a short time the disbursing officer of

the Interior Department expects to

be able to increase the number to five

receive their pay were those in Washington, Philadelphia and New

York, the others being taken up in

turn as they were forwarded by the

Postmaster General Key totes a level head in one direction. He says correctly that Hancock's election will break up sectionalism. Well, Godspeed the day, say we. The South tried to do it in 1872, by accepting their life-long enemy, Horace Greeley, but the implacable swore it should not be. Eight years more of trial and misrepresentation have passed, and now the South rallies with a hurrah and heartiness that are quite puzzling to your Stalwart organgrinder around the hero of Gettysburg, and says in sincere and earnest lones, "Let us have peace."

We hear of a great many who have suffered damage to property through their instrumentality, and more especially those who have unoccupied buildings. In one of the latter, on Campbell street, we are told that as many as thirty-two glasses have been broken in the windows by this means. Even the churches do not escape, as we learn that quite a number of glasses in the windows of St.

While the question of water works is being agitated, would it not be well to consider the question of sewerage also? A Mr. Richardson is here now exhibiting specimens of carbonized stone pipe which is represented to be just the thing for sewerage. We learn that a considerable quantity of this pipe has been used by the Carolina Central Railroad Co., for culverts, &c., and that Capt. Johnson speaks very favorably of it. Mr. Richardson, we hear, is now negotiating with gentlemen here to start a manufactory. The pipe is made of sand and cement, and is hardened by a patented process.

In the death of Ole Bull, the famous vie linist, a brief telegraphic announcement of which was made in our last issue, the older ones of the present generation are most forcibly reminded that the links which bind them to the past are rapidly passing away. About thirty years ago the great violinist was in the zenith of his prime, and there are few now living, perhaps, who trod the stage at that day but that remember hearing and repeating such popular refrains as "Ole Bull and Dan'l Tucker Went down town to get some supper," etc.

Our correspondent "Zoe," at Rocky Point, Pender county, informs us that Mr. John E. Wood, the enterprising telegraph manager at that place, has at his own expense erected a fine pole and thrown a Hancock and English flag to the breeze, and that it is his intention to present it to the Hancock and English Club at their next meeting. Our correspondent adds that there is great enthusiasm in that section for Hancock and the other Democratic candi-

The residence at Lillington, Pender county, the property of Mesars, J. Q. and J. F. Bell, occupied by Mr. W. T. Newell, formerly of this city, and known as the Satchwell house, was destroyed by fire yesterday morning, about 3 o'clock. The fire, it seems, originated in the stove-roomand when Mrs. Newell, who, with her little grand-child, aged about 3 years, was awaked by the crackling flames, she was almost suffocated with smoke, and the cook room, which adjoined the sleeping - Fall moon four minutes after 12 room, was falling in. As soon as she awoke she shouted the alarm, and the Mesers. Bell hurried to her assistance, and rescued her from the fast encroaching flames, which, in a few more short minutes, would have enveloped her. Having secured Mrs. N.'s safety it was then discovered that the little girl, a daughter of Mr. A. J. McIntire, had been left behind. whereupon Mr. J. Q. Bell, at the imminent peril of his own life, returned to the room, scorched by the flames through which he was compelled to pass, and succeeded in rescuing the child.

> So rapidly did the fire spread that Mr. and Mrs. Newell lost everything but what they had on their backs. The Messrs. Bell, who were in a less exposed part of the building, succeeded in saving their, chamber set, but all the rest of their furniture and personal effects were consumed.

There was no insurance on any of the property destroyed. The dwelling was valued at about \$1,500, while Mr. Newell's loss is estimated at about \$300. This gentleman was on a visit to this city at the time the fire occurred, and heard nothing of his loss and the parrow escape of his wife and grandehild until yesterday about 12 or 1 o'clock. WHO IS MRS. WINSLOW?—As this question is frequently asked, we will simply say that she is a lady who for upwards of thirty years has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physician, she has compounded a Soothing Syrup for children teething. It operates like magic—giving rest and health, and is moreover sure to regulate the bowels. In consequence of this article Mrs. Winslow is becoming world renewned as a benefactor of the race; children certainly do are up and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are dally sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No mother has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup. Try it, methers—TRY IT NOW.—Ladies' Visitor, New York city. Sold by all Druggists. 25 cents a bottle.
