PREAKS OF BLECTRICITY.

House Bedly Damaged and the Inmates Shocked.

During the severe thunder storm that passed over this city yesterday, shortly after the dinner hour, lightning struck and considerably damaged the dwelling house on Fifth, between Orange and Ann streets, occupied by Mr. A. D. Brown, Fortunately, Mr. Brown's family were at the Sound at the time. Mr. B. was in the bedroom on the second floor, being seated very near the fire-place, engaged in reading a copy of yesterday morning's STAR, when all of a sudden he felt a shock, while at the same moment a gloud of soot from the fire-place was precipitated into the room The house-keeper appeared, in considera ble agitation, and, as soon as she could speak-for at first she seemed partially dazed-inquired what was the matter. Mr. Brown replied by saying that his thought the house must be on fire, and asked her for the keys, saying he would go down the stairs and open the sitting room, with the view of ascertaining the condition of affairs. Upon opening the door he found the room full of smoke, which emitted a strong sulphurous smell, while over the same were evidences of the destruction caused by the stroke of lightning, which he now found to have been the origin of the disturbance he experienced in his bedroom. The electric fluid had come in coltwisted and cracked, had burned to a crisp the gilt cornice which ornamented the walls as large as a man's head, knocked the pictures down, and finally passed out of the room on the telephone wire, which was found badly melted in places. Mr. Brown attributes the safety of the building from destruction by fire to the presence of the telephone wire, which conducted the electric fluid from the room."

Had there been any one in the room at English and Shackelford Club, now num. I the time there is a strong probability that bering fifty members, will have a meeting | the shock would have proved fatal to them.

At the same time that such bavec was being played at Mr. Brown's residence the telephone at Messrs. Brown & Roddick's store was broken by the effects of the lighthing, and we understand that it played some right lively tricks in other places about town.

Mr. Brown's cook, who was in the build ing at the time it was struck by lightning. was also considerably shocked.

Very encouraging accounts come to u from Wayne, Sampson, and parts of Bladen and Duplin counties in regard to the corn and cotton crops. They were never finer at this particular season of the year, and if the weather continues as favorable as it has been so far the yield will be large. The farmers are in excellent spirits over the

A Supreme Court Decision. The Supreme Coust, in the case of the

State vs. Love Ann Moore, from New Hanover, decides that "a woman is guilty of assault with intent to commit rape when she aids and abets a man in such assault,' thus affirming the decision of the Court below. So we learn from the Raleigh Will Recover.

Dr. S. P. Wright, the attending physician, informed us yesterday afternoon that Robert Phinney and his daughter Hester Richardson, two of the victims of the murderous assault alluded to in the last two issues of the STAR, were much better, and that he now thinks they will both recover.

las! Poor Bruin. The up passenger train on the Carolina Central Railway, Monday night, ran over and killed a large black bear in the sevenmile swamp, about three miles this side of Council's. The engineer, Mr. D. M. Tedder, saw the animal as the engine and train passed over it, but was not certain that the stopped. He told parties at Council's of 1 10 o'clock A. M. his impression in the matter, however, and yesterday morning, on repairing to the enough, and one of very respectable size, the animal having been cut completely in Oldham, of this city, was submitted, and two by the train. Several bears have been seen along the road recently, and it is pre-

samed that this one became blinded and confused by the headlight. Alas I poor Bruin, He rushed blindly to ruin, And died without pain,

Being mashed by the train. The only case before this Court yesterday morning was that of a young colored man, who gave his name as John Robertson, and who was charged with being found asleep in a car at the W. & W. Railroad depot on Tuesday night, about 11 o'clock. In a statement to the Court he said he belonged in "old Virginny," but had been out to Florida and was making his way back home again. Being asked how he expected to get there, he said he had been riding, but at Florence his satchel, containing his clothing, money, ctc., had been stoles. He was given exactly one hour in which to get

standing that if he was found here after that time he would be sent to the Work

Dislocated his Shoulder. We regret to learn that Capt. J. T. Harper, of the government steamer Woodbury, met with quite a severe accident on Tuesday afternoon. The steamer was engaged in dredging in the neighborhood of the works at the mouth of the river, the sea being very rough at the time, when Capt Harper accidentally got a fall, which resulted in the dislocation of one of his shoul ders. At last accounts the bones had been put in place, but Capt. H. was still suffering a great deal of pain and soreness from

outside of the city limits, with the under-

the effects of the accident. Thermometer Record. The following will show the state of the thermometer, at the stations mentioned, at 4.31 yesterday evening, Washington mean time, as ascertained from the daily bulletin issued from the Signal Office in this city:
