Distillery Burned.

The Savannah (Ga.) News contains an account of the destruction by fire of the turpentine distillery of Mersrs. Wilder & Co., at Brunswick, Ga., on the 14th inst. Mr. Wilder is also a member of the firm of Wilder & Morton, distillers, of this city. He removed to Brunswick a few months ago, for the purpose of establishing a branch of the business there. The News

"Yesterday the citizens of the northern portion of the city were thrown into panic, almost, by the conflagration of Wilder & were present for the purpose of witnessing the manufacture of rosin, and it is likely that the workmen, through their courtesy and attentions to the visitors, failed to perceive in time that the liquid was about to overflow, and hence the catastrophe. The damage to the company and Mrs. Golden (who lost her two houses and their contents) is estimated at about \$20,000. No insurance. The Fire Company was on hand, but, as usual, found their efforts ineffectual from the difficulty of getting the heavy antiquated machine at a fire in time. and the trouble of keeping enough men on

the brakes to throw the water. "One of the operatives, a colored man named Albert Croomes, was severely injured by the flood of flames and smoke. which enveloped him before he could es-

cape. No other casualty is reported." A letter from Mr. Wilder, received here, gives the loss of the firm at about \$1,500. The damage to the distillery was slight, the loss being principally the turpentine de-

stroyed.

The whilom agent of the American Union Telegraph Company in this city puts but little faith in the current rumors of that company meeting the fate of its predecessors in being swall wed up by the Western Union. It is not likely, however, that the monopoly so long enjoyed by the latter will be broken up. The profits are too great to be quietly surrendered. To see what these are it is only necessary to refer to the published report of the Western Union for the quarter ending with the present month and which closes the fiscal year. This, it is stated, shows an increase of over \$1,600,000 gross, and \$1,000,000 net earnings over the previous year. The net profits of the year will, it is estimated, be about \$5,300,000, or 114 per cent. on the capital stock, after deducting fixed charges for interest and the sinking fund. Out of this, 8 per cent, in cash dividends will have been paid to the stockholders, and \$1,-543,000 invested in new property and held as a surplus fund. To understand the true inwardness of these figures, the public must bear in mind the fact that the capital stock of the company in question has been "watered," or doubled up without any actual corresponding outlay of money, about seven times the par value of the original shares. A net profit of 112 per cent. on the amount of the present stock is, therefore, equivalent to a yearly dividend of about 75 per cent. on the original invest-

There are some facts of physiological interest brought to light by the arrest of the two young colored men named Hill-mentioned elsewhere. They belong to a family of six persons, father and mother and four children. The parents are represented to be honest and industrious persons, against whom so far as known no charge has ever been brought, but the four children are notorious, and have all been in the clutches Rev. Garfield Gathering. What probably was intended to be grand rally of the Republicans, but which

turned out a rather tame and spiritless affair, was held at the Court House last night, the understanding being that the meeting was held to endorse the recent Presidential nominations at Chicago. A band of music was brought into regulation to aid in getting up sufficient enthusiasm to make the affair go off creditably, but the attempt was futile, despite the efforts of Geo. Price and other dark and bright lights of the party hereabouts. The Court House was not crowded, but little interest being manifested by the colored masses. Geo. Mabson addressed the meeting. His mention of the name of Daniel L. Russell provoked a weak cheer.

A Garfield and Arthur Club was organized, and the crowd adjourned to the Cus-. tom House about midnight to serenade Collector Canaday, who was telephoned for. While awaiting the Collector some of the crowd got to fighting, when the police came up and arrested two of the belligerents and carried them to the guard house, the greater part of the crowd following them. The Collector didn't appear.

PREJUDICE KILLS.—"Eleven years our daughter suffered on a bed of misery, under the care of several of the best (and some of the worst) physicians, who gave her disease various names, but no relief, and now she is restored to us in good health by as simple a remedy as Hop Bitters, that we had poohed at for two years before using it. A DOWN TOWN MERCHANT, having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and becoming convinced that Mrs. Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and acquainting his wife with what he had done, she rofused to have it administered to the child, as she was strongly in favor of Homeopathy. That night the child passed in suffering, and the parents without sleep. Returning home the day following, the father found the baby still werse, and while contemplating another sleepless night, the mother stepped from the room to attend to some demestic duties, and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and said nothing. That night all hands slept well, and the little fellow awoke in the morning bright and happy. The mother was delighted with the sudden and wonderful change, and although at first offended with the decaption practiced upon her, has continued to use the Syrup, and suffering crying babies and restless nights have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and overcome the prejudices of the mother. Sold by all Druggists. 25 cents a bottle. A DOWN TOWN MERCHANT, having passed
