Authentic intelligence received at last from the seat of war; Capt. Payne's command made a most gallant resistance; Maj. Dodge, with forty-five men, succored him; Gen. There is trouble ahead for the Georgia Romans. The aristocratic Baptist negroes are about erecting a church building for their exclusive use. Where is the civil rights bill?

Attorney General Devens is too busy in Washington to go to Massa chasetts to make political speeches. Hayes is away, and it may be Devens is beloing Rogers "run the machine." Devens feeds the boiler whilst Rogers lets off the steam.

The news from the Indian seat of war is interesting. It is evident that our troops behaved admirably. Maj Dodge deserves praise for his promptness and boldness in going to Capt, Payne's relief with only forty-five men. The Indians appear to be resolved upon continuing the war.

Judge Davis, of the Supreme Court, told Morrison and McLean, the Democratic members of the New York Police Board, that if they persisted in refusing to appoint Inspec tors of Election, that they would incur punishment for contempt. They took the hint and completed the appointments.

The Presidential question is settled. Seventeen newspaper men i Washington have made the slate. It is Grant and Tilden. It was brought about thus: each gave expression to his judgment and not his wishes-re sult: Republicans-Grant, eight; Sherman, five; Blaine, four. Democrats-Tilden, eleven; Hancock, four; Davis, one; Bayard, one.

It was so many days since the country had been electrified with the news of "another bank embezzler" in New England, that we began to Mt. Carmel, Fayetteville Presbytery. Three think the reform wave had struck those distant shores. But the business is brisk again. This time the at Mt. Vernon Baptist Church, near Cook's sum is \$24,000; the young man writes his name Boynton; his home, Boston; his occupation a bank-teller. He didn't telt anything about it, how-ever. He is now known as a bank.

"In regard to the instructions to Major Thornburgh, it is stated in army circles

that his instructions were similar to those

erating against the Indians: to strike no blows until hostile acts are committed by the Indians. The course pursued has,

therefore, been of such a character that the

army has not really exercised so much au-

thority as if it was a police force. The In-dians may assemble their bands right under the eyes of the soldiers, may supply them-

selves without strat with arms and ammuni-

tion, may openly proclaim their pur-

yet they must not be interfered with until

ofter they have commenced their massa-ores. It is explained by the army officers

that the reason for this policy lies in the re-strictions with which Coopress has hedged the use of the army, and more particularly

in what is known as the posse comitatus clause. It is said that army officers in com-

mand against the Indians have in the face

of the most imminent peril feared to de-

The latest news from Senator

"The testimony presented every day

How much are you giving for votes?

is full of corruption. It nowhere appear that Mr. Ingalls was a candidate because

OUR FIREMEN.

Annual Parade of the White Fire Yesterday was a gala day with the white firemen of Wilmington, the occasion being the annual parade of the department. Considering the very short notice, it having only been definitely decided on Tuesday night to have the parade yesterday, the affair was a most decided success in every respect, and is only another evidence of the energy, seal and promptness which characterize the department.

The parade took place in the afternoon, the procession being formed at the corner of Fourth and Market streets. First came the Howard Relief Fire Company No. 1. Capt. Airich Adrian, being the oldest fire company in the city, with their beautiful steamer, the "A. Adrian," handsomely decorated with evergreens. Next came the Wilmington Hook & Ladder Company No. 1, their large and elegant truck also being dressed out with evergreens; and last, but by no means least, the Wilmington Steam Fire Logine Company No. 1, their handsome engine, the "Little Giant," being likewise decorated very appropriately and handsomely, the whole headed by the Cornet Concert Club, which, as usual, discoursed most excellent music. The Chief of the Fire Department, Col. Roger Moore, acted as Marshal, with Massrs. J. H. Daniel, J C. Oldenbuttel and E. G. Parmelee as aids.

The C. M. Stedmen Fire Company did not participate in the parade in cousequence of their not having their uniforms. The companies paraded through several of the principal streets. Arriving at the corner of Front and Market streets the procession halted, in accordance with a preconcerted arrangement, and was photographed by Mr. Orr, the artist.

Wilmington has cause to be proud of he fire department. The companies made very handsome appearance in line and at racted much attention all along the route through which the parade extended, at the close of which they repaired to the "Little Giant" Engine House, where a handsome collation was awaiting them, which they enjoyed very much after their fatiguing
