The Baltimore American's Icish Relief Fund amounts to \$1,143. This is the best work this Republican organ has done in many a day.

Among the Harvard Democratic boys Bayard is the almost unanimous lavorite. The boys like the jingling sound of silver in their pockets.

The Washington monument will be completed after awhile. There is a bill before Congress appropriating \$677,000 for its completion. It will probably pass.

Bald Mountain, in our State, is be ginning to behave itself badly again. says a report from the West. It is probably but a repetition of the old scare without cause.

The sale of liquor is to be abolished in the capitol and members of Congress must go out to wet their whistles. We expect to hear that delirium tremens has become epidemic

The biggest political humbug of the times is the Sherman boom in the South. Leave out the officeholders and but few of the Republicans prefer him. Grant is the man the voters want.

A "National Blaine Club" has been formed in Washington. Representative Price, of Iowa, is President. Among the Vice-Presidents are Senators Blair, of New Hampshire, and Booth, of California. There will be some lively work between now and the meeting of the Convention.

Brother Hood is green enough to suppose that John Sherman is in earnest when he promises half of the offices to the negroes. Brother Hood has never been deceived probably by

the promise of "forty acres and a mule." The "colored man and brother" was thus fooled, and may not believe brother Hood and his friend John Sherman about the pro-

posed division. Hayes has been reminded by sun-

dry Republicans in Virginia and North Carolina that it is his duty to enforce his previous order prohibiting office-holders to take part in politics. Hayes has forgotten he ever issued such an order probably. Last year his Cabinet, headed by himself, took an active part in the canvass.

All of the colored members of the Virginia Legislature have addressed John Sherman a letter assuring him of their support.
