Three of the South Carolina delegation, all Democrats, voted for Young, namely, Aiken, Richardson and Tillman. This is a rare instance of impartiality.

The death of Judge Church has He was their candidate and through him they hoped to counterbalance the claims of Mr. Tilden. The New York correspondent of the Philadelphia Ledger writes of the situation:

"There are Democrats who have no par ticular affection for Tammany Hall, who were beginning to think that after all Le was the "dark horse," there being no question that as he could unite the party in this State, its Electoral vote would be cast for him. It is true he was but little known outside of this State, but it was calculated that the enthusiasm which his name would evoke as the statesman who had at length restored the unity of the Democracy here, would speedily enlarge his reputation to national dimensions. His sudden death hence has created more or less confusion in the camp of the anti-Tilden Democracy. and they make no secret of the fact that it immensely multiplies, at an inopportune moment, the embarrassments of their posi-

Wilmington, N. C., May 19, 1880.

Robert P. Smith, Chilesburg, Va., writes, "As for Tutt's Pills I don't know how I could do without them. I have had The American Union.

Mr. Robert Morton, Superintendent of the American Union Telegraph Company, was here yesterday. He called on us and informed us that the wires of the new company would reach Wilmington some time during the month of June. He gave us a map showing the present extent of its lines and the actual and proposed con-

nections. The American Union claims that it has erected over 25,000 miles of new wire, leased the lines of the Dominion Telegraph Company of Canada, made an exclusive contract with the new French Atlantic Cable Company, and established connections with the lines of many important railroad companies, as shown on the map, giving in it all systems of lines in the United States and Canada of 50,000 miles of wire and 1,550 offices, and also cable communication with Europe.

As its lines have reached the various larger cities they have been opened for business at the prevailing rates, and even under these circumstances the Cresult has been most liberal and emphatic.

Mr. Morton states that the American Union has secured telephonic connection in nearly all the principal cities of the United States, and calls attention to the fact that a decision was rendered by Judge Thayer, in St. Louis, on the 17th, giving the American Union equal facilities in the telephone exchange of that city with any other telegraph company.

Magistrate's Court. Susan Mary Franks and Dorcas Franks. two colored damsels, were before Justice McQuigg, yesterday morning, on the charge of committing assault and battery. Defendants were ordered to be released on the payment of costs, in default of which they were committed to jail.

Lucy McKinsey was arraigned before Justice Millis on the charge of wilful trespass upon the property of Daniel Williams, both colored. Judgment was suspended on the payment of costs, from which decision defendant appealed to the Criminal Court, and was ordered to give bond in the sum of \$50 for her appearance.

Mary Giles was up before Justice Gardner on the charge of slandering Virginia Easterling. Defendant was ordered to give bond in the sum of \$50 for her appearance at the next term of the Criminal Court, in default of which she was committed to jail.

The Exchange to Close, but No Suspension of Business.

There was a meeting of the Produce Exchange vesterday at noon to take into consideration the propriety of closing the Exchange and suspending business to-day, the 104th anniversary of the Mecklenburg Declaration of Independence. After a pretty warm discussion it was finally decided to close the Exchange, but not to suspend business, which amounts to a distinction with a mighty little difference. In other words, the Exchange will be closed, but the members thereof may do as much business

Robbery of a Colored Preacher. The study of Rev. W. H. Banks, pastor of the Ebenezer (colored) Baptist church, was entered on Monday night last and robbed of about \$30 in money. Entrance was effected by the aid of a false key, and the bottom of the drawer in which the money was locked up was prized off. Some of the silver was found on the floor under the drawer. Suspicion rests upon a certain party, but no positive clew has been obtained

as to the identity of the robber. Census Enumerators. The number of census enumerators for this city is now complete, Mesers. Archie Alderman and James W. King having received their commissions from Supervisor Stanford yesterday; the former for the third division of the First Ward, and the latter for the Third Ward.

Mr. James Cowan has received his commission as enumerator for Cape Fear Township.

As stated in our last, the Wilmington

When the Convention met Samuel R. Chinnis, Esqr., was nominated for Chairman against Dr. W. G. Curtis. Mr. Chinnis was elected Chairman by a fair majority, which was effected by a good number of the McKoy men who voted for him on the presumption that the Delegates were to be afterwards slected by the Convention, and these very men who veted for him afterwards withdrew.

When Mr. George H. Bellamy moved that the choice of the Convention as between Maj. Stedman and McKoy should be ascertained, a great deal of neise and confusion ensued, four men talking at the same time, and in the midst of this Babel the motion

neise and confusion ensued, four men talking at the same time, and in the midst of this Babel the motion that the Chair appoint Delegates was put and the negative vote was not even taken.

In this way a snap judgment was taken very much to the disgust of those desiring fair play.

Dr. Curtis was then called on to calm the excitement, which was intense and disgraceful. He (Or. C.) moved that the Convention adjourn to meet at a future time and place (for reasons already given in the published accounts). Dr. Curtis' motion was put in a garbled manner, and the McKoy men dispairing of fair play withdrew.

Immediately on the withdrawal the undersigned were requested to make the count of both sides and counted fifty-seven men in the McKoy party, all

Card from a Majority of the Democratic Executive Committee.

WE, THE UNDERSIGNED MEMBERS OF the Democratic Executive Committee of Brunswick county, being four of the seven members of the committee, and all that were present, certify that we were present and participated in the deliberations of the Democratic Convention which met at McKeithen's store on Manday, the 17th inst. The sentiment of the Convention before and after the Bolt was overwhelmingly in favor of Major Charles M. Stedman, the Stedman candidate being elected chairman by a vote of over two to one. There was no excuse whatever for the Bolt, and the cause was simply that the McKoy men were in a hopeless minority. The Convention was a mass convention, regularly called upon two weeks' notice, as was done in Sampson and other counties.'
