It is believed in Washington that Sherman will control a majority of the Ohio delegation. It is certain that Grant's nomination now depends upon the course of Southern Republican delegates.

On Sunday last 3,504 immigrants landed at New York. Thus far the total for April is 21,111. Rev. B. L. Fould, D. D., an eminent Hebrew scholar and Rabbi, died at Norfolk, Va., a few days ago.

Johnnie Roach is again in Washington hammering away at his favorite Brazilian subsidy. Johnnie dies hard. Tilden's "olive branch" he holds out to John Kelly and company resembles a cat-o'-nine tails. There is flagellation intertwined with its leaves.

Can it be true that Denis Kearney is in jail and is wearing the garb of a convict? The tongue is indeed a very unruly member and often gets one into trouble. A delegation of Congressmen called on Mr. Hayes and demanded that he should enforce the eight hour law in behalf of Government employes.

Those papers that have mentioned Mr. Kingsbury's name in connection with the office of Superintendent of Public Instruction, would confer a favor by stating that he is not a candidate for nomination, has never been a candidate, and that the suggestion of his name was without his knowledge or consent.

THE ASSAULT UPON THE COLORED CADET

still remains a mystery. There is a growing probability, to put it mildly, that Whittaker is No. 8—that is to say, that he wrote the note of warning to himself. The following is a portion of the abstract of the evidence on the 19th. The expert, Mr. Gayler, was examined. We quote: "He said the writing of the person designated as No. 8 was the only hand that presented points of resemblance strong enough to warrant an opinion, and he recommended the court to pursue its investigation in the direction of No. 8. When Mr. Gayler returned from inspecting the last three papers handed him, he said he was clearly of the opinion that the writing on one of them was written by 'No. 8,' but not the other two, though some of the writing on the latter bore some resemblance. No one but Recorder Sears knows who 'No. 8' is, and he says the fact will not be revealed until further along in the investigation. Cadet Dickenson testified that he had inspected Whittaker's room four times since November and at other times. Saw no pillow-cases on his pillow. He never saw other cadets' pillows without pillow cases. This witness gave many reasons why he thought Whittaker did the deed. He said a letter was written at the barracks on the night of the latter bore some resemblance to that of Whittaker's mother in Whittaker's handwriting. It was only partly written, and was in two pieces and partly burned, and was taken from the room and destroyed. Cadets Corralh, Hodgson and witness do not think that it ought to have been preserved. "Several cadets were called to testify to the quietness of the barracks on the night of the latter's outrage, and all swore that they heard no unusual noise that night, no struggle and no cries for help. The result of to-day's proceedings is deemed highly important."

As was expected Mr. Tilden had it all his own way in the State Convention of the "regulars" that met at Syracuse. He is strongly endorsed for the Presidency. His favorite henchmen are the delegates, and the two-thirds rule was adopted. The South should see to it that Mr. Tilden never secures two-thirds of the Cincinnati Convention. There are a million times greater interests at stake than those that centre in the political aspirations of one old man. The peace, prosperity and glory of the country demand that some other man than Samuel J. Tilden should be the candidate for the Presidency in 1880. If he were all that his worshippers claim it would be an act of political suicide to force him upon the country. Let the nomination be Horatio Seymour for President, and some other good and true man—Hendricks, English, McDonald, or some other available man—for Vice President, and the Democratic banner will wave in triumph, and the country will be safe.

In the report of the examination of the colored cadet in the New York Herald, the following occurs: "Q. At drill is there any difference made between you and other cadets? A. No, sir; at the University of North Carolina, where I was a student before entering the Academy, there were white and black students, and they associated on terms of equality." This is not true. Whittaker was never a student of the University of North Carolina, unless it was in the days of Radical supremacy—more than ten years ago. Whittaker would have been a boy not over eight or nine years of age. He is from South Carolina, and probably be referred to some institution in that State. When the negroes dominated that State possibly such whites as attended the University of South Carolina may have hob-nobbed with the darkeys.

From all accounts Blaine's attack on Carpenter was specially sharp and personal. He referred to the hardness and insolence of the Senator from Wisconsin. The Richmond Dispatch's special says: "Mr. Carpenter made a lengthy legal argument on the bill, and when Mr. Blaine replied he spoke of the hardness, the temerity, the insolence of the Senator from Wisconsin. He said the Senator is an astute lawyer because he himself says he is one. He was very bitter in manner and language, and his admirers enjoyed his remarks immensely. Frequently he was amusing, however, and made even Senators laugh. Said he, the Senator from Wisconsin is eminent, for he himself has said it."

