MORNING EDITION

OUTLINES.

A train from Boston for New York was wrecked near Meriden, Connecticut : the escape of the passengers was narrow. -Postmaster Fedderman, of Bellou, Texas, has absconded with \$6,000 of government money. - At Gainsville, Texas, John Slight hit Captain Riely with a billiard cue that will cause death probably

a negro also killed another one in a row. ___ The negro James Black, who attempted to outrage Miss Hettie Ferris, in Dinwiddie county, Va., has been captured, and lynching is feared. - In the municipal elections in Ohio the Republicans are generally successful. --- The machine shops of the Bridgewater Iron Company, Boston, burnt, loss \$75,000. - W. E. Sawyer, the electrician, shot Dr. Theopilus Steel, of New York, in the nose; the wives quarrelled and involved the husbands. English Ministry will resign when the Queen returns from the Continent. -

The Liberals have gained 75, Conservatives gained 29. - Shere Ali has been invested with the sovereignty of the Province of Candahar by the Queen. - The Selma. Rome & Dalton Railroad is to be sold on Monday, June 18th. - The Board of Supervisors of San Francisco are taking steps towards the impeachment of Mayor Kulloch. - A colored cadet at West Point was bound and severely beaten by three masked men. - The municipal election at Cincinnati was carried by the Republicans. - Hart is in the lead in the walking match at New York. - The city of Cork elects Charles S. Parnell and John Daly to the House of Commons. -Minneapolis had a \$166,000 fire yesterday. - The Liberal are to make a grand demonstration at London in honor of Mr. Gladstone. - N. Y. markets : Money 6 per cent; cotton easy at124@124c; Southern flour quiet at \$5.40@7.25; wheat a shade stronger at \$1 36@1 371; corn less active at 53@55c; spirits turpentine dull and easier at 411@42c; rosin heavy at \$1 471@1 521.

The triumph of the English Liberais is a triumph for Ireland. Mr Gladstone has done more for that oppressed country than any other English statesman.

The infidel Bob Ingersoll is to lecture in Washington on "What must I do to be saved?" It strikes us that Bob could tell Congressmen better the surest way to be damned.

There is a great deal of talk in Washington over the misunderstanding between Representatives Manning and Springer. They are both Democrats. Manning is a native of Halifax county, North Carolina.

The Liberal triumph in England was like a meteoric shower in the day time to Lord Beaconsfield. He is represented as having been amazed and greatly depressed at the revolution in public confidence. But he is the Queen's favorite, and she will do all she can to soften his fall.

The Legislatures of Massachusetts Connecticut, Indiana, Virginia, Tennessee, Missouri and South Carolina have been polled with the following result: Seymour, 157; Bayard, 145 Tilden, 74; Hancock, 20. North Carolina was also polled, but we can not now lay our hand upon it.

Seven steamers left New York Saturday for Europe loaded heavily. The Bremen steamer took 250 barrels of seed oysters, destined for the oyster beds of Holstein. Among the other shipments were 879 head of cattle, 100 sheep, 4,200 quarters fresh beef, 1,275 carcasses sheep and 300 dressed hogs.

The Philadelphia Press, Republican, says that Pennsylvania is put down for twenty votes and New York for fifteen for Blaine, and that he has, according to Washington estimates, 359 votes, or within twenty of the number necessary to nominate. The Grant men brag still higher and nominate their man.

There is no doubt about the excellence of the Philadelphia Times. It has done more to give character and influence to Philadelphia journalism abroad as well as at home than all the other papers of that city combined. It is not infallible, but it is decidedly sagacious. Its editorials are well done always.

Oneida county, New York, will send an anti-Tilden delegation to the State Convention. Horatio Seymour lives in that county. A correspondent, writing from Utica, New York, on April 4, says:

"The masses here believe that Horatio Seymour will yet be President of the United States, and nothing short of future disappointment will convince them to the contrary."

The control of the co

This vessel was bound from Havana to New York, but when out of port only a short time, met with an ac-cident that rendered it desirable for the ship to make an early; harbor for repairs. She is 1,800 tons register, and was loaded with a cargo which, together with the value of the vessel, amounted, as alleged, to two million of dollars.

Dr. Richardson lectured recently in Philadelphia on the germ theory of disease An exchange says he acknowledged his obligation to Tyndall for his microscopic investigation on air, dust, spores, and other comforting and salutary topics, and continues: It is worth while for common people to learn that 50,000 typhus germs will thrive in the circumference of a pin head or a visible globule. It is worth while for them to note that these germs may be dessicated and be borne, like thistle seeds, everywhere, and, like demoniacal posses sions, jump noiselessly down any throat. But there are certain things spores cannot stand, according to the latest ascertained results of science. A water temperature of 120 degrees boils them to death, and soap chemically poisons them. Here sanitary and microscopic science comes together. Spores thrive in low ground and under low conditions of life. For redemption, fly to hot water and soap, ye who live in danger of malarial poisoning. Hot water is sanitary. Soap is more sanitary. Fight typhus, small-pox, yellow fever with soap Soap is a board of health.

He represented himself to the Court as a commercial trav eler; said it was whiskey kicking up so on the street, and not himself, and begged so hard to be released, saying he would be careful not to repeat the offence, that the Mayor finally let him off on the promise of leaving the city by or before 9 o'clock this morning.

especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup for children teething. It operates like magic—giving rest and health, and is moreover sure to regulate the bowels. In consequence of this article Mrs. Winslow is becoming world renowned as a benefactor of the race; children certainly do make up and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are Dailly sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and units in calling her blessed. No mother has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, methers—Tex it now.—Ladies' Visitor. Some of the negro "refugees" from Louisiana, now in Kansas, seem to have prospered at their old homes. Col. John M. Foster, before the Ex-

odus Committee, testified as follows: "Thirty families went to Kansas, taking with them \$7,000 in cash and \$3,000 worth of personal property, but several of them want to return, as they cannot make a living there. School facilities and provisions for securing justice for all are good in Louisiana. Two colored men who had returned from Kansas corroborated Mr. Fos-

ter's statements." Another colored man, James Myers, had heard of bulldozing but had seen none. He owned over 500 acres of land, besides cattle, &c. A propos of the exodus business, the following in the Washington letter to the Bal-

timore Sun is in point: "A large delegation of Kansas politicians, Republicans and Democrats, among whom are several colored men, have arrived here and will appear before the Exodus Investigating Committee of the Senate. They are agreed that Kansas is not a good place for Exodusters, many of whom they say are now starving in this city. They say that the colored labor from the South is driving out white labor, while it is not doing any good to the colored new-comers. The re-lief association organized to assist the exodusters is, they say, a miniature freedman's bank, and makes more out of the work than they give the exodusters."

At Utica, N. Y., where Mr. Seymour resides, some of the wards adopted resolutions to press his claims for the Presidency. In one of the wards tickets for delegates were headed, "For President, HORATIO SEYMOUR." This is significant. In other parts of New York he is being put forward as a candidate. He should not now interfere. The Richmond Dispatch

"We take it for granted that Mr. Seymour will not again be pronounced out of the race until he declares himself so.
