The two New York city wings of the Democracy are to hold ratification meetings next week. Disturbances are expected.

Hanlan will return to England to row another match with Elliott, whom he defeated so easily. The latter sent him a challenge.

It is said the autumn trade sale of books will be unusually large. The catalogue contains over 500 pages. It takes place in New York.

Kalloch's official majority in San Francisco is 1,528. That pistol of De Young's did the business. It literally shot the lecherous parson into the Mayoralty.

Mr. Tilden says he has no compromise to make with Tammany. It is war to the knife. He goes so far as to say that the party cannot take Tammany to its bosom.

It is said that the Republicans are manœuvring to stave off the trial of the suit against Mr. Tilden for his in come tax until after the Presidential election. It is to be a campaign

Three hundred and thirty-five Mormons arrived at New York from Europe on Tuesday. More immigrants to break the laws of the United States. Mr. Evarts should stir his stumps.

Senator McDonald, of Indiana, thinks Tilden cannot be nominated because of the two-thirds rule that will be retained in 1880. He says Grant is the strongest Republican, and if he is not nominated Sherman

WILMINGTON, N. C., FRIDAY, SEPTEMBER 19, 1879.

Gov. Vance, whilst passing through Asheboro Courier: We have | 8 professions. Ho was assisted by brethren Washington, was interviewed by a correspondent of the New York World. He did not approve of Kelly's course, but if he and his followers "should be strong enough to defeat the Governor, and the rest of the ticket should be elected, I should not grieve very much over it, because the State might then be depended upon to support the Democratic nominee for President next year."

He is reported as saying further: "In the South we feel that very much depends upon New York, and of all States that should be the one is which personal issues should be dropped and in which unioned and effective work should be done for the common good. We believe that a Democratic administration is imperative if prosperity is to be restored to us. A Republican administration means for us four years of suffering and tyranny."

He does not fancy Mr. Tilden. He will not be nominated by the South.

"He has been wonderfully mixed up in trickery and mean transactions. To put aim in the field it would be necessary keep men constantly on the stump defending him all through the South. I do not wish to be understood as saying that he has no chance for the nomination, for if the majority should choose him the South would not bolt. It would lay saide all personal feeling in a campaign and work to-gether for the ticket. It would be with us a choice between two evils, and rather than live through another Republican administration we could stand Uncle Sammy. Yet his nomination would be a deplorable event, and I hope we shall be able to do

We take it that Senator Vance has represented fairly a large preponderating sentiment in North Carolina. We have not met a half dozen persons who prefer Mr. Tilden to all others. We have met many who hold Gov. Vance's views.

The New York Herald has taken the census of the Chinese living in hat city, and reports that there are more than three hundred Chinese laundries, fifty groceries, twenty tobacco stores, ten drug stores, six restaurants and a great variety of other establishments. In the latter, it is sad to say, must be included several gambling houses, one of which the police broke up Tuesday evening, at 34 Mott street, kept by one Fo Cha assisted by Ung Twang. The police census was incorrect it seems.

Secretary Evarts recently visited Canada, was the guest of the Marquis of Lorne, who married the Queen's daughter, and comes back highly elated with all he saw. He is very sweet on the Princess, and says:

"He found the Princess Louise to be a remarkably frank, versatile and intelligent young woman, who is winning golden opinions from the people of the Dominion by means of her straightforwardness and simplicity of manners. He added that in the event of a visit by the vice-royal couple to the United States, which they will make sooner or later before they return to England, he had no doubt the Princess would create a very favorable impression among our free American citizenship."

There is a growing dissatisfaction concerning the order of the Chief Signal officer forbidding that any of the signal observers should continue at one place longer than two years. The expense caused by this unnecessary order is attracting attention, and it is not improbable that the restriction will be removed after awhile.

A company has been organized in New York to search for \$5,000,000 which were lost in the British frigate Hussar, that was sunk off Port Morris in 1780. The wreck lies in one hundred feet of water.

