Third-termism died almost as soon as it was born.

Now for Cincipnati. Who can name the man?

12,511 immigrants at New York make up the report for last week.

The silent soldier will remain silent probably. His next trip will be up Salt River.

The chief mourners at the burial of Third-termism are Conkling, Cameron and Logan.

The colored people of Wilmington are much disgusted at the defeat of their friend Grant.

Senators Kernan, Call and John-

Convention a little late that he might receive his usual allowance of cheers. Who killed Third-termism?

I, said Jim Blaine, I did it in pain, I killed Third-termism.

In the Kentucky primaries, last Saturday, Uncle Sammy J. Tilden carried things his own way. Henri Watterson feels more comfortable.

Grant's followers stuck to their chief to the end. Though outnumbered they remained firm and fixed. This will comfort the fallen chief. "Ye who have tears, prepare to shed them now."

It is interesting to know what the United States ship to Europe. The following constitute a part of the cargoes taken out by Saturday's

"The cargoes include 2,000 head of cattle, 2,500 sheep, 500 quarters fresh beef and 1,500 carcasses mutton. The Britannic takes 28,000 boxes of cheese, and the Bolivis, for Glasgow, 10,500 boxes. The Holland, for London, has 600 bales of domes-

Conkling was the first to congratulate the Convention on the nomination of Garfield. Only the other day the Chicago Tribune, Republican, wrote of Lord Roscoe:

"I thought how odd it must have seemed To see him nimbly run, When such a little man as Sprague

Pursued him with a gun.

I thought, as one by one I saw The dishes come and go, That he who dines on ducks to day To-morrow may eat crow."

The New York markets are thus summarized in a New York letter of the 5th inst. :

- We now learn that Mr. W. C. Elam, editor of the Richmond Whig, alluded to in our last as having been wounded in a duel with a son of ex-Gov. Smith, was a sergeant in Company C, Third N. C. Infantry. Our informant ought to know whereof he speaks.

Mayor's Court.

J. A. Montgomery was arrested yesterday morning, about 5 o'clock, by Officer Costin, charged with violating the ordinance of the city in relation to market carts. The case came up for a hearing before Mayor Fishblate at 10 o'clock, Mr. Jno. L. Holmes appearing for the defendant and Mr. F. H. Darby, the City Attorney, representing the city.

The testimony showed that defendant backed up his market cart against the sidewalk on Market street, between Front and Second, and persisted in selling vegetables in violation of said ordinance, which provides for the removal of the market carts from Market street to Front between Dock and Orange etc. This statement of facts was not controverted by the defendant, whereupon Mr. Montgomery was required to give bond in the sum of \$50 for his appear-

ance at the next term of the Criminal Court. This is understood to be a case intended to test the validity and constitutionality of the ordinance relative to the removal of the market carts.

Robbing a Swimming Party.

We learn that a party of young men were in swimming in the southern part of the city, a few days ago, and when they came out and went to dress one of them missed a gold watch which had been stolen from his vest-pocket while he was in the water, while another one was minus a gold collar button that had disappeared in the same manner. A colored boy had been seen lounging in the neighborhood of the clothing while the young men were swimming, but the idea did not occur to them that he was watching his opportunity to steal.

It was about one hundred and fifty feet wide, and in its course from the northwest twisted limbs of trees off and sent them flying through the air, and in some cases prostrated both trees and fences. A handsome new residence, just north of Piney Point, being in its course, was lifted bodily from its pillars and carried about four feet, where it was dropped. An out-house, situated about twenty or twentyfive feet from the dwelling, was carried about the same distance. Three of the rooms of the main house were nearly stripped of plastering, and the south room was considerably cracked, but the north room front) was but slightly injured. The house was also somewhat twisted by the shock, but strange to say, not a single glass was broken from the windows. Rev. Dr. Bernheim's dwelling, only about two hundred feet north of this house, suffered no damage further than

A Pleasing Incident and a Plattering

Compliment. In the London Court Journal for May 22nd we find the following pleasant incident, which will be of interest to our readers when it is known that the Lieutenant Colonel O'Connor so flatteringly alluded to is a brother of Mr. Daniel O'Connor, of this city:

At the last levee an incident occurred illustrating the extraordinary faculty possessed by so many of the royal family of remembering faces, and, at the same time, the goodness of heart of the Prince. A number of officers of the 23rd Royal Welsh Fusiliers attended the levee, and among them Lieutenant Colonel O'Connor, V. C. By some mistake he was announced as Lieutenant O'Connor. The Prince said-'No, no; that is wrong; it is my friend Colonel O'Connor," and shook him heartily by the hand, and addressing the Colonel, said-"I remember quite well when I was a boy seeing my mother decorate you with the Victoria Cross, after your return from the Crimea, for your gallant conduct at the battle of the Alma. I am glad to see you, and hope you are quite well." The inci-dent caused a considerable sensation among those who witnessed it, and it must have been extremely gratifying to the gallant Colonel to find that the Prince of Wales still remembered him and the occasion of

quarter of a century.

It will be a matter of some convenience to those who have but little time to spare to find their lists ready for them when they come in, when probably only a slight amendment will be necessary.
