New York dry goods market moderately active, lawns firm, Hartel's prints down 1 cent.

Now it is said Hayes will sign Mr Bayard's bill relative to the appointment of deputy marshals, etc. llayes is a fraud.

Sherman's friends are encouraged. They think he stands a better chance than any man if either Grant or Blaine is not nominated. They say more Grant men will go for him than for any one else.

The Chicago Inter-Ocean, Grant's ablest organ, justifies the "bolt" in the Chicago Convention. We wender if it will be kind enough to justify the "bolt" among the New York and Pennsylvania Republican delegates?

Conkling is calling names. He brands the recalcitrant Republican lelegates from New York as "traitors." Ife says there are only six. To rebel against Lord Roscoe is to be a "traitor." If he keeps on he will make that name honorable.

Lord Roscoe is the leader of the political Agnostics, and in the Senate success at local self-government as that "shade of the shadow of the old Democratic sentimentality of States rights." That mighty thought must have been evolved from his brain under the quickening influences of Sprague's shot-gun policy.

The Greensboro Daily Patriot has appeared. It is of the right size, and s nicely and artistically arranged. It takes the dispatches, and for two cents lays the freshest and latest news before the people of that excellent section of North Carolina. It ought to be well sustained. We congratulate Capt. Fulghum on this evidence of pluck and go-ahead-

Senators Wallace, Randolph and David Davis think Tilden will be nominated. So says "Bildad" in the Richmond State, and he adds that a Western Democrat is anxious for Congress to adjourn because "Democratic members from the South must get home and inform the people how things are, so that they may know in time that it won't do to nominate old Tilden."

Some think that Governor Jarvis will develop enough strength in the State Convention to be nominated on the first ballot. This requires twomajority only. Others profess to believe that Judge Fowle will start with greater strength, whilst others are looking out for a "Jark horse" to win. When the man-who-knows comes this way we will publish what he says.

HORSEFORD'S ACID PHOSPHATE FOR NERVOUSNESS .- JOHN Y. SIMP'-Son, M. D., of Monterey, Iowa, said: "The Acid has—to use the lady's own expression, to whom it was given as a Nerve Tonic—made me a new nervous system."

Grant in Illinois:

WILMINGTON, N. C., THURSDAY, MAY 13, 1880.

The Richmond State's special of lodged in jail at Snow Hill for burning the the 11th inst., says of the Republiticulars of which were given in these colcan outlook and the prospects of

"Although Blaine has already secured delegations from six or seven counties, and Washburne some others, it is believed the Grant men will have a small majority of the whole number of delegates to the State Convention, not counting those from Cook county, and will, therefore, control the se-lecting of delegates to the National Convention. But it is thought that if they exclude all the anti-Grant delegates from the State Convention, a bolt of the entire anti-Grant element will follow, and the National Convention will have to decide between contesting Grant and anti-Grant delegations."

Ohio is reported as in fact solid for Judge Thurman, There is no empty compliment in the matter. The State's letter of the 11th says:

"John G. Thompson, Sergeant-at-Arms of the House, and chief manager of the Democratic machine in Ohio, says there is no Tilden under-current in Ohio. The Ohio delegation to the National convention will vote solidly for Thurman as long as he has the least chance for nomination and will then vote solidly for somebody else."

To-Day's Indications.

Falling barometer, northeast to southeast winds, cloudy weather and numerous local rains areas, are the indications for this section to-day."

Jailed for Larceny.

Ephraim Smith, colored, principal witness in the case against John Merritt, charged with the burning of Mr. John A. Sanders' house about three years ago, has been required by Justice Gardner to give a justified bond in the sum of \$50 for his appearance at the next term of the Criminal Court to answer to the charge of larceny, in default of which he was sent to

Dry Weather. A friend writing us from Whitaker's, speaking of the weather, says: "It is very warm and dry with us, and farmers are complaining that young cotton is dying from the effects of the heat and drought. that a negro named John Todd has been In some sections it is not coming up well."

Mayor's Court.

Carter Croom and David Joslyn, two small colored boys, were arraigned for fighting on the streets, throwing rocks a each other, &c., and resisting the police. Carter had been arrested early in the day on Tuesday, for fighting, but was discharged from custody, and was rearrested before night for the same offence. He was ordered to be locked up for fifteen days. The other boy was discharged.

