VOL. XXVI.--NO. 87.

WILMINGTON, N. C., THURSDAY, JULY 1, 1880.

Gen. Hancock's letter of acceptance five dollars to manure each acre of pea is to be an elaborate production. The well informed correspondent of the Philadelphia Ledger referring to him 83Y8 :

"The General, it may be remarked here, s one of the most urbane and accessible of men, and it will be well for him if he does not permit these and other excellent qualities of head and heart to be taken advantage of by the crowds of New York politicians of all sorts that are now anxious to take him in hand. The unfortunate experiences of Gen. Harrison, and Gen. Taylor and Gen. Scott, under not dissimilar circumstances, are valuable admonitions, which, if he will heed now, will save him to deal of trouble of one kind and another hereafter.'

Mr. William C. Elam, editor of the Whig, is steadily improving, He has returned to Richmond from his home in Louisa. He wears a bandage on his lace.

- Roan Mountain Republican Mr. Jacob Wallace, of the firm of Wallace Bros., of Statesville, N. C., passed through this place last week with an enormous gray wolf he had caught in the western part of Yancey county.

- Raleigh Visitor: A book containing the records of the late war, which belonged to the State Library, got misplaced several years ago. And after several fruitless searches by the different Librarians, was found the other day and returned to the Library. — Col. Boylar has caught and caged the singing mousespoken of in this paper a few days ago.

He was immediately ordered to leave, when he protested and produced the law to read to the refractory man. He was violently seized, burled to the ground and beaten unmercifully. The United States authorities have taken the matter in band and will prosecute the offender.

- The Raleigh Visitor gets this off: We learn from Mr. M. Chapell, who resides near Kelvin Grove, in this county, that a whirlwind passed through that vicinity on last Wednesday, which was the most remarkable he ever heard or saw of. Mr. Chapell was a quarter of a mile of, and noticed that the whirlwind became stationary in his cotton field. He heard a loud report like thunder, and saw fire and smoke issuing from the top which was one hundred leet high. He says he went over to it, and for the space of four feet wide and fifty yards long the cotton was burned to a

- Edenton Clarion: George W Roberts, a painter by trade, came to this place in 1877, representing himself to be a Good Templar, a Mason, a member of the Baptist Church and a widower, having lost his wife a few months before at Tarboro, North Carolina. He took an active part in Eunday schools, concerts, etc., and rendered himself sufficiently popular to marry a respectable young woman. After his marriage he soon forgot his high professions and spent much of his time in drunkenness and idleness. Within the last few weeks it has been ascertained beyond a doubt that Roberts has a wife and two children near Franklin, Virginia.

- Raleigh Observer of Sunday: What the lawyers call a "long range" case will be tried before one of our magistrates to-morrow. In 1849 a man left an injured horse with a party now living in this city, and borrowed a sound beast, which he took off, promising to return it in a few days. The days lengthened into months and years, but neither horse nor man ever reappeared. A day or so since the owner of the horse carried off saw the long missing man in one of the hotels here, and though thirty-one years had passed since the occurrence, recognized him in an instant. A warrant was issued for him, and the case set for trial to-morrow. -A letter has been received by the Governor stating that a memorial window is to be placed in Westminster Abbey, London, in honor of Sir Walter Raleigh, whose name this city bears. The letter requests a contribution of \$35 on the part of this city, for the erection of the window.

A proposition to subscribe \$50,000 to the Virginia Midland Railroad is shortly to be submitted to the people of that county at the polls, and the matter will be thoroughly canvassed beforehand in every township of the county by competent speakers. — The ghost of slavery is ever present with the darkey. It is stated that the movements of Census-taker Goodson, of this township, have excited a genuine alarm among a certain portion of them in this place. We learn that a number of them held a meeting a few nights ago, in which it was set forth that Gen. Grant having been defeated, and the Democrats having already started a man around to get the names of all the darkeys with a view to putting them back into slavery, it was necessary that they take some steps for mutual protection. — Some farmers say that the acreage in cotton in this county is

greater this year than last by 75 per cent. - Mr. George Allen gives good reports of trucking around New Berne. It has nearly doubled the price of land. Mr. J. L. I do not speak now of their subscription in money to its support, but of the constant donations they make to it, which, like the drops of rain, serve to keep the mills going. Mrs. Elliot, who has from the beginning taken a warm and active interest in it, and who has "Good work, true work, and work that's

square" for its success, told me that, more than once, when she went out on her daily visits to assist in taking comforts and doing sewing for the institution, she had heard from the Superintendent that he had not bread enough to carry the children through the next day, and she had appealed personally in their behalf to the citizens of Oxford. and always been cheerfully responded to.

Severe Storm up the Road.

We learn that there was a terrible storm of wind, rain and hail at Charlotte on Tuesday afternoon. At Matthews' Station, on the Carolina Central road, as we learn from John Holloway, soute agent, the wind was terrific, but was not accompanied by any very great amount of rain or hail. The storm struck that place about 3 P. SEMI-CENTENNIAL STATEMENT.—It is fifty years since the business of Messrs. R. & T. Fair-panks & Co., scale manufacturers, was established, and in celebrating their semi centennial anniversary, they have the satisfaction of knowing that, on of a little business established in 1830 in Norther of a little basiness established in 1830 in Northern Vermont, there has grown up an industry which now reaches to all parts of the world. The scales bearing the Fairbanks' stamp are as well known today in Moscow, in Hong Kong, in Bombay, in London, as in the cities of our own country.

The principle established at the outset by the manufacturers of Fairbanks' Scales—that nothing but perfect scales, irrespective of their cost, should ever leave the factory—has been followed out to the present time, and the result has been that each year has seen an increasing demand for the Fairbanks' standard.

WINSLOW'S SOOTHING SYRUP relieves the child from pain, and cures dysentery and diarrhea. It softens the gums, reduces inflammation, cures wind colic, and carries the infant safely through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—knew her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists. 25 cents a bottle.