- Durham Recorder: Maj. N. Patterson has given us a number of uriosities found near the banks of New Hope Creek in this county. Few traditions of Indian history survive, and only the name of Eno Will, mentioned in Lawson's history, comes down to us as an aboriginal dweller upon the soil of Orange. His villers was as New Hope Creek on the large and lage was on New Hope Creek on the lands now owned by the Patterson family, in whose hands it has been retained through five generations. Some years ago, during a high freshet, the waters of the creek ploughed through a field, and laid bare a long hidden burial place.

- Raleigh News: The Presbytery of Orange will meet on the 16th of October at old Alamance Church, near this city. At that time the new church is to be dedicated, and on Saturday, Rev. C. H. Wily, who was raised in sight, will deliver an address, and give an interesting history of its rise and progress to the present time, and in addition will preach the dedicatory sermon.

— Yesterday afternoon while Captain H.
P. Guess, road master on the Raleigh & Augusta Air-Line Railroad, was riding on his hand-car between the two depots, the car came in collision with a switching engine. Mr. Guess, seeing the danger, jumped from the hand-car, and being an elderly man fell heavily and broke his leg

- Hickory Press: Dr. Wm. Daniels, a respected citizen of Alexander county, died at his home, near Rock Spring Camp Ground, on the 3rd of September.

— Some thief entered the dwelling house of Dr. Newlan, of Lenoir, this week, and stole from the premises a trunk containing about \$200 in cash and about \$800 worth of bonds and other valuables. A white woman who had been in his employ was arrested on circumstantial evidence and confined in the county jail. All except the money was recovered. — The camp meeting at Nebo, in McDowell county, began last Friday and closed Tuesday morn-ing. This was the 46th camp meeting held at that place. - Charlotte Observer: The case of the United States vs. Alexander Burton, arrested by Deputy Marshal King for counterfeiting, was called Tuesday, and the defendant was bound over to the Federal Court in the sum of \$200, in default of which he now resides in the county jail. - According to the census of 1870 there were only 20,592 persons in the State en-gaged in manufactures, mechanical trades and mining. — There are 609 pupils enrolled in the Graded School. - Judge Gilmer holds his first court this week at Mocksville, Davie county. — We had quite a cutting affair in front of the Gregory House last night. The parties were Wil-liam Hodges and Henry Edwards, both negroes. It seems as if the fuss started about a water bucket, and terminated with several severe cuts on the person of Henry Edwards by William Hodges.

— A correspondent of the Rich-mond (Va.) State writes: Travelling thirtyfive miles through the bright tobacco bell we reach Oxford -an old town, the county sest of one of the largest and the most prosperous counties in North Carolina.

Already noted for its healthfulness, its schools, its virtue and intelligence, it has a base and starting point which gives it an immense advantage. The infusion of a little progressive, swift-running business blood would give it a life and growth its present population has never dreamed of. venture no town in the State according to population has more capital than Oxford. And being the centre of the bright tobacco section, its manufacturing and shipping trade will be such as any of the great commercial centres will covet. Leaving Oxford our line would pass through the grass and grain section of Granville, equaling that of almost any country.

The list of premiums is quite large, cover ing a great many articles, and is sufficiently attractive, it is believed, to draw a large number of exhibits. ——Since the steam shovel was introduced on the Carolina Central Railway, seven treatles have been filled in and it is now at work on the eighth. As soon as this is completed work will be commenced on the last one between Charlotte and Hamlet, so that in a few months there will not be a trestle on the line from Charlotte to Hamlet. — At Dallas, Gaston county, a few days ago, the colored Baptist Association held a meeting, and after mature deliberation decided to expel two of the members, mother and son, for profanity, and accordingly it was announced that their names had been stricken from the rolls. The expelled members felt that they had been very much injured and made threats of breaking up the "whole concern." Sunday night the church was hursed to the ground and they were accorded to the ground and they were accorded.