Spirits Turpentine. Slight fall of snow at Hillsboro on Tuesday. We run short in this department from the want of State exchanges. Mount Airy Times: There is absolutely no guarantee in the bill, Messrs. Davis and Ruffin to the contrary, notwithstanding. Franklin Reporter: On Monday last a fatal accident occurred on Notia, some five miles west of town. A young man named Hays was accidentally shot by his cousin, and he died next day. The New Bernes Nutshell of the 17th states that up to that date 2,542 boxes of green peas had been shipped by the truck gardeners of Newbern, and that they were selling in New York at that date at \$5 per box. Raleigh Journal, Jarvis organ: We attach much importance to the effect of the sale of the Western North Carolina Railroad upon the political destiny of the

STATE, AND HAVE THEREFORE MADE PROMINENT THE MEN WHO BROUGHT IT ABOUT.

Fredrick Gazette, April 16th: During the annual meeting at the Presbyterian Church in this town, the services attending which closed last Sunday night, there were three accessions to the membership of the church, all young girls of twelve to fourteen years of age, from the Sabbath School.

Raleigh Observer: The case of the Western North Carolina Railroad vs. W. W. Rollins, involving the constitutionality of the repealing act, is being taken by writ of error to the Supreme Court of the United States, which may have the effect of involving the immediate transfer of that part of the property.

Raleigh Journal: Deputy Collectors F. M. Sorrell and Moore made a raid Tuesday last in Richmond county. Near the South Carolina line they captured a blockade distillery, managed by two men, Daniel McDaniel and Oscar Carmichael. With the still were found 800 gallons of beer and several bushels of mash, which they destroyed.

Rufus Morgan, the well known photographer, is dead. The Raleigh Observer says: About eighteen months since he went out to California to engage in bee culture, and was successful in his new enterprise. Two weeks ago he gathered a quantity of mushrooms and ate them. Among them were some of a poisonous species, and in a few hours after he had eaten them he was attacked with sickness, and in forty-eight hours he was carried off.

Lamberton Robesonian: We were glad to note a good deal of improvement going on in Fayetteville. Though the times are becoming dull, there is no perceptible decline in the march of improvement in our town. There were between twenty-five and thirty cases of measles in Rockfish village on last Wednesday, 14th inst. The disease is on the decrease at Beaver Creek and Bluff Factories above there.

Raleigh News: The revival at Hayes Chapel, under the auspices of Rev. G. W. Dunn, has just closed with fifty-one conversions. They are pushing the State University Railroad with a vim. A hundred hands are making up the road, mile and a half of the road bed is finished, ready for the cross-ties and iron. It is expected that visitors to the Commencement will come a little nearer to Chapel Hill by this year's landing in some five miles of the place.

The Weekly, Raleigh: Rev. Dr. George W. Purfoy, a distinguished minister of the Baptist Church, died at his residence, near Chapel Hill, on Saturday evening last. New York correspondent: Rev. Dr. Phillips and his wife have returned to their quarters at the Presbyterian Hospital, after spending five weeks with friends in New Jersey—weeks in which he had a back-set, but is now improving again. Mrs. Charles M. Parke having sufficiently recovered to travel, she left for North Carolina on Thursday night last.

Raleigh Observer: The State Board of Agriculture meet to-day. Among other business they will take steps to secure a State Chemical plant of the State. Six members were received into the First Methodist Church Sunday morning, three of them being deaf mutes. Sheriff D. A. Grantham, of Wayne county, yesterday brought up and placed in charge of the Penitentiary authorities five convicts: Buck Howell, white, and Joe Hendrix, Peter Mayer, Elijah Dally and Dennis Simmons, colored. Howell is sentenced for bigamy, Simmons for manslaughter, all the rest for the murder of a man.

Raleigh Visitor: Several persons were baptised at the Swain Street Baptist Church yesterday afternoon. There are 719 white and 929 colored children attending the public schools in Raleigh to-wash. We learn that Mr. W. H. Jones, of Middle Creek township, this county, cut Mr. Ben Holderfield last Thursday, near Holly Springs. It is said the difficulty originated about horses. At last accounts but little hope was entertained of the recovery of Holderfield. A letter from Cleveland Mills reports the fruit considerably injured by the recent cold weather, but that the wheat is looking unusually fine. The farmers are making preparations for a larger cotton crop than ever before. Rev. Dr. A. W. Miller, of the First Presbyterian church, is to have two weeks' holiday in which to recuperate his health, which has been very feeble for some time. He goes to Cleveland Springs to-morrow. Within the past few days the leaves have almost attained their full growth. You may go to the bar room. Not one of the clan Has whiskey to sell. To the moneyless man.

