The State Fair will meet at Raleigh on October 13th, and continue for several days. The amount of cash premiums offered is \$4,500.

at \$1 25@1 30.

Parole was badly beaten. The trouble with our American horse is, he is beginning to run against England's best horses, and he is "nowhere."

The news from New Orleans, on the 29th, was that there was no panic, but trains and steamboats are crowded with people who are getting away as fast as possible.

The Boston women do not appear to be availing themselves generally of the right to register under the School Voting law. This is better than we expected.

In July the failures in New York were 34, liabilities \$640,550. In June there were 38 failures, liabilities \$1,993,877. This does not look like "the good time coming."

The railroad business is very great. The earnings for 1878 were \$27,194,-089 over 1877. The dividends were \$53,629,366, it being a decrease of \$4,926,946. The number of miles constructed 2,694. Total in the United States 81,841 miles.

Fanny Davenport was married Thursday to Mr. Edwin F. Price, of New York, at Canton, Pa. And this is the last of Fanny, as married women without rare talents rarely draw on the stage.—Richmond State.

Fanny has not, as the State intimates, "rare talents," but we thought she had been very much married sev-

Rev. Dr. J. L. M. Curry, formerly an M. C. from Alabama, but now a Professor in the Richmond Baptist College, is about to take the stump for the settlement of the State debt. He is an able, scholarly man, and a very fine speaker and writer. We once heard Chief Justice Smith say that he regarded him as the ablest man in the Confederate Congress. But we do not like the ides of a grave D. D. becoming a stump speaker. Stump speaking and demagogism are ordinarily associated with the public mind.

THE MORNING STAR.

VOL. XXIV.--NO. 111.

WILMINGTON, N. C., SATURDAY, AUGUST 2, 1879.

WHOLE NO. 3,735

It may be that New York is to name the Democratic candidate in 1880 as in 1876. Time will show. At any rate New York politics are not without interest. We note therefore that John Kelly, Chief Sachem of Tammany, has given notice that if Governor Robinson, Tilden's man, is nominated that he will not be supported by his tribe. The intelligent New York correspondent of the Philadelphia Ledger, an Independent paper with Republican leanings, save that the signs are very strongly favorable to Robinson's success. He

"The State Committee are largely in Robinson's favor; he has also complete control of the New York municipal machinery through Mayor Cooper, so that there is absolutely nothing, left to or for Tammany but to scold and threaten. It is but fair to add, also, that, so far as one can observe, the great majority of the Democratic masses are leaning the same way.

These intrigues and manouvres have direct reference, under the surface, to the Presidential contest, next year, and in so far Philadelphia and Pennsylvania have as much concern in them as we have. If Mr. Tilden capture, the State Convention, and can carry the State once more for Gov. Robinson, his renomination to the Presidency is conceded, even by the Tammany faction, to be a foregone conclusion."

It is by no means settled that Til den will be nominated if his man is elected Governor of New York. If Ewing carries Ohio Thurman will be apt to get the vote of the South.

We are pleased to see it announced that Mr. Moore will revise his "School History," and publish a new edition. The STAR has, in a proper spirit, resist. -- Gen. Grant had a reception at pointed out what it conceived to be certain errors. It really desired to improve the value of the book, and not to injure the editor or his publishers. We are surprised that those editors who are qualified have not aided in the necessary work of revision. Unmeaning and indiscriminate laudation is worth nothing, but does injury. The STAR has yet other errors to point out, which it will do in its own way and at its own time.

> Judge Almond A. McKoy is said to be popular candidate for the Democratic omination for Governor of North Carolina. Never heard of him before. Give us a name that is nash-un-ul.—Richmond State.

North Carolinians know him and they are the ones interested. He is good Superior Court Judge, got a large vote for Justice of the Supreme Court in 1878, is a most worthy, amiable and pure gentleman, and has a great deal more character every way than nine-tenths of the men who have a "nash un al" notoriety. He is from Sampson county, and lives at Clinton, about sixty miles from Wilmington. Now you are posted.

Rev. E. J. Adams, of Charleston, S. C., ing at 8 o'clock he will lecture at St. Stephens A. M. E. Church, his subject being "Popular Superstitions."

