In some way unexplained the flame was communicated to the lamp, which exploded, covering her with the burning fluid. A negro man who entered at this moment, seeing the peril in which the child was placed, attempted to get her away from the bed. She appeared to see the danger herself and ran out into the yard. A Happy New Year!

Do not forget that this is 1880.

New York dry goods market continues steady and firm.

There are eighteen cases of small pox reported in Washington City.

Father Ryan's volume of poems has been published at Mobile, Alabama.

Gen. Hatch is safe, no doubt, but the prospect is very good for an Indian war.

The New Year begins with thirtyfour foreign vessels lying at the port of Wilmington.

Mary Anderson's company presented her on Christmas night a diamond horse shoe.

Gov. Van Zandt, of Rhode Island, has been appointed and has accepted the mission to Russia.

It is now thought that Pennsylva nia will go for Bayard in the Demoeratic National Convention.

The revision of the New Testa ment is nearly completed. It will be published during the year in England by the English University presses.

Grant's Man Friday, John Russell Young, says that nearly every Washington correspondent, of all parties,

Large crowds are flocking to Menlo Park daily to witness the experiments with Edison's electric light. The solution seems to be satisfactary, and congratulations are being showered upon the great discoverer. But the gas men are still hopeful; they say that gas will still have to be used.

The news from the North Carolina immigrants at Green Castle, Indiana, is very favorable. They are greatly delighted with the change, are getting good wages, &c. Such at any rate is the character of the dispatch sent from Cincinnati on the 29th of December.

During the first quarter of 1879 there were 7,571 deaths in New York; during the second quarter, 6,576; during the third quarter, 7,729; during the last, up to Dec. 27, 6,288-total 28,165. The births amounted to 25,-332, marriages 8,385, still born 2,197.

One of the shares of the Edison Electric Light Company, par value \$100, has just sold in New York for \$3,500. Owners now ask \$5,000. Ten days ago they were worth \$1,000. This tells the story, gas or no gas.

The weather in Paris has been extremely severe for four weeks. The streets became almost impassable because of the snow and ice. During a part of the time the thermometer stood at eight degrees below zero.

Gov. Emory will not be reappointed Governor of Utsh. He is under Mormon influence, it is said. A new Governor and new laws are what that Territorial curse will have.

we were unable to learn, both of Monroe, started out in a buggy for a drive. When about two miles south of the town the horse became frightened, ran off and threw both the occupants out. Mr. McCaulay had his left leg broken in the fall, and suffered internal injuries besides. His friend escaped with a few bruises. The first named gentleman was carried to the residence of a Mr. Austin, the nearest house to the place of the accident, and now lies there in a critical condition, being too ill to be removed home.
