Grant, says Gen. Longstreet.

We have noticed for some weeks a decided improvement editorially in the Norfolk Virginian.

Philadelphia has the walking disease in a very alarming form. Thirtyone pedestrians are now hard at it.

According to latest accounts the Virginia Republican delegation to

Chicago stands: Sherman 9, Grant 7, Blaine 6. The last concerning the Gramercy Park politician is that the recent

Syracuse Convention cost him \$100, 000, and he is certain of being nominated. Probably both are lies. Miss Emma Thursby has just re-

turned from a most successful tour abroad, and met with a most enthusiastic reception in New York on her first appearance. She is a great

Rev. Dr. Harrison, of Washington, delivered an astronomical sermon in which he thought it probable that the Star of Bethlehem would appear in 1881. The savans do not attribute much reliance to the Doctor's speculations.

The State lays it on pretty thick in its compliments to Mr. James Barron Hope, of the Norfolk Landmark, when it says:

"As a poet and orator he is now acknowledged to stand an equal among his peers, both at home and abroad, and his peers are the highest in the great Republic of Let-

The Richmond Commonwealth is publishing letters from "prominent" Virginians as to the Presidential nomination. They are mostly from Field supporters. Among them we note that ex-Governor Smith is for for Fowle, Haywood for Jarvis, Guilford Tilden and ex-Governor Kemper is for Scales. for Field. It would be easy in North Carolina to collect many columns of letters from our leading men who are for Seymour.

Prof. Lawrence Smith, of Louisville, Kentucky, an eminent men of science, according to the Richmond State's special, "tells the Committee on Inter-Oceanic Canals that in his opinion De Lessep's plan for a canal is utterly impracticable, and that not a dollar will be subscribed in Europe towards the De Lesseps company ber of the Lexington Exchange, edited by the work of a Charlotte lady who has won unless the United States shall recede Lewis C. Hange. It starts off well, and distinction in landscape painting.

from the threatened strict applicashows its wisdom by advocating Mr. Sey-mour. We wish Mr. Hanes all imaginable tion of the Monroe doctrine."

The debate on the Spofford-Kellogg case promises to be extended through days. Ben Hill is reported as getting the advantage of Hoar, whilst Blaine got in some effective blows by charging that there was an arrangement of some kind by which Kellogg was to be seated on the merits of the case, and Butler, of South Carolina, was to be seated upon the faith of his credentials. "Bildad," of the Richmond State, on the 27th, writes :

"Blaine got the floor again and returned to the alleged arrangement, and this time he was fortified with a record of proceedings in the Senate which showed that after a long sitting, during which both parties proved their power and resolution to defeat the seating of either of the claimants (Butler or Kellogg) unless the other be admitted, and when only one more day remained of the session Sena-Thurman remarked that he hoped and believed some agreement could be arrived at if the Senate would remain in session a little while longer. Later in the night Senator Edmunds asked that 'unanimous consent be given to come to an agreement among the Senators,' and stated his proposition, which was to vote on the Kellog-Spofford case at a certain hour that night, and that the Butler-Corbin case be voted within an hour after that was dis-

'Senator Thurman said, 'I hope the proposition will be agreed to, and I ask my Democratic friends on this floor to agree to it, and to trust to me that it will result in an arrangement perfectly honorable and fair to both parties.

"This proposition was accepted without dissent, and in pursuance of the agreement successive votes were taken-first, upon seating Spofford, which was negatived by years 27, nays 29; next, upon a resolution that Kellogg is, 'upon the merits of the case,' &c., which was agreed to by a strict party vote; next, upon a simple motion that 'Butler, of South Carolina, be sworn in as a Senator from that State,' which was agreed to -yeas 29, nays 28."

English reports are to the effect that when the Queen summoned Lord Hartington to Windsor that he was treated with marked shabbiness. Here is what is said:

"There was no carriage at the station to take him to the palace. He therefore walked to the Castle quite alone. He found no one to receive him at the entrance to the grounds. When the interview was over the Queen and her gold sticks in waiting allowed his lordship to walk back to the railroad station in a drenching rain."

We are glad she has been forced to yield. Tory principles are no excuse for bad manners or official dis-

The Philadelphia Press, Republican organ, charges that the most glaring frauds are daily perpetrated in the office of Court of Quarter Sessions of that city. It says:

"Five thousand liquor licenses are annually issued in Philadelphia. Two thousand have already been taken out for the year 1880, and of these it may be safely inferred that not one hundred have anything but forged bonds upon which to base their issuance. Of these two thousand bonds not eves one has received the approving signature of the District Attorney, which the law requires before a license shall be

Mr. Frank H. Alfriend has just returned to Washington from New York. The Richmond Dispatch's correspondent thus reports him:

"Tammany Democrats and anti-Tam-many Democrats, Tilden men and anti-Tilden men, all avow their purpose to support the nominee of the Cincinnati Conven ion. He reports that Mr. Tilden is a candidate, and that his friends are confident. Just after I had talked with Mr. Alfriend learned that Senator Williams, of Kentucky, has received a large number of letters recently, showing a rapid decline in Tilden stock in his State."

Score another State for Grant. South Carolina is for him solid, and has resolved to stand by him first, last and all the time. Thus the bell of fate sounds another note of warning, possibly of wee. Epaulettes to the front! Bayonets do your duty! "The Strong Man" is already booted and spurred, ready to mount. First Duke, then Emperor of America. Sic transit !

About one hundred and twenty persons have professed conversion, and about thirty have been buried with Christ in baptism.

- Charlotte Observer: The King's Mountain mine is one of the biggest properties in this section of the State. About \$350,000 was paid for it by the company which now owns and works it. Improvements amounting to an equal sum have been made upon it by this company. At the next term of Gaston court an action of ejectment will be begun against the King's Mountain Mining Company, who derive their title from a mortgage deed made by the old Gaston Mining Company, which about fifteen years ago worked the mine under a charter of the State of North Carolina.

- Raleigh Observer: Operations at the State Fish Hatchery, at Avoca, on Albemarle Sound, are progressing with unexampled rapidity and success. Never before have they been conducted on so large a scale as this season. Last Friday Mr. Worth reports that 500,000 shad eggs were taken. Up to that date 7,500,000 eggs had been secured. The hatching operations have also been very successful. On an average about 90 per cent. of the eggs The work of stocking the streams already begun, will be continued until many millions of the young fry have been placed in them. — The result of the revival at the First Methodist Church, under the charge of Rev. Folk, of Lenoir, has, we learn, accepted the invitation of the Ladies' Memorial Association, of this place, to deliver the address on the 10th of May. - To give an indication of the amount of fertilizers used in this section, we have simply to state that one agency, Messrs. Long & Watts, sold this season upwards of one hundred and fifty-five tons. Besides there are in the place three or four other agencies who, perhaps, have done equally as well.

We are pleased to learn that several families will be added to the population of Statesville during the present year, on account of its educational advantages, healthful climate and business outlook. Church privileges are equally inviting. Presbyterians, Methodists, Episcopalians, Re formed Presbyterians and Baptists, all have good brick edifices for public worship-all paid for-and will be no tax to new comers.

She must, to use the expressive phraseology of a seaman, have "come in on the very top of the tide;" and if she gets out again she will have to go the same way. She might be considered in somewhat dangerous quarters if a gale of wind should spring up from an unlucky quarter before she changes her location.
