sheriff, when he made his escape. Wednesday night Jordan made his way back to his home near Castle Hayne, when the fact was reported to Constable Schriver. The latter thereupon summoned a posse of men and went to Jordan's house to search for him. Among the member of the posse was one William Jones, colored, who went up to the house in advance of his fellows for the purpose of reconnoitering and satisfying himself that the man was there. Soon afterwards, a man came running from the direction of the house towards the spot where the Constable was standing. Mr. Schriver ordered the person to halt four separate times, but the party, paying no attention to the warning, continued to advance, and finally got near enough for Schriver to see that he held in his hand what is known as a horseman's pistol. All this time, it appears, the officer was laboring under the impression that the man approaching him was Jordan, and as now as he neared him, and he saw the weapon in his hand, he again ordered him to halt, upon which, no attention being paid to the summons, he fired at the advancing figure, and, as it afterwards proved, with fatal effect. Immediately after the shooting Constable Schriver shouted to Bill Jones (whose corpse was before him), and told him to come there, that he had shot Jordan. He then went for a light, and during his absence a colored man by the name of Dindley, who was also of the posse, came up and examined the body, and as Schriver approached with the light, he started him with the startling information that he had killed Bill Jones, his friend, and an innocent man. Mr. Schriver, accompanied by his father and mother, arrived here at an early hour yesterday morning, for the purpose of rendering himself to the authorities. He is a young man, aged only about 19 years, while the unfortunate victim of this sad mishap was aged about 30 years.

On hearing of the occurrence Coroner E. D. Hewitt summoned a jury of inquest and proceeded to the scene of the unfortunate occurrence with a view of discharging his official duty. The jury was composed of the following persons: D. S. Saunders, Foreman; J. W. St. George, Jasper Bishop, J. E. St. George, E. E. Giles, Wesley Nixon, N. Faison, Morris Nixon, Geo. Grady, Holly Grady and Jackson. The witnesses summoned were all colored. John Dudley, Rachel Jordan and John Standford and their testimony was entirely in the direction of establishing the conclusion that the relations between young Schriver and Wm. Jones were of the most cordial and friendly character; indeed, that the friendship subsisting between them amounted almost to affection and very unusual, considering that one was white and the other a negro man. The jury in their verdict merely affirm what is not denied, that Jones came to his death "from gunshot wounds in the breast, supposed to be inflicted by Henry Schriver."

However, there was a further inquiry into the merits of the case last evening before Justice Gardner, at his office in this city. In addition to a repetition of their testimony before the Coroner by the witnesses already mentioned, Justice A. J. Grady and the father of young Schriver were examined. Their evidence was purely and simply in substantiation of the declarations of the trio who preceded them, with the added fact that they had never known of any misunderstanding between the deceased and the defendant in the case, or between those persons and Randall Jordan, the man whom Schriver was endeavoring to arrest.

After the Magistrate heard the evidence, Marsden Bellamy, Esq., examined the witness in behalf of the defence, and Solicitor Moore was present to care for the interests of the State. It was finally decided, however, that, as it was at least a clear case of homicide, the prisoner should furnish a justified bond in the sum of \$500 for his appearance at the next term of the Criminal Court, which was readily given and young Schriver released.

It may be well to state that the hearing was potent and thorough, and a very gratifying fact was developed, that the relations between the two races in that section, which have always been kind, are not disturbed in the least by this unfortunate and melancholy occurrence.

Thermometer Record. The following will show the state of the thermometer, at the stations mentioned, at 4.31 yesterday evening, Washington mean time, as ascertained from the daily bulletin issued from the Signal Office in this city: Atlanta, 70; Key West, 80; Augusta, 61; Mobile, 69; Charleston, 69; Montgomery, 68; Charlotte, 79; New Orleans, 68; Corsicana, 108; Punta Rasa, 76; Havana, 90; St. Marks, 84; Galveston, 80; Savannah, 83; Havana, 90; St. Marks, 84; Jacksonville, 89.

Unavailable matter. The following is the unavailable matter, remaining in the city postoffice: Annie E. Benson, Main county, California; Henrietta Felton, Goldsboro, N. C.; Mattie E. Harris, Florence, S. C.; W. O. Fada, Charleston, S. C.; John Sutton, Co. K, 35th Regiment, U. S. troops.

