We are now dome with the Railroad fight. The Legislature has charge of it, and upon their shoulders must rest all the responsibility. The STAR has tried to do its duty.

Of the Washington Post's long in terview of Mr. Seymour, the correspondent of the Richmond Dispatch, writing from Washington city, says: "The remark of the Posts correspondent that he looks lifteen years younger than Mr. Tilden has been repeated in my presence time and again to-day by Congress-men and others. This interview has given quite a boom to Presidential speculations on both sides, and it is difficult to find a Democrat, not a recognized partisan for some other candidate, who does not say Seymour and Hendricks will make a ticket

The writer was prevented from hearing the lecture of Rev. Dr. Wilson. There is but one opinion of its excellence. The universal judgment is that it was a production of extraordinary merit. Gentlemen of other churches are the most enthusiastic in its praise. One gentleman (an Episcopalian and a native of Wilmington) said to us that he was much inclined to the opinion that it was the grandest intellectual effort ever delivered in the Opera House. Another gentleman (and both are competent) says something quite similar.

"watering stock," as follows: "The Wilmington STAR deserves credit for the independent manner in which it has alfted the 'Best' proposition. Its course will so doubt have a good effect in causing the Legislature to move with great caution in this important matter. We spoke some time ago, lo a conversation with some members of the Legislature, of the matter referred to below. We have feared ever since this matter was agitated that a process of this character would be resorted to and the State's interest, as well as the individual stocks, would be weaker than branch water, when Mr. Best and his 'associates' were done stirring in the 'thinning.' But there is some consolation in the fact that these stocks are already very

Senator Cameron says he has but one choice-Grant-and he will be nominated certainly on the first batlot. We are willing. Rah! Now for Seymour and Hendricks. But L. Q. Washington thinks that Mr. Seymour will not agree to run, and he professes to be as accurately informed as the Washington Post can be. He gives the estimate of Grant's supposed strength as he gets it "from one of General Grant's most promineut and best informed supporters" in Washington. Grant will enter with 491 votes, Blaine 175, and Sherman 84. The Convention will have 758 delegates.

Capt. S. A. Ashe, Chairman of the Central Executive Committee, has issued an address, calling "upon the County Committees to perfect their organization and to take the usual steps to have delegates appointed to represent their respective counties in State Convention; and they fur ther request the District Committees to call District Conventions for the purposes of selecting two delegates and their alternates to attend the National Convention, which will be held in Cincinnati on the 22d of June." The State Convention meets at Raleigh on June 17th, 1880.

The Contract Between the City of Wilmington and the New Market

Company. The contract between the city of Wilmington and the New Market Company covers about a dozen pages of legal cap paper. Thinking that a synopsis would be of interest to our city readers, we give it as

The Company stipulate to erect a market house on lots 2 and 3, Block No. 188, in the city of Wilmington, said market to be of brick and constructed in a workmanlike manner. Also to erect, adjacent to, and connected with, said market house, a building to be used as a fish market, and suitable sheds for the accommodation of market carts. The market house shall not be less than 210 feet long and 105 feet wide; the Market Company to pay to the city of Wilmington \$83.33 per month at the end of each month, commencing from the completion of said market, said Company to keep said market in a cleanly and wholesome condition, and to pay strict attention to its sanitary requirements. Should the city of Wilmington desire to purchase the land upon which said market house is erected, together with all the improvements and appurtenances belonging to the same, after the expiration of five years, the said Company shall sell to the city the said land and improvements at their actual cost, less the amount due for the old market house, ff anything should be due, and receive from the city in payment of the same the amount in bonds of said city at their then market value; the Market Company entering into bond of \$10,000 for the faithful performance of the contract. All police regulations and all city ordinances concerning forestalling, and all other city ordinances, excepting that relating to taxes, which now exist or which may hereafter be made, shall apply to said market, and be enforced within it, as fully and absolutely as if said market was the property of the

The city agrees to use the said market as the public market of the city, and agrees not to permit, for ten years, the erection of any market or markets within the limits of the city for the rental of stalls for the sale of meats, fish or perishable provisons; Provided, however, that the city may authorize meat, fish, or perishable provision stock in which business is done by single persons or firms, the tax on which shall be equivalent to the tax now levied, viz., five dollars per month, each subject to such changes as the State Legislature may make in said taxes. The city shall be at liberty to select such location as they may desire in any part of the city as a stand for market carts.