W. McDiarmid, of the Lambertton Robesonian, called to see us yesterday. The sidewalk in front of the Court House needs raising in some places, so as to prevent the water from standing on it after a heavy rain. A festival in aid of the Second Baptist Church is to be given to-night at Russell's Hall, corner of Fourth and Brunswick streets. The ladies hope to see all the friends of the church present. A colored boy by the name of Henry Macks was arrested yesterday afternoon for knocking a ball against one of the street lamps and breaking it. He was recognized to appear before the Mayor this morning.

THIRD DISTRICT.

Meeting of the Democratic Executive Committee. A meeting of the Democratic Executive Committee of this Congressional District was held at the Purcell House in this city yesterday, at 11 o'clock, pursuant to notice.

The meeting was called to order by the Chairman, Captain C. D. Myers, of New Hanover, and Dr. W. T. Ennett, of Pender. V. V. Richardson, Columbus; W. G. Curtis, Brunswick. Mr. D. G. Morrissey, of Sampson, was represented by proxy in the person of Mr. J. A. Ferrell; Dr. W. T. Ennett held the proxy for Messrs. C. P. Parker, of Bladen, and W. J. Stewart, of Moore; Mr. James B. Smith, of Cumberland, held the proxy for Mr. M. V. Prince, of Harnett.

It being decided that a simple majority was only necessary in balloting, the Committee proceeded to vote for the place of meeting of the approaching District Convention. Mr. Howland, of Carteret, placed Beaufort in nomination, Mr. Shackelford, of Onslow, warmly endorsing the proposition. Mr. Smith, of Cumberland, presented the claims of Fayetteville. The vote was taken and Fayetteville received 6 votes and Beaufort 5 votes, the Chairman not voting. Fayetteville was then announced by the Chairman as the place for the meeting of the Convention.

The time for the meeting was next discussed, and finally Wednesday, the 2d of June, as suggested by Capt. Richardson, of Columbus, was agreed upon. Dr. Ennett moved that the Chairman secure the necessary reduction in railroad fares for the benefit of delegates, and the papers of the District were requested to publish the result of the meeting, after which the Committee adjourned sine die.

THE SEASIDE.

The Proposed Railroad to the Sound. There was an informal meeting of the friends of the proposed railroad to the Sound, a few nights since, when the matter was pretty fully discussed, and it was finally resolved to hold a public meeting at the Court House, on Monday evening next, at 5 o'clock, for the further consideration of the proposed enterprise, when those interested will have an opportunity of learning what progress has been made, and books of subscription will be opened for the purpose of securing the balance of stock necessary to the successful completion of the proposed road. Considerably over half of the stock has already been taken, and it is thought likely that when the matter is brought prominently and intelligently before the people, as it will be at the meeting on Monday night, there will be no difficulty in getting subscribed the additional amount now required. The friends of the enterprise claim that it will not only prove a great public convenience, placing it in the power of all to visit the seashore whenever they feel disposed, but that it will prove an aid to the stockholders and the road.

The final success of the enterprise is now considered assured, but this has been brought about through the efforts of only a few, and it is hoped that others who should be equally interested may be induced to lend a helping hand. In this connection we would state that a company has been formed by a party of gentlemen of ample means, in anticipation of the building of this road at an early day, who have already nearly completed a steamer (mentioned in Tuesday's paper) for use in conveying visitors to and from the beach, and who design erecting all the necessary pavilions, bath houses, and other appurtenances on the beach for the accommodation of the public, thus providing in advance all the facilities of a first-class seaside resort at one of the most pleasant, salubrious and convenient locations on the Atlantic coast.

The advantages of the enterprise will be more fully enlarged upon by gentlemen competent to speak intelligently on the subject Monday night, and it is hoped that there will be a large attendance on that occasion. Homeless and Friendless. A white boy, about thirteen years of age, was found wandering about the streets at a late hour Tuesday night, apparently friendless and homeless. He gave his name as Newbold, and formerly resided at Conwayboro, S. C., his father and mother both being dead. He said he found a little work here, but had now lost his place, and had been turned away from his boarding place because he had no money. He was given accommodations at the station house for the night, and we learn will be provided for to-day. Excursion Postponed. On account of the unpropitious weather yesterday morning the excursion advertised for the day to Smithville was postponed to Friday (to-morrow), when it will take place in accordance with the programme previously announced. The boat will leave the wharf at 9 o'clock. Refreshments of various kinds will be served on board at city prices.

Temperance Meeting at Smithville. A large and interesting temperance meeting was held at the Court House in Smithville, on Monday evening last, which was addressed by Rev. Mr. Winans, Rev. J. L. Keene, Capt. W. J. Potter, Mr. J. L. Wescott, and Mr. J. B. Farrow, the latter of this city. A colored preacher also made quite an effective address, which was directed mainly to persons of his own race. The best of feeling prevailed, and it was thought that no little good was accomplished. We learn that the indications are favorable to the success of the dry ticket in Smithville Township at the election to be held on the first Monday in May. Brunswick Court. The Superior Court of Brunswick county, Judge Eure presiding, adjourned yesterday afternoon. There was but one capital case tried, that of Bob Everett, arraigned for the murder of George Everett, on January last. A verdict of manslaughter was rendered and the prisoner sentenced to ten years in the State Penitentiary.