HOBBLES.

Unfortunate Affair at Castle Hayne, in this County. A man has been killed by an oxcar through his back. Information was received here early yesterday morning of a fatal shooting affair at Castle Hayne, in Cape Fear Township, a few miles above this city. It appears that on Saturday evening last, about half-past 7 o'clock, a colored man named Randall Jordan, under commitment by Justice A. J. Grady for a fine and costs in a case of assault and battery, was being brought to the city in charge of Mr. E. E. Schriver, Township Constable, to be delivered to the Sheriff, when he made his escape. Wednesday night Jordan made his way back to his home near Castle Hayne, when the fact was reported to Constable Schriver. The latter thereupon summoned a posse of men and went to Jordan's house to search for him. Among the member of the posse was one William Jones, colored, who went up to the house in advance of his fellows for the purpose of reconnoitering and satisfying himself that the man was there. Soon afterwards, a man came running from the direction of the house towards the spot where the Constable was standing. Mr. Schriver ordered the person to halt four separate times, but the party, paying no attention to the warning, continued to advance, and finally got near enough for Schriver to see that he held in his hand what is known as a horseman's pistol. All this time, it appears, the officer was laboring under the impression that the man approaching him was Jordan, and as now as he neared him, and he saw the weapon in his hand, he again ordered him to halt, upon which, no attention being paid to the summons, he fired at the advancing figure, and, as it afterwards proved, with fatal effect. Immediately after the shooting Constable Schriver shouted to Bill Jones (whose corpse was before him), and told him to come there, that he had shot Jordan. He then went for a light, and during his absence a colored man by the name of Dindley, who was also of the posse, came up and examined the body, and as Schriver approached with the light, he started him with the startling information that he had killed Bill Jones, his friend, and an innocent man. Mr. Schriver, accompanied by his father and mother, arrived here at an early hour yesterday morning, for the purpose of rendering himself to the authorities. He is a young man, aged only about 19 years, while the unfortunate victim of this sad mishap was aged about 30 years.

BOARD OF ALDERMEN.

Synopsis of Proceedings in special Session. The Board of Aldermen met in adjourned session at the City Hall yesterday afternoon, at 4 P. M. Present—Aldermen Myers, Flanner, Bowden, VonGlab, Vollers, Foster, Hill, Lowrey. His Honor, the Mayor, being absent, on motion of Alderman Foster, Alderman Flanner was requested to take the Chair. Major Stedman stated that he had called on Mayor Fishblade and found him confined to his bed, and that he would be unable to attend the meeting of the Board, but desired the Board to act on the petition of the subscribers to the Wilmington Telephone Exchange at this meeting.

A communication from Mr. L. A. Angel, Manager of the Wilmington Telephone Exchange, explanatory of the petition of the subscribers to the Exchange, was read. Col. D. K. McKee, of counsel for the Bell Telephone Company, made an able and interesting talk in behalf of his client. Major Stedman, counsel for the petitioners, stated that he had already, at former meetings, said very nearly all he had to say why the petition should be granted, but desired to answer a few of the arguments advanced by Col. McKee, which he did in a few sensible remarks.

Alderman Myers offered the following: Resolved, That the petition of a large and respectable number of citizens, subscribers to the Telephone Exchange Company, and operated by the Western Union Telephone Company, asking permission to connect with their own City Fire Alarm, be and is hereby granted. Alderman Foster, moved to amend as follows: Resolved, That the Western Union Telephone Company shall first furnish a justified bond of \$5,000 to indemnify the City of Wilmington for any damage that may be awarded by any competent Court within this jurisdiction for making said connection.

Alderman Myers moved to amend Alderman Foster's amendment: That the Bell Telephone Company shall be bonded in an amount to and for the same extent and purposes. The setting Mayor ruled Alderman Myers' amendment out of order. Alderman Myers appealed to the Board, and the Mayor was not sustained. The eyes and nays were called on Alderman Myers' amendment, with the following result: Ayes—Aldermen Myers, Vollers, VonGlab, Lowrey. Nays—Aldermen Gordon, Flanner, Foster, Hill.

