Will Have Some Time to Walt. John Grady, who was convicted of manslaughter in the Criminal Court and appealed to the Supreme Court, will have to remain in jail until next August, it is understood, before his case is definitely settled. The Supreme Court meets again in June, but his case will not be disposed of in time for the papers to be returned to the term of the Criminal Court which meets the first of leigh. the same month, and therefore they will have to go over to the next term, which will commence on the first Monday in August. Up to the adjournment of this term of the

Criminal Court there had been no official announcement in the case of Francis Holmes, on an appeal from this county, which was disposed of in the last week in A Meteor in the Day Time.

Mr. C. C. Morse, of Greenville Sound, in this county, tells us that he saw a large meteor on Friday afternoon, about 2 o'clock, while the sun was shining brightly. It made its appearance in a northerly direction, and its course was downwards. Had it been seen at night instead of in broad daylight it would no doubt been of exceeding brilliancy.

It seems that one Rosa Ames, with whom he has been living, charges him with having burned the house of Mr. David S. Sanders, near this city, some time last year. Upon the information being lodged with Justice Gardner, yesterday, he issued a search warrant, which was placed in the hands of officer N. Carr. who succeeded in finding some of the furniture which it is alleged was stolen from Mr. Sanders' house on the night it was burned, and before the torch was applied. Four chairs were found in the house of Ben Williams, an uncle of the accused. who lives on Twelfth between Ann and Nun streets, in what is known as "King's Row," the neighborhood in which the "Moonshiners" were wont to congregate before the band was broken up, two or three years ago; a mahogany table, a gun, basket and a tea-cup were found in the house of Caroline Cruse, a sister of the accused, living on Castle, between Seventh and Eighth streets; and a pitcher, a bowl, a large-spoon, three plates, two knives and forks and two tin pans were found in the house on the corner of Twelfth and Dock streets, recently occupied by the accused, Henry Cruse. It is stated that Cruse says he burned the house because Mr. Sanders

> accused him of stealing hogs from him. The articles alluded to were recovered by Officer Carr, placed on a dray and taken to the office of Justice Gardner. They are said to answer to the description of certain articles formerly belonging to Mr. Sanders, and which it was alleged were stolen on the night of the fire.

Cruse will probably have a hearing in a

Mayor's Court.

Henry Cruse, colored, was arraigned on the charge of committing an assault with a deadly weapon upon his wife. The evidence was to the effect that defendant went to a house where his wife was, on Monday night last, and bursted open the door. He then seized a chair and was in the act of striking his wife, who was in the room, when she got hold of the chair to prevent he infliction of the blow, upon which the defendant drew his pocket-knife and cut at her once or twice. In the meantime her cries had brought two brothers and a sister to the assistance of the woman, who put Henry Cruse out of doors, and he was subsequently arrested on a warrant and lodged in the guard house. Defendant was ordered to give bond in the sum of \$100 for his appearance at the next term of the Criminal Court, in default of which he was lodged in jail.

Victoria Swain, one of the belles of 'Paddy's Hollow," was up for disorderly conduct and abusing a police officer. She was ordered to pay a fine of \$2 or go below for five days.

Criminal Court.

In the Criminal Court, yesterday morn ng. John Murrill, colored, heretofore sentenced to one year in the State Penitentiary for larceny, was let off on the payment of \$25 and costs, there being some extenualing circumstances in his case.

Court then, about a quarter to 11 o'clock, adjourned for the term, after a session of two weeks and a little over one day. The session was a very laborious one to both Judge and Solicitor, the latter, in addition to his usual duties, prosecuting two capital cases unaided. Altogether it was one of the most interesting terms since the establishment of the Court, and the result will be a considerable addition to New Hanover's representation in the Penitentiary at Ra-

ro the Orphan Asylum. The Arbitration Committee of the Pro. duce Exchange, consisting of Messrs. Don. McRae, B. G. Worth, Alfred Martin, B. F. Mitchell and D. J. Boney, had a case before them a day or two ago, and the usual fee of ten dollars received for the adjudication of the same has been generously contributed to the Orphan Asylum.