U. Fitch, colored, charged with being disorderly and resisting arrest, was ordered to pay a fine of \$5 or go below for ten

Charles King, colored, charged with assaulting J. P. Spann with a deadly weapon; the particulars of which were given in our last issue. The shoe knife with which the assault was made was exhibited in court. The only witnesses examined were Spann and George Robinson, proprietors of the shoe shop in which the difficulty occurred. The defendant was ordered to give a justified bond in the sum of \$50 for his appearance at the next term of the Criminal Court, in default of which he was committed to

W. H. Blackwell, colored, was next arraigned, on the affidavit of his mother, Patsy Blackwell, who charged him with being very obstreperous, wilful and disobedient: that he had threatened to take a stick and "wear her out," and had used other and various endearing expressions similar to the above, in referring to her. He was sent below for thirty days.

Homicide in Nash County.

A correspondent, "P. L. F., writes us from Whitaker's of a terrible homicide that took place in Nash county last Saturday, the 8th inst. A colored man by the name of George Jones, who lives in Edgecombe, had a quarrel with his wife, when the latter left him and went to the house of her brother, one Hilliard Bryant, living on the plantation of Col. W. D. Harrison, about three and a half miles from Battleboro'. George Jones pursued her, and appeared at the house of his brother in-law, armed with pistol and bowie-knife, and demanded his wife. Bryant ordered him not to enter his yard. Jones retorted that he had come to kill some one or have his wife, one or the other, and walked into the yard, whereupon Bryant dealt him (Jones) a heavy blow on the head with a hoe, breaking the skull, from the effects of which Jones died in about three hours. Bryant had not been arrested at last accounts.

Alleged Insecurity of Fourth Street

The opinion seems to be very general on the part of people living in that part of the city known as "Brooklyn," that the foot bridge over the railroad on Fourth street is not safe, and this feeling of insecurity will continue until something is done in the way of strengthening it. A resident of that section informed us yesterday that only those who are ignorant of its condition now cross on the foot bridge, the others taking the bridge intended for vehicles, except when they go over the other inadvertantly. We call attention to this fact in order that some action may be taken in the matter, for, whether the danger is exaggerated or not, the feeling of insecurity exists, and measures ought to be taken to allay it. On the other hand, if the insecurity does really exist, as is claimed, a terrible accident may possibly result if something is not done to prevent it. Let competent mechanics examine the bridge and report at once on its condition.

Early Closing. We hear of a movement on foot-usual at this season of the year-to secure some unanimity of action in regard to the early

closing of stores in the evening, say at 7 o'clock. It is desired to commence the ar. rangement on or about the 15th inst., and to continue it in effect until the 15th of September. It is very important to both employers and employes that some time should be had for recreation during the summer

Wilmington Light Infantry.

As several errors crept into the list of officers of the above company, as published in our last, we reproduce it corrected:

Jackson are in Raleigh as representatives of the various lodges, etc., of this city, in the meeting of the Grand Lodge and Grand Encampment of the Independent Order of Odd Fellows, now in session in the "City of Oaks."

The Superior Court.

Those who wish to commence a civil action before the approaching term of the Superior Court, which convenes in this city on the 31st inst., will have to enter suit before Friday of next week-one week from to-morrow. Such suits have to be entered ten days before the meeting of Court.

Finding a Trunk Broken Open. A small trunk was broken open on Church, between Front and Second streets, a few nights since, and is now at the City Hall. It contained nothing but tax receipts and other papers of trifling importance when found. These bore the name of W. James, who is said to be a colored man.

Masonic. The meeting of the Grand Chapter of Royal Arch Masons will be held at Wilson, commencing on Tuesday, the first day of June. Messrs. H. H. Munson, C. M. VanOrsdell and Samuel Northrop will represent the Order in this city.

NORTH CAROLINA MEDICAL NO-CIETY.

Second Day. MORNING SESSION.

The Convention was called to order at 9 o'clock.

The President announced the following as committee on Nominations:

Drs. N. J. Pittman, J. J. Summerell, W. George Thomas, Eugene Grissom and H. T. Bahason.

Dr. Summerell, of committee on Credentials, recommended the following gentlemen: Drs. R. A. Harser, Tobaccoville; L. W. Powers, Plymouth; C. M. Pool, Rowan county; and moved that they be declared members of the Society. Carried. The following were seceived as delegates from Cumberland county Medical Society: Drs. J. A. McRae, W. C. McDuffle, and J. W. McNeill.

Dr. N. J. Pittman reported a case ainhum and exhibited specimen.