The chair announced the amendment lost. The eyes and nays were called on Alderman Foster's amendment, as follows: Ayes—Aldermen Bowden, Flanner, Foster, Lowrey, Myers, Vollers, VonGlab. Nays—Alderman Hill. The motion as amended was then voted on and carried by the following vote: Ayes—Aldermen Bowden, Flanner, Hill, Lowrey, Myers, Vollers, VonGlab. Nays—Alderman Foster.

A communication from Walker Meares, Esq., in regard to taking a census of the city, was referred to a committee, consisting of Aldermen Bowden, Myers, Foster. On motion, the Board then adjourned.

The Railroad Problem. Below we give another solution to the "Railroad Problem": As the algebraic solution could not be published for want of "characters," and the other was incorrect, I beg to offer another, by simple arithmetic. The engine, being in her damaged condition; because, running at three-fifths original speed, when she had used up the full schedule time, she had only run three-fifths of the distance to be run after she broke down; and having being 7 hours and 20 minutes behind in actual running time, it takes her this time to run the remaining two-fifths. If these 7 hours and 20 minutes is two-fifths, one-fifth is 3 hours and 40 minutes, and her whole running time in her damaged condition is five times this, equal to 18 hours and 20 minutes. By adding 1 hour full speed, and 1 hour for repairs, we have 30 hours and 20 minutes as the time from the start to arrival at destination. Deducting the hour she stood still she was 7 hours and 20 minutes behind actual running time. This 7 hours and 20 minutes represents two-thirds of her running time in her damaged condition; because, running at three-fifths original speed, when she had used up the full schedule time, she had only run three-fifths of the distance to be run after she broke down; and having being 7 hours and 20 minutes behind in actual running time, it takes her this time to run the remaining two-fifths. If these 7 hours and 20 minutes is two-fifths, one-fifth is 3 hours and 40 minutes, and her whole running time in her damaged condition is five times this, equal to 18 hours and 20 minutes. By adding 1 hour full speed, and 1 hour for repairs, we have 30 hours and 20 minutes as the time from the start to arrival at destination. Deducting the hour she stood still she was 7 hours and 20 minutes behind actual running time. This 7 hours and 20 minutes represents two-thirds of her running time in her damaged condition; because, running at three-fifths original speed, when she had used up the full schedule time, she had only run three-fifths of the distance to be run after she broke down; and having being 7 hours and 20 minutes behind in actual running time, it takes her this time to run the remaining two-fifths. If these 7 hours and 20 minutes is two-fifths, one-fifth is 3 hours and 40 minutes, and her whole running time in her damaged condition is five times this, equal to 18 hours and 20 minutes. By adding 1 hour full speed, and 1 hour for repairs, we have 30 hours and 20 minutes as the time from the start to arrival at destination. Deducting the hour she stood still she was 7 hours and 20 minutes behind actual running time. This 7 hours and 20 minutes represents two-thirds of her running time in her damaged condition; because, running at three-fifths original speed, when she had used up the full schedule time, she had only run three-fifths of the distance to be run after she broke down; and having being 7 hours and 20 minutes behind in actual running time, it takes her this time to run the remaining two-fifths. If these 7 hours and 20 minutes is two-fifths, one-fifth is 3 hours and 40 minutes, and her whole running time in her damaged condition is five times this, equal to 18 hours and 20 minutes. By adding 1 hour full speed, and 1 hour for repairs, we have 30 hours and 20 minutes as the time from the start to arrival at destination. Deducting the hour she stood still she was 7 hours and 20 minutes behind actual running time. This 7 hours and 20 minutes represents two-thirds of her running time in her damaged condition; because, running at three-fifths original speed, when she had used up the full schedule time, she had only run three-fifths of the distance to be run after she broke down; and having being 7 hours and 20 minutes behind in actual running time, it takes her this time to run the remaining two-fifths. If these 7 hours and 20 minutes is two-fifths, one-fifth is 3 hours and 40 minutes, and her whole running time in her damaged condition is five times this, equal to 18 hours and 20 minutes. By adding 1 hour full speed, and 1 hour for repairs, we have 30 hours and 20 minutes as the time from the start to arrival at destination. Deducting the hour she stood still she was 7 hours and 20 minutes behind actual running time.