Forged Order. A colored man called at the store of Mr. D. L. Gore, on South Water Street, yesterday morning, and presented an order for settlement which was couched in the following words:

twenty-four dollars for work. \$24. July 80th, 1879. D. L. RUSSELL."

As Mr. Gore had been in the habit of cashing orders for men in the employ of Judge Russell, he would not have suspecte anything wrong, but for the fact that these orders were usually for not more than a dollar, or two, whereas this was for twentyfour, and that neither the writing or spelling had the appearance of emanating from Judge Russell or his overseer. When questioned rather closely the man fairly shook in his shoes but still endeavored to "face the music" and carry out the deception. Finally, however, Mr. Gore told him that if h would go and get a colored man named Littleton, who runs a flat and is well known to Mr. G., to come and identify him and attest to his honesty he would let him have the money. At this he retired, leaving his order in Mr. Gore's possession, and up to a late hour last evening had not returned to reclaim either the document or the

Judge Russell since last February, on his farm in Brunswick county.

Thermometer Record.

The Revival at Smithville.

In a "postal" from Rev. Daniel McPherson, we are requested to state that the revival at Smithville would not close with day, of which two were adults, aged 31 and 64 years, respectively, and one a child that the week just ended. There were thirty-died on the Sound and was brought here two persons at the altar Friday night, with nine professions. There have been about Front Street Methodist church, in this city, Bellevae Cemetery reports two later- fifty professions thus far. He cannot now on yesterday. The services will be consay when the meeting will close, but will tinued to-day by the Rey. Dr. Burkhead, notify friends in due time.

To-Day's Indications.

- There were no police arrests on Friday, and censequently no cases for the

money it called for. The order was evidently a forgery, and if Judge Russell had been in the city Mr. Gore would have held the man until the matter could# have been investigated. He stated that he had been working for

The following will show the state of the thermometer, at the stations mentioned, at 4.81 yesterday evening, Washington mean time, as ascertained from the daily bulletin in this State, and Marion and Mariborough issued from the Signal Office in this city: | counties in South Carolina, informs us that

For the South Atlantic and Gulf States. southerly to westerly winds, partly cloudy weather, and areas of raids, with no decided change in barometer or temperature. are the indications for to-day.

Our River and Bar Improvements-Progress of the Work

The operations at New Inlet and Bald Head channel progressed during the month of July satisfactorily, but were somewhat retarded by the strong winds which prevailed from the southward, preventing delivery of stone at the dam which is being constructed at New Inlet, and the working of the steamer Woodbury, dredging the bar in Bald Head channel.

Nature is rewarding the efforts of man by accumulating sand in the broad space that existed between Federal Point and Zeke's Point, which points are rapidly extending towards each other. The Caroline shoals and the old bar of New Inlet are rapidly gathering sand, and will soon form a line of beach at half tide from the outer line of Smith's Island to Fort Fisher, which will be one and one-half miles from the stone dam towards the ocean, forming eventually an additional beach of several square miles in extent.

The improvements made to the Woodbury fully prove the wisdom of those who de vised them. Her increased capacity for work is fully developed by those in charge of operating her. During the month of July seven thousand seven hundred and seventy-five cubic yards of sand and shell were removed, being an average of 430 yards for every day she could work. On Thursday, July 31st, she removed 587 cubic yards, having weather and other circumstances favorable for operating.

No reports of soundings have been re ceived since the 4th of July, but the indications of an increased depth of water give reason to hope for an improvement in this

Large and Enjoyable Picute at Rock

Last Friday a numerous and pleasant county of Pender assembled at what is called the Moore place, about three miles from Rocky Point Depot, and had such an enjoyable time as has never been surpassed and rarely equalled in that section of the country. The crowd numbered over three hundred persons and included the young,

the old, the gay and the grave. The Moore place was certainly a very fine selection for the occasion. In addition to the advantages of having for the accommodation of the picnicers a large and commodious dwelling, a fine shady grove lent its comfort and attractions to

the scene. When the dinner hour arrived-always an interesting time on such occasions—the bustle and activity manifested was a pleasing sight indeed, and the long and roomy tables which had been tastefully stretched beneath the trees fairly groaned under the the weight of the bountiful repast that was

spread upon them. After dinner a meeting was organized and speeches were made by the following gentlemen, who were severally called upon and who added to the good humor and pleasure of the occasion by their appropriate though extemporaneous remarks, viz: A. H. Paddison, Dr. E. Porter, C. W. McClammy, F. H. Darby, W. T. Bannerman and

