

RATES OF SUBSCRIPTION IN ADVANCE. One year, by mail postage paid, \$7 00

MORNING EDITION.

Entered at the Post Office at Wilmington, N. C., as second class matter.

OUTLINE.

Bergen, New York, has been nearly destroyed by an incendiary fire; twenty-eight business houses and nine dwellings burnt; loss \$140,000. — W. Sperman, in Newberry county, S. C., whilst insane, killed his brother and then his wife and then himself. — The jollifications at St. Petersburg passed off quietly. — The Liberals elected their candidate at Dragebda, Ireland, in place of a Home Ruler. — Henry Pepper, Senator Bayard's law partner, was found dead in bed. — The paper makers will fight the effort to reduce the tariff on articles used in manufacturing paper. — Another rebellion, this time in a Territory; there is intense excitement at Kansas City and war is threatened in resistance of United States authorities. — A deputy collector of Internal Revenue was yesterday convicted of embezzlement at Danville, Va. — The Chisholm murder trials will begin again on Monday at De Kalb, Miss. — The quinine manufacturers are trying to get Congress to restore the duty on the imported article. — A large hotel at Brinkley, Ark., was destroyed by fire; loss \$10,000. — Gen. Melnikoff, chief of the Supreme Executive Commission, recently instituted in St. Petersburg, was shot at yesterday but escaped unhurt. — Miss Raymond declares that Senator Hill, of Georgia, is not her seducer, and that the suit against him in her behalf is made without her knowledge or consent. — The French Cabinet are divided upon the question of the extradition of Hartmann, demanded by Russia. — Cotton weavers to the number of 10,000 have struck at Ashton-under-Lyne. — Relief is still needed in Ireland. — New York markets: Money 5/6 per cent; cotton firm at 13-16; 13 3/16c; Southern flour dull at 57 5/8; corn 1 1/8c; turpentine dull and heavy at 46c; rosin quiet at \$1 45 1/2 5/8.

The Socialists have opened a school in New York with sixty-five pupils. — It is a good maxim to be borne in mind, first count the cost, then go ahead. — Washburne has changed his mind. He says he will if Grant won't. But the mischief is Grant will.

The Bayard men in New York are now searching newspaper files for Uncle Sammy Tilden's war record about 1860-61.

The papers are now discussing the lawlessness of Washington City. The Supreme Court appears to be the most lawless in its notions.

A gentleman asks us where the familiar line: "A fellow feeling makes us wondrous kind." may be found? Who can tell us?

The increase of the sale of postage stamps is steady. In twenty-five of the largest cities during the last six months the increase has been over 12 per cent.

The Richmond Dispatch contains the following, which will be news to most of us: "Washington was born on the 11th of February, 1732. The 23d became his nominal birthday long afterwards."

The New York dry goods market is thus reported in a letter of March 1: "The week commences with a firm feeling among the dry goods commission houses, and an advance in some makes of cotton flannels. Prints are in better demand, and prices are strong. Garner's Turkey reds are advanced, as likewise Steel River laws. Men's wear woollens in steady request and very firm. Foreign goods fairly active."

Two hundred and thirty-one males sat down to the De Lesseps grand dinner given him in New York. Rev. Dr. Storrs, Gov. McClellan, Peter Cooper and George W. Childs were present. Whether or not the latter repeated any of his obituary verse we are not informed.

If Wilmington has 17,000 inhabitants as is claimed for her, she gave less than six cents per capita, while Shoo Heel gave twenty cents per capita, and perhaps thirty cents. We only mention this in the hope that our sister city will do more and talk less. — Robesonian.

Wilmington has given nearly \$1,000, which is probably a third or more than has been contributed in the State. The Robesonian is pleased to say this: "Wilmington is boasting over what she has done for poor starving Ireland, and the STAR has convinced the Charlotte Observer that Wilmington did more than any place in the State."

Wilmington did no such thing. The Observer claimed that Charlotte had led all others, and the STAR merely set it right as to the facts. The whole State, nearly or quite 1,200,000 people, has not given \$2,500,000, we suppose. No place has done enough to blow over it.

MORNING EDITION.

By a special from Raleigh we learn

that the Democratic State Committee has appointed Thursday, June the 17th, and Raleigh the place, for holding the State Convention.

The decision of the Supreme Court in the cases affecting the rights of the States excite profound astonishment even among moderate Republicans in Congress. They think the ground taken very extreme. We copy the following from the special in the State:

"Democrats are delighted with the able and exhaustive dissenting opinions of Justice Field and Chief Justice Waite. Justice Field being complimented in the highest terms. Several of the ablest lawyers in Congress tell me it sounds the key-note for the Democrats in the next Presidential campaign, and will give Judge Field a tremendous boom for the Presidency.

