John Sherman says he has not the slightest doubt as to the result in Ohio-that the Republicans will carry the State.

There are many California merchants in New York at this time. They express a confident belief that there will be a general revival of California trade as soon as the elections are over.

The Elizabeth City Carolinian says we are mistaken in classifying Wendell Phillips as a Republican. It says he never cast a Republican vote in his life. We make the correction willingly, as Mr. Phillips has enough sins to answer for without being accused wrongly of being a Republican.

Score one for civil service reform. The New York Custom House officials did not go to the Syracuse Republican Convention. But then an old ex-Custom House official, Cornell, will probably be nominated for Governor, and he always acted on the principle that the Custom House was a political machine to be run for the benefit of the Radical party.

Mr. E. V. Smalley, of the New York Tribune's staff of correspondents, after surveying the field in Maine very closely, gives it as his opinion that the Republican candidate for Governor will be elected by a majority of 5,000, and that the Legislature will be Republican in both branches. We hope he will turn out to be a a false prophet. He is shrewd, but not infallible.

Judge Russell has been interviewed upon the campaign of 1880 by the Asheville Joarnal. We give a paragraph which shows the Judge to be wiser than some of his party:

"In conversation he stated that he was not of those who believed that the Repub-ticans were in a majority in this State. He was further of the opinion that it was futile to organize and put out candidates on a general State ticket."

Correct, Judge, for once. The Demograta will carry North Carolina in 1880. They have a registered majority of over 40,000 voters. The Judge further said he had no doubt of the success of the Republican party in the Presidential contest. Ah, Judge, it may be your judgment was at fault just there. You know Tilden was elected in 1876, and the great fraud did not help Republican pros perity.

It should have read Monday evening of the present week, We learn that on Tuesday evening of this week there was a very large attendance, and that there were several conversions, with twenty-seven penitents at the altar. It; is also stated that several persons professed religion at their homes on Tuesday, who were at the church as penitents the night before. The pastor, Rev. B. R. Hall, is laboring carnestly, faithfully and zealously, and is assisted by those excellent workers, Rev. Daniel McPherson and lady.

Fail Fashions for Ladios. The latest information that we can gather on this all-absorbing subject to many of the fair readers of the Sran is that there will be a sadical change in the costumes for street wear and out-door toilets the coming season. Hats will be made of substantial fur, shoes will be strong and stout, street dresses will be made of strong woolen cloth, and high buttonless kid gloves, that come to the shoulder and then wrinkle down to the elbow, will be worn.

It is further stated that stout umbrelias will be a portion of the attire. We never fully realized the importance of this adjunct to female paraphernalia until we saw it stated recently that Miss Susan B. Anthony in an interview (with a reporter, of course) expressed her determination never to marry. What, never ?" said her interlocutor. 'Stop right there, now," said Miss Anthony, or I will brain you with this umbrella." In an emergency of this character the necessity of having a stout umbrells is apparent.