Dr. Walter Murphy. Dancing was indulged in during the day and was continued far into the night, the music being supplied by a string band from

Wilmington. All were unanimous that a most splendid and enjoyable time had been had, and the whole affair reflected great credit upon the ladies and gentlemen who had the picnic

Useful Invention. We examined yesterday a Butter Refrigerator just invented by a citizen of this place, and for which it is expected a patent will be obtained. It is a simple, but practical and convenient arrangement, by which butter may be prepared for the table and rendered just as solid and cool as in midwinter, and that with the use of a very small fraction of ice. The Refrigerator is of such a character that it can be placed on the table and the butter kept in a solid condition during the progress of a meal. Larger ones can be constructed on the same principle in which pans of milk can be placed and frozen to a proper consistency without the necessity of putting ice in the milk, as is done ordinarily. It can also be used just as well for preserves or other articles for the table which are rendered unpleasant to the taste by the heat. We saw the butter test applied to the Refrigerator, and in this particular it proved all that is claimed for it.

The Corn and Cotton Crops. A gentleman of this city, who has just returned from a somewhat extended tour through Robeson and Richmond counties, the crops are looking very fine. The planters say they never saw cotton fruit so well, or bear such fine bolls. The only danger to that crop now would be a superabunbance of rain, which would make the forms shed off. It was thought for a while that the corn crop in these sections would prove a partial failure, but now a full average yield is anticipated, as they were visited by rains sooner than we were here,

Quarterly Moeting.

The third quarterly meeting for the present Conference year commenced at the Presiding Elder of this District.

IN MERORIAM.

WILMINGTON, N. C., July 29, 1879.

At a meeting of the Official Board of St. Stephen's A. M. E. Church, hald in their Church, in the absence of Rev. J. B. Fry, the Pastor, Brether Edward Dixon was called to the Chair, and J. W. Telfair requested to act as Secretary.

On motion, a committee of three, consisting of J. W. Telfair, Thos. Rivers and Henry Turner, was appointed, who, after a few minutes' deliberation, reported the following Resolutions of Condolence:

Our Great Creator and Heavenly Father, the God of Time and Eternity, having been pleased, in His infinite mercy, to remove our beloved Brether, ELIAS HALSEY, from the cares and troubles of this transitory existence, to a state of endless duration, than severing the bonds that united us together as Official Members in the Church Militant. He was beloved and respected by all who came in close contact with him; he was diligent in business; courteous, kind and honest in his dealings; bold and defiant on the side of truth, right and instice; a quiet and respectable citizen, and a consistent Christian gentleman, a kind and loving father, and a devoted husband.

Executed That while we dealers dearly his leave. WILMINGTON, N. C., July 29, 1879.

Resolved, That while we deplore deeply his loss we bow with humble submission to the will and prerogatives of Him who doeth all things well, and we can cheerfully leave him in the hands of a Heing who is Glerious in Holiness, Fearful in Praises, doing Wonders.

ing Wonders.

Resolved, That we tender our sympathies to the widow and orphans of our deceased Brother, and condole with them in the irreparable loss which they have sustained, assuring them that He who tempers the wind to the shorn lamb looks down upon the widow and fatherless in the hour of their desolation, and will fold the arms of His love and protection around those who put their trust in Him.

Reselved, That the usual badge of mourning be worn by the members of the Board for thirty days, and that a page be left blank in the Records of the Board, bearing his name, age and death.

Resolved, further, That a copy of these proceedings be furnished the widow and family of the deceased, and printed in the Bunday Moznine Stark.

J. W. TELFAIR,

Rest be thy new employ. And while eternal ages roll. Enter thy Master's joy.

Wanted to Borrow. \$15,000 - FIFTEEN THOUSAND DOL-party in this city. Interest may be secured by Rents from the Property.