"The dissenting opinion of Justice Clifford was elaborate and able, but that of Justice Field was marked by an ability and cogence that produced a profound impression upon all who heard it. He pronounced unconstitutional the law under which the majority of the court made their decision, and Mr. Tucker agrees with other able members in Congress in saying that his argument is unanswerable. He pronounced unconstitutional the law under which the majority of the court made their decision, and Mr. Tucker agrees with other able members in Congress in saying that his argument is unanswerable. He pronounced unconstitutional the law under which the majority of the court made their decision, and Mr. Tucker agrees with other able members in Congress in saying that his argument is unanswerable.

Senator Bayard will make no explanation of his peace speech in 1861. He says: "The speech itself is my reply, and that has been published. I stood in 1861 where I stood in 1871 and where I stand in 1880. I am in favor of this country keeping peace with its neighbor. I was opposed to it in 1861, I am opposed to it now, and I," he added, "they (the Republicans) desire to make the next fight upon the issue of opposing fraternal feeling, trying sectional strife and establishing a lasting peace, and are determined to revive the bloody shirt, I say that for myself, and without any regard to my position in 1861, I am in favor now of accepting such issue and making the fight upon it."

Lincolnton has six grocery stores. — Jo Turner has been to Washington. — Naah has just sent four convicts to the penitentiary. — The Raleigh News has completed its sixteenth half yearly volume. — The Morganton Blade favors either Charlotte or Wilmington for the State Convention. — The Concord Star tells of a man who used fishing hooks with corn and caught three wild turkeys. — Hale's Weekly: During the past month there were received \$206,000 of old bonds, and \$75,430 of new four per cent issues. — Hendersonville Courier: Friday morning last, at an early hour, Miss Emma Ibbotson, residing in the Bear Wallow neighborhood, was seriously, if not fatally, burned, while building a fire. — N. C. Presbyterian: We are advised that a protracted meeting is in progress at Hopewell church, Fender county. Religious services commenced on Friday last, and at the time of our advice were still in progress. — Oxford Torchlight: Granville county contains two-thirds of the tobacco factories in the Fourth Internal Revenue District of North Carolina, and more than double the number contained in any other county in the State. Our people are preoccupied. — Goldsboro Mail: We learn from a private letter that Mrs. Mary A. Outlaw, of Duplin, died on the 20th of February, at her home, in the 98th year of her age. For seventy-five years she was a consistent member of the Free Will Baptist Church. — Raleigh Observer: Sunday night, between 10 and 11 o'clock, Mr. George Little, brother of the late Dr. William Little, of this city, died of pneumonia at his home near Littleton, on the R. & G. R. R. At the time of his death Mr. Little was 83 years of age. Dr. William Little died here, of the same disease, in December last. — Winston Sentinel: High Point had a ripple of excitement Saturday night. A difficulty occurred between the students, (some fifteen in number) and an equal number of darkeys. Rocks and clubs were freely used, and several of the parties carry marks of the melee. The combatants paid no attention to the police until the darkey side was completely routed. — Mr. James Norwood, of Orange, informs the Durham Plant that he sold from 50 head of sheep \$200 worth of lambs, besides the farm reserving 15, took \$75 cash prizes at the State Fair, \$50 cash prizes at the Roanoke and Tar River Fair at Weldon, and at present prices will certainly yield \$3 per head in wool. The best of the wool will put 10 to 15 pounds, aggregating \$400. — New Berne Nut Shell: The sad intelligence was received here Saturday, by Dr. J. B. Hughes, that his son, L. W. Hughes, a student at the University of Virginia, had met with a serious accident the day before. The young man was out riding a horse back, when the animal, becoming frightened, ran away and threw him on a pile of stones, the fall breaking his arm, injuring his face and inflicting serious wounds about the neck. — The Raleigh Observer reports the finding of a jug in a brick building that was being torn down. It contained apple brandy, and was a historical relic. The jug has a history. In April, 1861, nineteen years ago, it was filled, sealed, and a legend tag bearing the words "Apple brandy, A. L. C., 1861," was affixed to the handle. The jug was then placed in the place where it was discovered. Mr. Hilliard Bell, the gunsmith, sealed it for Mr. A. L. C. Long, now deceased. Before sealing it Mr. Bell took a taste, and Saturday he took another.

THE NEW MARKET.

The Work Approaching Completion — Description of the Building, &c. The new market house, constructed by a corporation known as the Wilmington Market Company, under a contract with the city, and to be a public market, under the police regulations of the same, is approaching completion. The following is a list of the officers of the Company: President—J. E. Lippitt. Secretary and Treasurer—Wm. Larkins. Directors—H. A. Burr, E. J. Lilly, Jr., W. A. Cumming, A. T. London and J. E. Lippitt.

