Acklen, the notorious, is trying to force himself upon the Democracy. He has the character of being both a bully and a rake.

The Railroad business in 1879 was havy and profitable. The gross earnings were \$529,012,999. More miles of railroad were built than any year since 1873.

Eight sea lions escaped from the aquariam at Coney Island last Friday night. Their escape caused great consternation among the bathers. They cost \$600 each, and \$1,600 expenses to bring them to the Island they are about eight feet long.

John Sherman is preparing one o his awful financial and civil service speeches for the campaign. It will be nice to hear John eulogize Arthur whom he helped Hayes to kick out of the New York Custom House. It was civil service reform you know.

The New York Sun, in a notice of

liovernor Jarvis, has this to say: "He took an active part in procuring the impeachment and conviction of Governor libiden for his high-handed and unconstitutional acts. He is not a good public speaker, and in this respect he falls far behand Judge Fowle, his competitor for the numination. Without being brilliant, the Governor is stardy and trustworthy, and this is what the people want. During his term of office he has sternly refused to pardon criminals, a privilege which was much abused by his predecessors. He sent messages to the courts: 'If you don't want mes sanged, don't convict them.'
The consequence of this seeming severity is a great decrease in crime."

The Savannah News of the 26th inst. has a long editorial in reply to one that appeared in this paper months ago in regard to the army. It is so long ago that we have not interest enough in the matter just now to undertake a reply. There are some points in the News's reply to which we cannot subscribe. Our army is unnecessarily costly, and it is unnecessarily large. Such is our opinion. Such is the opinion, we have no doubt, of a large majority of

Spain will he called on to make amends for firing at American merchant vessels. It is certain that in one instance the vessel was more than the recognized three leagues from land, but was quite six leagues or more. The matter may become serious. The United States cannot affor l to allow Spain to overhaul or fire into its marine when it pleases that decaying Power to do so. This country has 50,000,000 of people. When it did not have 8,000,000 it went to war with Great Britain in 1812 because that great maritime Power insisted upon the right of searching American vessels to see if any British subjects were on board. A war followed. It cannot allow Spain to indulge its theories of fancied rights at the expense of our people or our vessels.

WILMINGTON, N. C., WEDNESDAY, JULY 28, 1880.

The Northern papers are "easing down" the defeat of the American riflemen. It was not the American team that won at Dollymount in Ireland that was beaten, but seven Americans, including two of the regular team, who went to Wimble-

don with Mr. Hyde to shoot against the English team. The Herald says: "An examination of the scoring shows that four of the Hyde team, including Mr. Hyde himself, shot so poorly that defeat was inevitable, even with much weaker shots opposed to them. Mr. Rockwell's poor score was to be expected, particularly ander the circumstances, but although Mr. Farrow's absence lost the team from forty o fifty points, there is nothing to show hat eyen with him they would have won,

The shooting was very much poorer than at Dollymount. The Americans beat the English at Creedmoor, and they can beat them again we sup-

The Democrats had a great meeting at Staunton, Va., on Monday. It is said to be the largest political gathering ever seen in the Valley of Virginia. Several hundred ladies were present. A special to the Richmond Dispatch says:

"Speeches were made by Gen. Hampton, Gov. Vance and Dr. Moffett, and from 12 until 3 o'clock the immense audience was held by the eloquent and stirring appeals. of the speakers.

'The speakers were received with the wildest cheers, waving of handkerchiefs, canes, &c. Constant roars of applause wrre kept up, except when the pathetic appeals of the Senators from the Carolinas to riginians not to force the hated Republican rule again upon the South brought a solemn hush upon the vast assembly and some tears to the eyes of Massey."

We learn from Mr. W. P. Canaday that Mr. T. N. Cooper, of Statesville, woman in Ohio who kept a secret is the chairman of the Republican fifty years. No doubt some enter- | Campaign Committee, and not Mr. brising showman "will propose" at Keogh, as published. The Proposed Monument to Capt Ellerbrook.

