Of 705 helpless negro emigrants in Indiana but 220 have been provided for in Republican counties. Where is the sympathy?

It is said 1,739 Indiana Republicans have been heard from. Of these 528 are for Blaine, 514 for Sherman, and 450 for Grant.

In 1879 there were 819 miles of railroad built in the South. Missouri leads with 188 miles, Texas second with 187. North Carolina 25, South Carolina 4, Virginia 59.

That veteran, Gen. Jo Johnston, wrote to the Richmond Irish Relief meeting that he will make such contributions as his means will permit. Eight hundred dollars was raised the first night.

A Washington special to the Stalwart Philadelphia Press says that the anti Grant feeling among Northern Republicans is beginning to be felt there, and it perplexes the Grant managers no little.

The Hot Springs Commission have awarded \$74,696 for property condemned and belonging to private individuals. The chief clerk is accused of some ugly things and the awards are said to be unfair.

Garfield has been nominated by the Ohio Legislature for the Senate. He will succeed an abler and purer man, Senator Thurman. Garfield is a man of marked ability, and speaks excellently, but is corrupt, and his corruption is a matter of record.

There is a grand chess tournament now progressing in New York. From the South, Judd, of St. Louis, and Sellman, of Baltimore, will play. The tournament will last three weeks. If poor Paul Morphy had his mental powers as they were once he could beat them all at one time playing blindfolded.

A Stalwart has just returned to Washington from Ohio. He says the German papers have given notice that they will not support Grant, and the Republicans are waking up to a lively opposition to the third term movement. He says they are divided between Blaine and Sherman. He is satisfied, if Grant is nominated, the Democrats will bag Ohio. We are beginning to feel some apprehensions that Grant may not be nominated after all the beating of the tom-toms and hewgags.

The contested election case from Indiana is again up for consideration in the House. A new point has been sprung, to wit, whether McCabe (Democrat) after allowing the prescribed time to expire, shall now be permitted to present evidence in support of his claim to the seat held by Orth. This case is specially important because of the fact that a Republican holds his seat. De La Matvr. the Greenbacker paron, holds the balance of power as to Indiana's one vote in case the election of President goes to the House. McCabe's chances are regarded as very slender.

The New York Herald of Wednesday is specially rough in its' denunciation of Gov. Garcelon's course as to the decision of the Supreme Court. It says he has no power to do right. but resorts to a "pitiful subterfuge"

- The Asheville Journal throws this out at the boys: A prominent Republican of this section has received a letter from a high authority—one who controls appointments—asking information as to the number and names of Democrats who are in subordinate positions in Western North Carolina, and by whom appointed. Any of our Republican friends who may read this are requested to furnish us with names. &c., and we will see that they are properly forwarded, and justice done, as it should be, to those who have been true to their party allegiance.

The Distress in Ireland-Appeal for

Our readers are doubtless familiar with the facts in regard to the great distress now existing among the peasantry and others in the lower walks of life in Ireland, as accounts have appeared from day to day in our telegraphic columns. Appeals are now being made to all the principal cities of Europe and America for help, and yesterday afternoon the following cable dispatch was received by Mayor Fishblate, of this city, which we hope will meet with a favorable response:

"LONDON, Jan. 8th, 1880. 'To Mayor of Wilmington:

"The distress is increasing, and aid reently required. LORD MAYOR, urgently required. "And Irish Relief Committee."

A Whale! A Whale!! The Charleston News and Courier reports the capture of a whale in the harbor there on the 7th inst., after a long and exciting chase, in which five steam tugs and fifty or sixty row boats engaged. At the finish, the News and Courier says: "At last a barefooted sailor in one of the two first boats, the man who struck the first blow in the morning (Garrison, of North Carolina, drove his lance home. The boat backed away, but there was no need for it. An inert black mass lay upon the surface, moving gently with the motion of the water. Dead at last!" The tug Royal Arch, familiarly known in our waters, led the attack. "The fish is a 'Right whale.' As well as could be feet, and the thickness of his body from ten to fifteen feet. His weight, of course, could not be ascertained, but his captors estimate that he will yield from \$600 to \$800 worth

Astronomical Facts of Interest. The January moon fulls on the 27th. On the morning of the 9th (as on the 8th) the eastern sky will present a picture worth getting up early to see; for Venus and the waning moon will then be in conjunction, the moon being to the right of the planet on the 8th, and on the left on the 9th; on the 10th the moon and Mercury, will be near each other, but they will be hidden by the sun's rays from the brightest-eyed observers. The new moon of the 11th will be very near Jupiter during the evening hours of the 15th; near Saturn till they set on the evening of the 17th; near Mars on the night of the planet on the evening of the 29th, and near Mars on the left of the planet, on the evening of the 21st.

The Ball Last Night. The complimentary ball given to the L'Arioso and Lotus Clubs last night, in point of elegance surpassed anything of the kind ever before witnessed in Wilmington. At 11 P. M., when the ball was at its height, the handsomely decorated hall presented to the beholder a moving mass of female loveliness and masculine gallantry. swaying to the music of the dance, which was entrancing in the extreme. The supper was superb, and the gentlemen who in augurated and managed this-the affair of the season-have every reason to congratulate each other upon its eminent success.