GRANT VS. SHERMAN.

Views of a Prominent Republican.—The North Carolina Delegates to the Chicago Convention. There have been so many reports of the way the Republican Delegates to the Chicago Convention from North Carolina stand, that our reporter yesterday called on Mr. W. P. Canaday for the purpose of interviewing him. Mr. Canaday was the Republican candidate for Congress in 1876. He has been one of the most active Sherman workers in the State, and to him largely has the success of Mr. Sherman's interests been assured in the State.

Reporter—We desire to learn your views as to the probable standing in the Convention of the North Carolina delegates at Chicago which are already elected. Canaday—Sixteen delegates; four at large, and two each from the First, Second, Fourth, Fifth, Sixth, and Eighth Districts, have been chosen, of which thirteen of the sixteen are for Sherman and three for Grant.

Reporter—How will the delegation stand when completed? Canaday—In my opinion at least sixteen of the twenty will vote for the nomination of Hon. John Sherman on the first ballot, and eighteen of the twenty on the second. Reporter—How is it that reports have been circulated that a majority of the delegates already elected are for Grant? Canaday—That seems easy of solution. Grant's friends desire to give him a lift in other States, and they labor to make it appear that he will be nominated on the first ballot, for the purpose of influencing those who are swinging on the gate and desire to be on the strongest side if they can find it. The Committee of the Sixth District met last Thursday. Mr. Sherman's friends were the majority of that committee and elected delegates, yet it was immediately telegraphed that the delegates had been instructed to vote for Grant. A similar mistake occurred in the Second District; one of the elected delegates was declared by the Grant bureau to be for the ex-President, while the delegate publishes over his signature that he is for Mr. Sherman. So it goes! The friends of Mr. Sherman elect the delegates, and Grant's friends telegraph over the country "another success for Grant."

Reporter—Is it your opinion that a majority of the Republicans of the State are for Gen. Grant? Canaday—By no means; on the contrary a very large majority of the very best people in the Republican party in the State are to-day for Sherman. The colored people are claimed as a unit for Grant and are misrepresented; all of them who think and act for themselves, and who read the newspapers can properly be claimed as a unit the other way and for Sherman. The colored people are not the fools a very considerable portion of the white people take them to be. They do not forget the wrong done to, and the slights which which were heaped upon them by the Grant administration, and they have received double the number of appointments under President Hayes that they received from Grant.

The colored people are aware of all this, and they prefer John Sherman, who was a Republican years before Grant, and they feel that if Mr. Sherman is elected their interests and rights will be protected and that they will be properly recognized in the patronage of the party, all of which they deserve and have a right to demand. An Affecting Scene. A white woman was arrested in Paddy's Hollow yesterday morning for disorderly conduct. Not long afterwards a party, from the country, residing some twenty-five miles or more from this city, appeared at the station house and claimed that she was a near relative of his; that she had been astray and had plunged deeply into the whirlpool of sin and degradation, but that he was willing and anxious to take her to his home and make one more effort to reclaim her. He appeared to be a man of some considerable means, and remarked that he would willingly give five hundred dollars if he could be certain of accomplishing his object. The girl, apparently reciprocating his kindly feelings, and touched by his interest in her present and future welfare, approached and threw her arms around his neck, when the two wept unrestrainedly for a few minutes, and were then allowed to depart together, she with the avowed determination of accompanying her relative home, where, it is hoped, she will prove the sincerity of her repentance and lead a new life.

My wife has suffered for many years with indigestion and Dyspepsia, and after trying every thing else recommended to me, I tried your Regulator. In three days after taking it according to your directions (especially after each meal), she has been in perfect health; she does not suffer at all, and can eat and enjoy life as she would without any of her previous symptoms. Never did medicine have a happier effect than in my case. After a practice of a quarter of a century I proclaim them the best anti-bilious medicine ever used. I have prescribed them in my practice ever since."

Lane is now loading in this city for Rio. An important part of her cargo is a lot of forty large rail-roads scales, built by the Howe Scale Company for the Dom Pedro Railroad of Brazil. This line one of the most important in Brazil, running from Rio into the heart of the agricultural region, and enjoys the special patronage and care of the Emperor, in whose honor it was named. The selection of the Howe scales for use on this road is a compliment to be appreciated, and shows a preference in them that country ever all others.—New York Evening Post.
