It is officially announced that Conk ling will "make the greatest effort of his life" in New York in September, and that he will then speak in Ohio, ndiana and Illinois. We invite him to have a joint canvass in North Carolina with Senator Vancy.

There is a deaf-mute Hancock and English club in New York that num bers forty members. They have interesting meetings when speeches are made in the silent language. I s thought the club will number one hundred members by September.

It was discovered the next morning (Sunday) that the assassin had cut himself a trail through the undergrowth to two large cypress trees, where he expected his victim to pass. Here he waited, and as the General's vehicle reached the point desired he About ten or a dozen shot struck the ribs of the buggy top.

After the shooting, the murderer, after wading 200 yards down the swamp, through the water, so as to conceal his tracks, went out upon the high land and made his escape. At the point where he came out of the water a small track, which was seemingly made by a number six gaiter or boot, was discovered.

No clue to the murderer has yet been found, although suspicion rests upon several parties. The murder was committed between sunset and dark. The whole country is alive with men, determined to ferret out and bring to justice the perpetrators of this cold-blooded and most damnable deed.

some more of his work. - Warren News: An old colored man, Cad Alston, was found dead in the road leading from Shocco to Shady Grove On Wednesday morning, under circumstances which lead to the belief that he was killed by the cart turning over and falling

upon him. - Warrenton Gazette: Granville, Hallfax, Northampton, Edgecombe, indeed, all the counties elected Democratic boards of commissioners last week. The people have learned by sad experience that it will not do to trust the Radicals with

their money. - Reidsville Times: We are informed that the late Ludwick Summers, in Guilford county, lived fifteen years without touching a drop of water. But he drank milk and cider. He was hale and hearty, worked hard in the field, and was over 70 when he died.

A terrific storm passed over Charlotte on Monday morning, accompanied with hall. The Press says: Out at the Junction they thought the flood had cer-tainly come. It had, but it held up so as not to necessitate the obtaining of an ark. But the transfer was made in water half a leg in depth, and it was funny to see Tom Sprinkle and his hands swimming over with the express safe and large valises, commonly called packing trunks.

- Reidsville Webster's Weekly: E. Butler, Esq., of this county, was so unfertunate as to burn a barn of tobacco, a few days ago, in an effort "to dry it out."

The corps of engineers under Col. Yates, who have been engaged in surveying the route of the Midland Railroad extension from Statesvills, N. C., to Danville, Va., have nearly finished this work. There is reason to believe that the assassination of Gen. Grimes is the result of a bitter feud growing out of the burning of his gin house some time back. — Mr. Collier Cobb, son of Rev. N. B. Cobb, and by the way a Wayne county boy, is in town with a map of North Carolina, of which we have heretofore found occasions to speak in very complimentary terms. The map should be in every school room throughout the State, and no business house ought to be without one. - We regret to learn that Mr. Randolph Uzzell, of New Hope tewnship, received painful injuries a few days ago at Seven Springs, in being tun over by a runaway horse and buggy in which was a gentleman, whose name we failed to learn, and a Miss Clute, of Sampson. THE GOLD SEEKERS ADMONISHED -The many thousand adventurous seekers after gold and silver in the far west, should meditate upon the fact that in the July drawing of the Louisiana State Lottery Mr. Jacob Rabiner. No. 599 Grand St., New York City, drew one half of the capital prise \$30,-000. Mr. Max Stern, also of New York city, drew a similar sum. Mesers. N. Israil, H. Oppenheim, and B. Rosenblum, of 91 Chrystie Street, New York City, drew one half of the second capital prime of \$10,000. Mrs. Rilga McGrain, also of New York City, (by Adams Express), drew one half of the third prize of \$5,000, and Mr. William Matthews, of Mt. WHO IS MRS. WINSLOW?—As this question is frequently asked, we will simply say that she is a lady who for upwards of thirty years has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup for children teething. It operates like magic—giving rest and health, and is moreover sure to regulate the bowels. In consequence of this article Mrs. Winslow is becoming world remowned as a benefactor of the race; children certainly do mass up and bless her; especially is this the case in this city.—Vast quantities of the Soothing Syrup are DALLY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No mother has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, methers—TEY IT NOW.—Ladies' Visitor, New York city. Sold by all Druggists. 25 cents a bottle.