The Execution To-day. The colored man Allan Mathis will be executed some time this forenoon in the jail enclosure in this city. Permits for thirty-six persons to be in attendance have been issued, and this number includes the guard, officials, and other attendants Mathis, we understand, has made a full confession of the murder for which he is to pay the penalty of the law. It was made to Rev. C. O. Brady, of St. Mark's Episcopal church, with the understanding that it was not to be given to the public until after the execution.

Reminder.

Merchants and other business people are reminded of the fact that the State and town require them to return to the Register of Deeds within ten days after the first day of January, 1880, a true and exact statement of the amount of purchases made by them as principal or agents, or through agents or commission merchants, for the six months ending the 31st day of December, 1879. The amount of purchases, both in and out of the State, must be included of illicit distilleries and "moonshiners." He in the returns.

Comparison of Wilmington, N. C., To-Day's Indications. with other Southern Cities as

Cotton Shipping Port. The following communication shows that Wilmington is not behind her sister cities in facilities for doing a cotton trade of large dimensions. Mr. VanBokkelen is President of the Chamber of Commerce. and, while not engaged in cotton business. takes great interest in what tends toward the prosperity of this city:

EDITOR MORNING STAR:-My attention has been drawn to the following communication which appeared in the columns of the Savannah Morning News of January 6th, and as it appears to be what is con-sidered good work for that city, which is making rapid strides in the way of commercial importance, as well as other advances toward prosperity, I think it will not be amiss to compare the facts with similar business being done by the cotton presses and stevedores of this city, and show that the moderate business now done here in cotton is done well and will no doubt increase greatly:

[From the Savannah News.] "During the present cotton year there have been cleared from this port, to date, nineteen cargoes of cotton for foreign ports. Of these ten were of aggregate tonnage 4,-247 tons, and carried 17,736 bales, weighing 8,287,655 pounds, being an average of 1,952 pounds cotton to the ton against 1,830 pounds average of the two cargoes loaded at Savannah, and of 1,670 pounds that same vessels loaded at Charleston and Galves-

The two cargoes loaded at Savannah show 1,865 and 1,812 pounds to the ton; the ten cargoes loaded at Wilmington show 1,849, 1,865, 1,894, 1,947, 1,963, 1,970, 2,002, 2,036, 2,041 and 2,071 pounds to the ton. The increase in the aggregate is seventeen per cent. over Charleston and Galyeston, and seven per cent. over Savannah.

Comparing two of the cargoes from Wilmington with the two from Savannah, we have a bark of 318 tons taking 649,035 pounds, and another of 308 tons taking 638 .-033 pounds, being an average of 2,053 pounds to the ton, showing an increase of twenty-three per cent. over Charleston and Galveston, and twelve per cent. over Sa-

vannah. The ten vessels loaded at Wilmington average 425 tons; the two loaded at Savannah average 450 tons, which makes this comparison fair, as vessels of large tonnage will carry more per ton than those of medium or small tonnage.

Wilmington can boast of three first-class cotton compresses; also stevedores capable other port. The increasing depth of water over the bar will no doubt enable vessels of large draft to visit this port, when we hope to gain what we shall endeavor to merit, large increase of commerce and a share of the prosperity that awaits the South, and will come if her people put their hearts and hands rightly to work.

A. H. VANBOKKELEN.

The Vital Statistics Question. Since writing the article in yesterday's issue, headed "Vital Statistics of Wilmington," we have become convinced that there was an error in our report, as published in the STAR of the 2d instant. This error oc curred through a misapprehension, in regard to the interments of paupers, the bulk of whom it is likely were buried in Pine Forest, and perhaps a very few in the other cemeteries, and not all in the "Pauper's Cemetery," as our report had it. It was an error that was very natural for a person to make, and we take the first opportunity estimated his length is from forty to fifty of admitting it, so that the incorrect impression that has gone abroad through its instrumentality may be neutralized. Our figures in regard to the other cemeteries are correct. There were

Total......404

The reports from three cemeteries were obtained from the books of the several companies, as compiled by the Secretaries, who keep a record of every interment made. According to the information now before us we are of the opinion that the actual number of interments will not exceed 415 or 420. It is impossible to give the exact figures, as we are not at present posted as to the number buried in the "Pauper's Cemetery." It should be remembered that ten of those interred in Oakdale and one in Bellevue, with perhaps some in Pine Forest, died elsewhere, and were brought here for interment, a fact to which we alluded in our report of the 2nd inst.

Willis Drake, the crippled "Paddy's Hollow" shoemaker, threatened to kill his wife on Wednesday night, and made some ugly demonstrations in the neighborhood of the domicil in which she was abiding, whereupon, upon the first opportunity, she had a peace warrant issued and her recreant husband arrested and taken before a Magistrate. He was there ordered to give bond to keep the peace and to make his personal appearance, in default of which he was lodged in jail. That Drake and his "duck" are terribly mismatched.