The building, which is probably one of the handsomest of the kind in the South, was constructed under the supervision of Mr. J. K. Vaughan, architect. It is situated on the west side of Front street, between Dock and Orange streets, and extending westward to Water street, being 70 feet wide and 205 feet deep, with additional covered cart sheds eighteen feet wide on either side, extending the entire length of the building, making the width of the building under roof about 106 by 205 feet, the north side of the building having a frontage on a twenty-five feet alley.

The building is constructed with heavy brick walls, on a solid foundation, and having an open truss roof, handsomely painted and ornamented, with sky-light and ventilator twelve feet wide, extending the entire length of the building, all the roofs being covered with the best roofing tin, and having ample outlets for water, which is to be utilized in flushing and keeping clean the cart sheds on either side of the building. The principal facade on Front street is modestly ornamental, being stuccoed and finished in imitation of granite, the window and door openings having appropriate hoods or cappings. A tower fifteen feet square and eighty-four feet high to the base of the westervane, and provided with belfry and clock (the latter to be placed in position), is placed on the northeast corner and fronting on the twenty-five feet street or alley, the belfry being constructed in an ornamental and appropriate manner, of wood and covered with different colored slate, cut to pattern, surmounted with a spiral weatherstone and lightning rod. The southeast corner is provided with a similar tower, fifty feet high to base of spiral, the top of which contains a large reservoir, which is supplied from a well, containing seven feet of water, for the purpose of washing and keeping clean the market house.

On the ground-floor of the building there are three store-rooms, about fifteen feet wide by thirty-five feet long, appropriately fitted, fronting on Front street, and three similar ones fronting on Water street. Over the stores on Front street is a large and commodious dining parlor, with necessary kitchen and all modern improvements. The Market Hall contains two main avenues thirteen feet in width, extending the length of the building, and numerous other avenues, four feet wide, intersecting the main avenue and communicating with the cart sheds. The building contains six-tween sides stalls thirteen by fifteen feet, and sixteen center stalls eight by fifteen feet, all of which are handsomely fitted with racks, counters, lockers, etc., and all fronting on both main and cross avenues. The building is paved with hard brick, and is especially well ventilated and lighted. The interior decoration is fine, the coloring so harmonizing as to produce a soft, mellow and agreeable light. The cart sheds are paved with cobble stones and provided with brick sidewalks. Both market and sheds are to be well lighted with gas, being provided with one hundred and six burners.

The Fish and Oyster Market building is located between the west side of Water street and the river front, having on two sides a water frontage. The building is constructed of wood, in ornamental style, is 50 by 77 feet in dimensions, is well lighted and ventilated, and provided with commodious stalls, having ample passage ways, and will be thoroughly lighted with gas at night.

Colporteur in the Bahamas. Capt. W. J. Potter, writing to the Presbyterian, of this city, under date of February 15th, says he arrived at Harbor Island about the middle of January, and up to the time of writing had only visited three settlements, as they are thickly populated. The people seem to be greatly awakened, and some have been converted. He adds, "The climate here is very delightful. The white sandy beaches look as if snow had been falling here, where it never has been known to fall. Traveling with me I have a converted young man about 18 years old."

Thermometer Record. The following will show the state of the thermometer, at the stations mentioned, at 4.31 yesterday evening, Washington mean time, as ascertained from the daily bulletin issued from the Signal Office in this city: Atlanta, 71; Jacksonville, 81; Augusta, 71; Key West, 80; Charleston, 73; Mobile, 74; Charlotte, 55; Montgomery, 74; Corsicans, 73; New Orleans, 79; Galveston, 73; Santa Rosa, 77; Havana, 60; Savannah, 73; Indianapolis, 78; Washington, 67.

Dropped Him and Him. Two men, one white and the other colored, were apparently assisting a drunken white man on the streets Tuesday night, when, happening to see Officer Griffith approaching, they dropped the man and ran, upon which the inebriated individual was taken to the lock-up. The officer was somewhat puzzled at the action of the two men in deserting their companion so unceremoniously.

THE MORNING STAR.

THE NEW MARKET.

Below we give the correspondence relative to the lecture to be given at the Opera House on Monday evening next, by the Rev. Jos. R. Wilson, D. D., of this city, for the benefit of the Wilmington Library Association, referred to in yesterday's issue: WILMINGTON, N. C., March 2, 1880. Rev. J. R. Wilson, D. D.

DEAR SIR:—In behalf of the Library Association, and in compliance with a desire which has been expressed by many, we respectfully request that you will deliver, at such time as may suit your convenience, a lecture from the title of the above Association. We have secured the use of the Opera House for the occasion, and await your pleasure and theme to give publicity to the matter. Your well known ability as a speaker, whether to the public or upon a secular topic, induces us the more eagerly to crave a favorable response. We have the honor to be, Very respectfully, Your obedient servants, C. H. ROBINSON, JOHN COWAN, B. A. HALLETT, Lecture Committee.