We stated some time since that the Young Men's Christian Association of St. Paul's Evangelical Lutheran church had taken steps towards raising a subscription for the purpose of erecting a suitable monument over the remains of the lamented Ellerbrook, who lost his life in the fire at the corner of Front and Dock streets, some months since. The committee appointed for that purpose, consisting of Messrs. F. E. Hashagen, Chairman, E. P. Bailey, Secretary, H. L. Vollers, G. W. Borneman, C. H. Stemmerman and C. Von Kampen will wait upon the business men of the city to solicit funds, to be added to the subscriptions already made by the fire department, with the view of securing the proposed monument and erecting it at an early day. Capt. Ellerbrook met his death while endeavoring to save property which was being consumed by the devouring flames, and such a recognition of his heroic services and devotion to duty as is proposed by our friends is but meet and

Killed by Lightning. Mrs. Mary Lumsden, the wife of Mr Henry Lumsden, a fisherman on Masonboro sound, about a half mile in the rear of Dr. W. W. Harriss' place, was struck by lightning and instantly killed yesterday afternoon, about half-past 5 o'clock. At the time she was in bed sick, and with her was an infant child, which, strange to say, was not burt, although the bed and room were considerably damaged. The lightning is supposed to have entered a window that was open, as the roof of the house was uninjured. As soon at the catastrophe was made known several gentlemen from one of the residences repaired to the scene, but all efforts to restore life were without avail. Deceased was about 25 years of age, and leaves five children.

The "Glorious Fourth" Celebrated in the Scandinavian Seas, and Uader Prestag Dimenities-Wilmington Represented.

It is known that Consul R. E. Helde and

daughters, of this city, are now on an ex tended tour of Europe. They, together with a number of their gentlemen and lady friends from Norway and Denmark, were among the passengers on the Royal Norwegian steamer Stavanger, Capt. Simonsen. on the 4th of July, during her voyage from Christiansand, Norway, to Frederikshavn, Denmark. She had her cabin decorated with American, Scandinavian and other flags, in honor of the occasion, and the day was duly colebrated by the passengers by speeches, toaste and the usual feast of good things, for the inner man, both wet and dry.

The passengers, having had a fine voyage

from Northern Norway, were on the 4th compelled to face the rough and apgrylooking Cattegat, one of the most boisterous and dangerous seas of that distant latitude, the weather being dark and lowering with falling barometer, high winds and heavy sea; the good ship proceeding under the control of her brave commander, who had never yet turned his back on danger; her decks washed by the angry waves with every roll of the strained and staggering vessel, and her funnels looking like pillars of salt-in the midst of all these difficulties and seeming dangers the passengers assembled around the well furnished board, and did full and ample justice to the tempting viands and the glorious occasion. The United States of America, the land of the free and the home of the brave," "The land of our adoption," "The spot we love," etc., were among the toasts drunk; and speeches in response were made by Hon. C. B. Mowinckel, of Bergen's High Court, representing Norway and Sweden; Rev. Wilhelm Holdt, representing the Church; Prof. H. O. Jensen, of Copenhagen, representing Denmark; Julius Kriegsmann, Esq., of Hamburg, representing Germany: Captain Simensen, at his post, and Consul Helde, of Wilmington, N. C., representing the United States in general and North Carolina in particular. It is hardly necessary to say that the occasion was such that it will be long remembered by all who were present.

The steamer, Consul Heide tells us, arrived safely at Frederickshavn on the morning of the 5th of July, upon which the brave and hospitable commander (Capt. Simonsen), received a vote of thanks from all the passengers, when they left his splendid ship and found themselves on the soil of Denmark.

The Verdict in the Drowning Case. The jury of inquest in the case of David Mallet, who was drowned near the foot of Market street on Saturday night last, while in bathing, and whose body was recovered late Monday afternoon, returned a verdict yesterday morning to the effect that deceased came to his death from accidental drowning. It seems that the mate of a schooner lying near by, and also a private watchman on the wharf, saw a man, (supposed to be deceased), strip off his clothing on one of Mr. Orrell's flats, and then jump into the river, turning a complete somersault as he did so, and the reasonable supposition therefore was that he came up under the flat, as he was never seen to rise after that first fatal leap. It was not likely that he contemplated suicide, as in such case he would not have been particular in taking off his clothing.

MRS. WINSLOW'S SOOTHING SYRUP.—Rev Splvanus Cobb thus writes in the "Boston Christian Freeman":—We would by no means recommend any lined of medicine which we did not know to be good—particularly for infants. But of Mrs. Winslow's roothing byrup we can speak from knowledge; as our own family it has proved a bleasing indeed; by giving an infant troubled with colic pains, quiet sleep, and its parents unbroken rest st night. Most parents can sppreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable. We have frequently heard mothers say they would not be without it from the birth of the child till it had finished with the teething slege, on any consideration whatever. Sold by all druggists, 25 cents a bottle.