On motion of Dr. Foote, the reading of the annual essay was declared in order. The essayist, Dr. Thomas J. Moore, of Charlotte, then proceeded to read an able, comprehensive and valuable essay on Pelvic

Upon the conclusion of the speaker, Dr. McMcDonald, of Washington, moved that the thanks of the Society be tendered Dr. Moore, and spoke briefly, highly complimenting the effort.

Dr. C. J. O'Hogan, in seconding the resolution, warmly endorsed the essay as a highly creditable and an exhaustive resume of the subject. -

Dr. Foote endorsed the favorable comments of the gentleman, and moved the reference of the essay to the committee on Publication.

Dr. Summerell, of the committee on Credentials, reported the name of Dr. H. P. Ivey, of Fayetteville, for membership and moved that he be received. Carried. The Secretary announced that letters of regret had been received from Drs. Allison Hadley and Lyon, as being unable to attend

the Convention. Dr. Lilly, of Concord, exhibited a specimen of calculus from the bladder of a hog, with a string as nucleus, and reported a case of biliary calculus with specimen.

Dr. Foote reported a case of urinary calculus, and exhibited a stone discharged weighing two drachms, down weight; also spoke of the use, with gratifying success, of common cooking sods in thecase of a patient badly burned.

Dr. Summerell, from experience thought well of the use of soda for burns, and also mentioned of having heard of the removal of a stone weighing an ounce and a quarter from the bladder of a woman by simple

Dr. Payne knew of the last case, and that the woman died under the operation. Dr. Carr reported a case of colloid cancer

Dr. C. T. Murphy had effectually used soda for burns, but found difficulty in removing it on account of its caking-in one case, after repeated trials, had only succeed ed in removal after soaking several hours in

Dr. McDonald had used anccessfully strong saturated solution of sods, and then applied cosmoline; he thought the solution was equally efficacious and obviated the difficulty encountered by Dr. Murphy.

Dr. Murphy reported a case of the amputation of the leg of a man aged 49 years on account of a chronic ulcer of long stand ing; had used carbolic acid, with signal suc cess in dressing the stump, and found that with a twisted handkerchief and the aid of an assistant the hemorrhage was perfectly arrested, in fact more effectually stopped than he had ever found the case with tour-

Dr. McDonald reported a case of a boy having three fingers cut off by a circular saw, rendering the amputation of the stumps necessary. He carbolized the ends of the fingers and the boy was at work in

Dr. Gaither preferred the aid of an assis tant to the use of mechanical appliances in all surgical operations; regarded soda for burns as a standard remedy.

Dr. Summerell spoke in relation to the best means in reach of the ordinary country practitioner and mentioned that he had found a dressing of spirits turpentine and alcohol to answer admirably, applied to

Dr. Bellamy asked Dr. C. T. Murphy i he had used Martin's Bandage in case of the chronic ulcer mentioned, and cited numerous cases of its successful use.

Dr. Potter reported excellent results from use of grafts and adhesive straps. Dr. McDonald had used Martin's Bandage in case of an ulcer of twelve years

standing with success. Dr. Hill spoke from personal experience of the efficacy of chloroform internally administered in treatment of bilious colic.

Dr. G. G. Thomas stated that tickets could be had of the Secretary for the excursion down the river, given by the New Hanover Medical Association, complimentary to the Convention, and to take place to-morrow.

On motion of Dr. Lane, the Convention then adjourned until 3 P. M. AFTERNOON SESSION. The Convention was called to order a

84 o'clock. Dr. Carr moved that the Constitution of the Society be printed with this year's proceedings of the Convention and a copy

The Chair called for the reports of the Dr. W. C. McDuffle, on Surgery and

Dr. Wilson, on Obstetrics and Gynæcology, was absent, but Dr. Hicks stated he had the report, and consent was given to postpone its reading until this morning.

Dr. James McKee, on Practice of Medicine, and Dr. Tull, on Microscopy and Pathology, were both absent. Dr. C. Tate Murphy stated he had not

written out his report, and was granted further time. Dr. R. H. Lewis, on Ophthalmology and Othalogy, submitted a comprehensive and

interesting report. Dr. Gaither offered the following: Resolved. That the committee appointed apon the Edgecombe resolution be instructed to consider and report in regard

to the advisability of urging upon the proession and people what action we should ake to procure a statutory lien for medical attendance. Dr. Wood, at the request of Dr. Anderson, read a letter from the Medical Society of Georgia, asking the North Carolina

Medical Society to unite with them in forming a new National Board of Health. Dr. Wood moved the subject be made the special order for to-morrow morning, immediately after the regular order of

business. Agreed to. Dr. J. D. Roberts read a paper on a case of hip joint disease, exhibiting instruments, and practically illustrating the manner of use on patient, a little boy.

