In a survey of the year 1879 and the progress made by our country during that period, the Baltimore Sun shows us how Europe suffers from the present system of keeping large armies, a policy begun by Bismarck to the serious detriment not only of his own country, Germany, but of all Europe. The Sun says:

"But the United States are at peace today, and have converted all their swords into plow-shares and pruning-hooks, while Europe groans under an annual burden of \$1,000,000,000 spent in the maintenance of armies and navies. Since 1860 'the peace of Europe' has cost \$27,000,000,000 in money to maintain it, while from 6,000,withdrawn from productive industries in order to be trained in the arts of destruction. If these men could earn by the labor of their hands an average of \$300 a year, as able-bodied men do in this country, the losses to Europe by its prodigious armaments since 1860 will have exceeded thirty billions of money, equal to the entire valuation of the United States, according to the census of 1870. These figures afford clue to the sufferings and distresses of Europe as soon as an unprosperous year visits that continent, and to the anxiety with which crops and seasons are watched there. The United States have no need to feel these anxieties."

Some of the Republican papers favor Senator Bayard as the Democratic candidate for the Presidency. The Baltimore American appears to be writing to that end. It closes a long editorial by saying:

"The strongest man that the Democratic party can present to this constituency is the | had been in the well two or three weeks, the Hon. Thomas F. Bayard, and if the party can for once escape the fatality for blundering that pursues it, and of which the Maine case is the latest instance, his name will be placed at the head of its ticket."

Why do Republican papers favor Bayard? Of course they do not believe him strongest, or they would not be anxious for his nomination.

And now Hayes is actually condemning the "sad blunder" of Garcelon and Council. He goes so far as to say the people of Maine will not stand it. May be he would like to put his finger in the pie. What an amount of cheek a fellow must have to talk about "such a perversion of the people's prerogative," when, all the time he holds office through gigantic frauds, and appropriates annually \$50,000 that of right belongs to Samuel J. Tilden. But why waste words over such a brazen fraud?

A young South Carolinian, son of prominent citizen, attempted suicide at Annapolis Naval Academy. He had been drinking. He plunged into the river but was rescued.

### The Maine Excitement Toning Down -Cramming Finance, &c.

[Baltimore Sun Special.] WASHINGTON, Dec. 30 .- There is noticeable weakening among the Republican leaders regarding the use of force to seat the alleged elected Republican members of the Legislature in Maine next week. The violent talk of a few days ago is no longer to be heard, except among a few extreme men, who would be glad to see the country in a state of turmoil and excitement all the time. One of the most prominent Republicans Senators now in the city expresses the opinion that the Garcelon Legislature will assemble unmolested on the 6th of January, and that the Republicans will then demand that immediate steps be taken to correct the alleged wrongs berore an election is had for Governor. The Republicans seem to have discovered that Gov. Garcelon cannot be frightened from the line of his constitutional duty, and they will now abandon their threats to resort to force unless their demands are complied with. It is understood that such Republicans as Senators Anthony, Burnside and Edmunds have advised the Maine Republicans not to take any step which might look like posed that he is still going. appealing to force, but to submit under protest to their alleged wrongs, and endeavor to make the Legislature, by legal manner, carry out the spirit of the law under which Gov. Garcelon has been acting.
