On motion of Dr. Summerell the sum of my 14 1t 50 was voted from the funds of the So ciety to Dr. Carr, Treasurer, as a slight token of appreciation of his services. CE COLD, WITH GENUINE On motion of Dr. Satchwell the Board of Health retired for conference, and in the interim Dr. J. F. Long, of New Berne, addressed the Society, taking for his theme the medical laws of California, which State, he said, had taken the lead in a successful effort to drive out quackery from her borders by the enactment of stringent statutory provisions against unlicensed Microscopy and Pathology-Dr. Herbert practitioners, empirics and venders of nostrums, and he urged that the example set should be followed in this State. The President appointed Drs. S. S. Satchwell, George A. Foote, Jos. Baker, R. H. Lewis and John McDonald as a committee to memorialize the Legislature upon a law requiring that druggists shall have a license from the State Board of Medical Examiners as a requisite qualification for dispensing medicines. The same committee were also directed to ask in that memorial for a statutory lien law for the benefit of physicians in practice, and to prepare a bill for both these purposes, to be offered to the Legislature. An animated discussion took place upon the selection of a place for the next meeting of the Society. The President announced that the Raleigh Academy of Medicine invited the Society to meet at Rsleigh. Dr. Hill, of Rowan, extended an invitation to the Society to meet at Salisbury. Dr. Lane said it was contemplated at the last annual meeting that after meeting at Wilmington the next annual meeting should be at Asheville. Dr. Satchwell seconded Dr. Lane's motion to meet at Asheville. Dr. C. T. Murphy said he preferred Asheville, but did not like to go where not invited. Dr. Wood said there price. had been some correspondence relative to the Society meeting at Asheville next year, but that no formal invitation was extended. He argued in favor of that place for the advantages that might accrue to the Society in an awakened interest in that section of the State. Dr. Foote objected to Salisbury and Asheville, and favored Raleighlas a more convenient and central place. He thought that if the Society met at Asheville one-half of the Eastern members would not be able to attend. Dr. Bahnson spoke in favor of Asheville, and finally, the question being put to the Society, Asheville was selected as the next place of meeting, by a vote of 21 to 20. On motion, the last Tuesday in May was appointed as the time. Dr. Haigh announced that Dr. Hicks having removed to Virginia, had tendered his resignation as a member of the Board of Examiners, and that Dr. R. H. Lewis, of Raleigh, had been elected in his place. Dr. McDonald was announced as essayist. A resolution thanking Dr. Grissom for the able address delivered by him before the Society was adopted. The thanks of the Society were tendered resolution to the olligana of

Ben Hill spoke two days and was still to occupy the time of the Senate tor another day. It is admitted to be very strong?

In 1879 there were 82,192 immigrants. Thus far in 1880 there have been 198,876. These figures are official from the Chief of the Bureau of Statistics.

Grant is a candidate. He will fight it out on that line if he loses half his men, as he did when he butted himself against Lee's invincibles. Grant is in earnest, and he will die game. They may slay him, but he will not surrender or fly the field.

Miss Mary Anderson, since September 8th, 1879, has performed 238 times. She receives \$75,000 as her share of the profits. The total receipts were \$242,619. The expenses, including her two managers, consumed all but the amount given, which is net gain to her. This may be put down as a very successful sea-

Twenty Democrats voted in favor of Yocum, the Pennsylvania Republican, whose seat ex-Gov. Curtin was contesting. This is a surprise, but it may have been right under the circumstances. The district is largely Democratic, and Cartin would have been elected if he had not been too ill to canvass. It is thought that s new election should have been ordered long ago.

Religious.

Rev. Dr. Teasdale will preach to-night, in the First Baptist Church, on "The unpardonable sin; or, the sin against the Holy Ghost. What is this flagrant sin ! And who are in danger of committing it ?' The services will commence at 8 o'clock, promptly. Dr. Teasdale has made this important subject a matter of patient and critical investigation, and his matured views upon it will be submitted to the candid consideration of his hearers to-night. All are cordially invited to attend.

Cape Fear Light Infantry ..

At an election of officers of this Company (colored) held list night, the following

Tarboro; Chas. S. O'Hogan, Greenville and J. J. Summerell, Salisbury.

The chair read the names of the following gentlemen as having been appointed by the present chairman of sections: Surgery and Anatomy-Dr. Allman Holmes.

Obstetrics and Gynæ:ology-Dr. Willis Olston. Practice of Medicine-Dr. I. W. Faison.

Materia Medica and Therapeutics-Dr. W. C. Murphy.

Haywood. Opthalmology and Otalogy-Dr. George Gillett Thomas.

Dr. W. C. Murphy read an interesting paper on ancient medicine, and in conclusion stated it was but the result of a few hour's reading and not for publication. Dr. McDonald, of Washington, moved to insert the following amendment after section 3, article 8 of the Constitution: "And he shall not be reinstated to the rights and privileges of the Society unless by a two-thirds vote of all the members present and full compliance with all the requirements of section 2 of the same article. Adopted unanimously.

Dr. S. S. Satchwell, Chairman of the Committee on Obituaries, reported that since the last session of the Society the following gentlemen had died: Drs. Edward Strudwick, Hillsboro; W. W. Davis, A. E. Wright, J. Francis King, Wilmington; and William Settle, Raleigh. On motion of Dr. McDonald, of Wash-

ington, the case of Dr. R. W. Glenn, charged with irregular practice, was referred back to the Medical Society of Guilford county.

The consideration of the letter from the Georgia Medical Society made the special order for this time, was then begun. Dr. Wood read the bill proposed by the Medical Society of Georgia for the creation of a new National Board of Health by Congress, but could not favor it. Dr. Anderson read a paper on existing quarantine regulations for this State and

port, and declared himself in favor of the non-interference of the general government in the matter, but desired its support for local officers and laws.

Dr. Wood offered the following :

WHEREAS. The National Board of Health has conducted the initial sanitary work entrusted to it with wisdom, giving proper direction to future inquiries and energizing the national movement by its vigorous example,

Be it resolved, That the Medical Society of North Carolina deems it unsound in policy to interfere with the work in the hands of such eminently competent men, because it would be unreasonable to expect anything approaching a perfect na-tional system of sanitation in the short time the National Board of Health has been in existence; and to substitute a new law for the old now, even if it had equal merit with it, would be to retard the work of sanitary progress, if it did not imperil the very existence of any law. Resolved, 12d, That it is desirable to have a

national system of quarantine, if possible,
