The National Democratic Executive Committee has been summoned to Washington on the 18th inst. It is thought the New York muddle inspires the call.

The Gate City Guards of Atlanta, Ga., will soon pay a visit to Baltimore. They will be warmly re ceived, and preparations are on foot for their entertainment.

Henry Ward Beecher still attracts. Last Sunday he preached in New Hampshire, and excursion trains ran on all the roads. A very large crowd was present. Conkling attracts also.

Ex-Gov. B. Gratz Brown, of Missouri, was once addicted to crooking the elbow. He has reformed, and is now making temperance addresses in his State. He favors the prohibition of the sale of intoxicating drinks.

The projectors of the new line of steamers between Norfolk and Liverpool are setting a good example for the business men of Wilmington to follow. This is progress and in the right direction.

Mr. Lewis Levy, a Jew, has lived at Columbia, S. C., for sixty years. He left on a visit to Kansas City recently, but he paid every debt he owed before leaving, even to his gas bill, which was his last.

Judge Settle is very certain Florida will cast her next vote for the Republican candidate for the Presidency. That will depend upon the success of the Returning Board in stealing the electoral vote as it did for Hayes in 1876.

A female lawyer appeared in New York court on Saturday and won her case. It was the first time petticoats ever appeared inside of a New York bar-we mean courthouse-to try a law case. Heretofore they have been content to lay the law down at home and to the

An engineer, in a letter to the New York Sun, denied that an engine could run a mile in a minute. The proof has been given that he was wrong. On Tuesday, the 9th, a test was made on the fast train on the Pennsylvania Railroad, between Philadelphia and New York, which makes no stop for a distance of eighty miles, between Germantown Junetion and Jersey City. Five miles were passed over in exactly 4 minutes and 551 seconds. At another point three miles were made in 2 minutes and 36 seconds. No extra speed was made on this train, which consisted of tour cars, containing 163 passengers.

The excitement in New York over the Tammany bolt has subsided already. Desertions are very namerous, and it is thought that by the election Kelly will be left with but few adherents. The New York letter to the Philadelphia Ledger says:

"Outside of politics, our citizens are very generally congratulating themselves that at ast there is an end of 'bosses' and 'boss' government in New York, and this coupled with the aspiration that we shall never see them revived. Meanwhile the adherents of the 'regular' nomination of Gov. Robinson are making preparations for a grand ratification meeting, not withstanding notification from some of Mr. Kelly' friends that no such meeting will ever be permitted in this city. The Republicans meanwhile are pushing their campaign with considerable vigor."

A movement is on foot in Georgia tions to the State Fair at Macon, said contributions to be sold for the benefit of the Hood orphans. The Bibb Manufacturing Company has sent a bale of its sheetings for that purpose. As North Carolina is doing so little for the orphans would it not be well for the managers of our State Fair to take similar steps? If they are unwilling to help the Hood orphans, let them aid the orphans of North Carolina now being cared for at the Oxford Orphan Asylum.

Two other prominent leaders of Tammany have followed Gov. Hoffman's example, State Senator Thomas C. Ecclestine and Louis C. Waehner, formerly of the Legislature and of the Board of Aldermen. The New York Herald says, editorially: "The prompt desertions from Mr. Kelly's sinking ship are a significant sign of the times. The sachems and other big Indians had better all resign and wind up the dreary farce of the Wigwam, leaving Mr. Kelly alone to paddle his own

A two mile race was run last Thursday at Prospect Park, Coney Island, New York, that is said to have been the fastest regular race on record. Willie D. beat both heats; time 3.341, 3.35. Governor Hampton was second in both races. There were four horses that ran. Lottery, at Sacramento, in September, 1878, made two miles in 3.36, 3.35t, which was the best' recorded time.

-Charlotte Southern Home: Since the establishment of the Inferior Court and the enactment by the last Legislature of the law allowing the State only two witnesses to the same fact, which renders the conviction of a criminal in a capital case next to an ımossibility, the fees of the District Solicitor in Mecklenburg county have dwindled down to such an extent that they will hardly pay his expenses while here attending upon the Court. — Major W. - Rev. Mr. Fontaine preached Judge Kerr's funeral, The Reidsville Times has a full account of the ceremonies. We has a full account of the ceremonies. We copy an interesting paragraph: Three of the favorite hymns of the deceased were sung during the services, led by Col. Joseph Pinnix. "Nearer my God to Thee," "Beyond the smiling and the weeping I shall be soon," and "Asleep in Jesus." Mr. Fontaine announced that some time in October a memorial service to Judge Kerr would be held at the Baptist Church in Reidsville. The services were concluded at the grave with prayer by Mr. Fontaine. As the sun went down the body of him who has for many years been a brilliant ornament to North Carolina, was hidden forever from our sight, but the memory of him still lives in our hearts. The County Work House. As there seems to be some misapprehension as to the conduct of affairs at the County Work House, we have gathered what information we could upon the subject, and find that there are two classes of persons in that institution. The one class. sentenced by the Criminal Court for petty larcenies and other cases, over which magistrates have no final jurisdiction, to confinement for a given period, are treated as convicts, and are properly confined and guarded; the other class, of persons committed to jail by county magistrates for costs for short terms of imprisonment, are farmed out by the County Commissioners, to relieve the county of the expense of their maintenance, to the Overseer of the Work House, or indeed to any person who will pay the costs in the case, and who is then entitled to the services of the person for the time for which he was committed to jail. To this class it seems Randall Jordan, the colored man to whom reference was made in yesterday's paper, as having been seen in the neighborhood of Castle Hayne after having been sent to the Workhouse, belonged. AN INDIVIDUAL INQUIRY OF EVERY READER,—The opportunities occur for a fortune to every man it is said, some day or another, but how seldom does a man really know the exact opportunity. The newspapers every now and then tell of some person who has drawn a hundred thousand or a thirty thousand dollar prize in the long established Louisians Lottery, which is drawn on the second Tuesday of every month, at New Orleans, La. But does it ever strike the reader on reading about the lucky man that a similar good fortune might attend him if he were to send two dollars for the next, which is the 11th drawing, to M. A.