WILMINGTON, N. C., March 3, 1880. Messrs. Robinson, Cowan and Hallett: DEAR SIRS:—Believing it to be the duty of every citizen to do what he can for advancing the prosperity of the Library Association, I cheerfully give myself up to your wishes as expressed in the note this day received. I will be prepared to lecture, accordingly, on the evening of March 8th, and shall endeavor to make the subject of my address so interesting to you, that my townsman will think it worth while to take advantage of this additional opportunity to show their interest in the institution you represent, I am, gentlemen, Yours, most respectfully, JOSEPH R. WILSON.

"The Fifteen" Puzzle. The Philadelphia Times has this to say about this new game or puzzle: "Various accounts have been given of the invention of the 'Fifteen Game,' otherwise known as the 'Gen Puzzle,' which is just now having a run second only to that of 'Pifnaro.' According to one story it is the invention of a deaf mute in Hartford, who made it for the entertainment of the President of one of the Eastern Presidents and Nurses in the United States, and has been used for which it seems likely to make so many patients. Another story ascribes the thing to the postmaster at Canastota, New York, who gave the game to a lady in Syracuse, who sent it to a lady at Watch Hill, who took it to Hartford, where a Boston man saw it. The puzzle is to be seen every where. From all directions for using will accompany each bottle. None genuine unless the fac-simile of OUR PATENT IS on the outside wrapper. Sold by all Medicine Dealers. 25 cents a bottle.

DIED. PREGUS.—In this city, on the evening of the 2d inst., ANNE, widow of the late Daniel PREGUS, aged 74 years and 8 months. The friends of the family are invited to attend the funeral, this morning, at 10 o'clock, from the residence of her son, W. C. PREGUS, on Third St. HAWKINS.—In this city, at 11 o'clock, A. M., on the 3d inst., MILLIE REPTON, daughter of William H. and Jane S. Condit, and wife of James M. Hawkins, aged 29 years and 11 months and 21 days. "Softly, gently, she passed away." The funeral will take place this (Thursday) afternoon, at 4 o'clock, from the residence of her husband, on Market, between 13th and 14th streets, to St. Paul's Ev. Lutheran Church, thence to Bellevue Cemetery. The friends and acquaintances of the family are respectfully invited to attend.

ELECTRIC BELTS.—A sure cure for nervous debility, premature decay, exhaustion, etc. The only reliable cure. Circular mailed free. Address J. K. KEEF'S, 48 Chatham St., N. Y.

BOOK BINDER.—THE MORNING STAR BOOK BINDER does all kinds of Binding and Binding in any style, including the new styles, in a neat workmanship and reasonable prices. Mr. B. C. HARRIS, Stationer and Book Binder, No. 101 Front Street, Wilmington, N. C. mh 4 st

OPINION OF CELEBRATED DR. Wm. H. STOKES. Physician, Mount Hope Hospital, Wilmington: "I have great pleasure in giving my testimony to the virtues of Golden's Leibig's Lactogen Extract of Beef, and commend it as the very best preparation for use in cases of nervous debility, weakness and indigestion, and therefore confidently recommend it to the medical profession." GREEN & FLANNER, Agents, Wilmington.

THIRTY YEARS' EXPERIENCE OF AN OLD NURSE.—Mrs. Winslow's Soothing Syrup is the best remedy for all the ailments of Infants and Nurses in the United States, and has been used for thirty years with never-failing safety and success, by millions of mothers and children from the feeble infant of one week old to the adult. It cures colic, soothes the inflamed stomach, regulates the bowels, and gives rest, health and comfort to mother and child. We believe it the best and most reliable remedy in the world, in all cases of DYSENTERY and DIARRHEA IN CHILDREN, and is equally effective for all other cases. Full directions for using will accompany each bottle. None genuine unless the fac-simile of OUR PATENT IS on the outside wrapper. Sold by all Medicine Dealers. 25 cents a bottle.

THE PHILADELPHIA TIMES has this to say about this new game or puzzle: "Various accounts have been given of the invention of the 'Fifteen Game,' otherwise known as the 'Gen Puzzle,' which is just now having a run second only to that of 'Pifnaro.' According to one story it is the invention of a deaf mute in Hartford, who made it for the entertainment of the President of one of the Eastern Presidents and Nurses in the United States, and has been used for which it seems likely to make so many patients. Another story ascribes the thing to the postmaster at Canastota, New York, who gave the game to a lady in Syracuse, who sent it to a lady at Watch Hill, who took it to Hartford, where a Boston man saw it. The puzzle is to be seen every where. From all directions for using will accompany each bottle. None genuine unless the fac-simile of OUR PATENT IS on the outside wrapper. Sold by all Medicine Dealers. 25 cents a bottle.