Dr. Faison spoke in reference to this dis-

Dr. Picot moved to refer the paper to the committee on Publication.

Dr. Holmes, of committee on Credentials. reported the name of Dr. L. Hussey, of Duplin county, and moved that he be received into membership. Agreed to.

On motion of Dr. Picot the Society then adjourned until 8:30 o'clock.

DR. EUGENE GRISSOM'S ADDRESS At night a very fine audience of ladies and gentlemen assembled to hear the annual address, by Dr. Eugene Grissom, Superintendent of the Insane Asylum. The President of the State Medical Convention, Dr. Shaffner, introduced the speaker, announcing that his theme was ism." It was a great intellectual performance from first to last. It was very elaborate, very learned; indicating a wide reading both in science, philosophy so called. and in some departments more purely literary. It was an acute, forcible, able, and conclusive refutation of evolution-of materialism as set forth by Darwin and his followers. It vindicated the truth of God's laws, glorified man, and established to our satisfaction that we are not the descendants of gorillas, being simply endowed with immense monkey-power. Darwin and company may derive satisfaction from a conviction and consciousness that they are the sons of the ape, but the learned and able speaker convinced us that the remainder of us are sprung from one com-

mon ancestor, Adam-"Who brought death into the world and

We have not space to present a bare outline of the remarkable effort of Dr. Grissom. It was not only scientific, learned and able, but the severity and vigor of logic were relieved by many beautiful and even splendid rhetorical passages that glowed with imagination and were adorned with those graces which only a reverence for the true and noble and good can supply. It was a manly, earnest and powerful protest against those scientific heresies which rob man of his immortality, the lost soul of a Saviour and the world of a God. It was full of "sweetness and light," and we thank the speaker for the rare intellectual feast

which he laid before us. The following officers were elected for

TIMELY CAUTION.—Genuine Hop Bitters are put up in square paneled, amber colored bottles, with white label on one side printed in black let ters, and green hop diaster, and on the other side yellow paper with red letters; revenue stamp over the cork. This is the only form in which genuine Hop Bitters are put up, and the sole right to make, sell and use them is granted to the Hop Bitters Manufacturing Co., of Rochester, N. Y., and Toronto, Ont., by patents, copyright and trade mark. All others put up in any other way or by any one elsocialming to be like it or pretending to contain hops, by whatever names they may be called are bogus and unfit for use, and only put up to sell and cheat the people on the credit and popularity of Hop Bitters.

There is not the least doubt that the terrible frequency of lats years of Paralysis, Insanity and the worst forms of organic disease is mainly attributable to the quantity and constituents of the medicines of the day. Take Simmons Liver Regulator, a purely vegetable medicine, containing all the virtues of Calomel without any of the injurious tendencies so justly dreaded by mankind. It will be found prompt to start the secretions of the Liver, and give a healthy tone to the entire system, without salivation or any danger. When used as a Cathartic it in no wise disorders the system, nor dees it produce any nauses or sick stomach when about to purge. It is so mild in its action as port to about to purge. It is so mild in its action as not to interfere with business or pleasure. Beware of imitations gotten up on the popularity of Simmons Liver Regulator.

THE FATE THAT BEFELL A HAVANA MER-CHANT!—The New York papers are eagerly informing their readers that the following accident is likely to occur again at any time to any American as well as a Cuban or other foreigner. It seems that Senor Ricardo F. Kohly, a wealthy merchant, with that spirit of anterprise which characterizes the nation chat gave Christopher Columbus a great stake, sent to M. A. Dauphin, No. 319 Broadway, New York City, for a ticket in the April drawing of the world-wide fameus Lonisians State Lottery, and received by return of mail No. 41,595, and learned by telegraph of his success in earning by the investment of \$2 a sum of \$30,000 in gold, worth in the debased Havana currency about \$75.000 or \$80,000. And now why are you not an imitator of this lofty Spaniard—Dear Reader.

A BENEFACTRESS.—Just open the deor for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure that we will teach our "Susy" to say, "A blessing en Mrs. Winslow," for helping her to survive and escape the griping, colicking and teething siege. MRS. WINSLOW'S SOOTHING SYRUP relieves the child from pain, and cures dysentery and diarrhesa. It softens the gums, reduces inflammation, cures wind colic, and carries the infant safely through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—knew her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists. 25 cents a bottle.