The city agrees after the completion of said new market and sheds herein mentioned, the Market Company shall take down and remove the market building located on Market street, between Front and Water streets, and shall pave the space now occupied by it with cobble stone. It is also agreed that the old market shall not be removed until market houses suitable for market purposes shall be erected by said Market Company in the First and Fifth wards of said city, as the wards are now laid out. The said Company binds itself that it will not dispose of or allow any liquors to be sold within the said market.

All persons who shall sell or dispose of dry goods or groceries within said market, shall be subject to a city license tax as a dealer in dry goods or groceries.

A Heavenly Phenomenon.

We see predicted that on the evening of the 17th (St. Patrick's Day) of the present month a phenomenon will occur among the heavenly bodies of a most beautiful and interesting character; that is an occulation of the planet Mars by the moon. At about 15 minutes before 6 o'clock, Mars will disappear behind the dark side of the moon, and remain hidden till a few seconds after 8, when he will reappear on the western edge. At the moment of his emerging the contrast in colors between his red light and the pale hue of the moon, will no doubt be very beautiful. This spectacle can be seen with the naked eye, but a good telescope will increase its brilliancy. The occulation of Mars by the moon is something to be remembered for a life time. The last occurrence of a similar phenomenon was the occulation of Saturn by the moon in 1876.

Mayor's Court A rather deeply colored damsel of the name of Julia Miller was arraigned on the charge of acting disorderly and defying a policeman on Water street Saturday night; Officer Everett said when he arrested her she "fought like a cat, scratching and clawing," and exhibited a number of scratches on his hands which he said the spiteful Julia left as souvenirs of her respectful consideration of him, personally and officially.

OPERA HOUSE.

Prof. J. M. Macallister. The Opera House, last evening, was well filled with an audience assembled to witness the performance of Prof. J. M. Macallister, magician and illusionist.

This is Prof. Macallister's first appearance in this city, if we mistake not, and his feats were really wonderful, and executed with a dexterous skill that baffled detection. Nearly everything done was new, and hence the more interesting. The audience were heartify pleased with the eutertainment, and of the kind, we certainly have never seen it surpassed. Upon the conclusion a number of presents, consisting, in part, of silverware, glassware, groceries, dry goods and crockery, were distributed to the fortunate holders of numbered tickets. Every article distributed was of decided value and useful, the last being a cash prize of ten dollars, which fell to James S. McGuire, colored.

Prof. Macallister appears to night and every evening this week, with an entire change of programme on each occasion,

Kicked to Death by a Horse.

A fatal accident of a very unusual and distressing character occurred on the Walker plantation, near Rocky Point, Pender county, yesterday, about 12 o'clock. A white man by the name of Henry Lewis, in the employ of Messrs. Westbrook & Bro. who are in charge of the plantation re ferred to, went into the stable to feed a horse, when the animal kicked him so severely that he died almost instantly. The unfortunate man leaves a wife and three children.

No Bespect for Age. The only excitement on Water street yesterday was caused by a tilt between a parcel of boys and an old colored fisherman. The boys were teasing and making sport of the old man, who finally became so indignant that he hurled his cane at the mischievous youngsters, when a colored boy in the crowd seized a rock, threw it at the aged fisherman, striking him over the left eye and inflicting a very ugly wound, from which the blood spouted in profusion

Our Mailroads. The freighting business on our railroads still continues heavy. One of the officials, alluding to the rush for the past month or two, says he never before knew of so much local freight arriving here in the same length of time. The meeting was called to order by E. W. Taylor, Esq., whereupon Mr. Joseph Stansland was unanimously chosen Chairman, and Mr. J. B. Mercer Secretary.

Mr. B. W. Taylor explained the object of the meeting, and forcibly showed the vital importance and urgent necessity of the deepening of the Lockwood's Folly river, and the opening of a canal, about one mile in length, connecting the waters of the Lockwood's Folly with those of the Cape Fear river, and so establish an inland waterway to Wilmington, in addition to the route by sea. MRS. WINSLOW'S SOOTHING SYRUP.—Rev. Sylvanus Cobb thus writes in the "Boston Christian Freeman":—We would by no means recommend any kind of medicine which we did not know to be good—particularly for infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, sudits pasents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable. We have frequently heard mothers say they would not be without it from the birth of the child till it had finished with the teething slege, on any consideration whatever. Sold by all druggists. 25 cents a bottle.
