When we fail to glean it is because we find nothing of general interest. The STAR has never been accused of neglecting any thing of importance that concerned any section of our State. W. C. Coup and his constellation of new

This is the third consecutive season that

Mr. Coup has paid Washington a visit, and

each season to an increase of business. We say the best show ever in Washington, and only repeat what the sterling press throughout their entire route have de-clared. W. C. Coup has gained a reputation from Maine to California as the most liberal caterer to the amusement-loving public in America. Liberal to a fault, untiring is his efforts to present something new, novel and startling, regardless of exited the continent of Europe in search of features never before presented to the public. Music, mirth, novelty, pleasure and instruction have been artistically combined in one grand combination. In the proclamation issued by Coup for the season of 1880 he boldly made the assertion that his new united show should eclipse all his previous gigantic amusement enterprises. No promise ever made to the public by this gentleman has ever been betrayed. His word is his bond," and the entertainment offered to our citizens this season has made the name of W. C. Coup more popular (1 possible) than ever, and is positive proof that a meritorious entertainment is always appreciated by a discriminating public Space will not permit us to make mention of all the novel features, museum, menagerie, aquarium and circus. The only baby sea lion ever born in captivity was also worth the price of admission. The wonderful \$100,000 bronche horses, the \$10,000 leaping horse Nettle, the gigantic devil fish (for which Coup has been offered \$50,000), beautiful ponies, educated dogs and a circus performance never before equaled. We have had Forepaugh, the London and Bernum, and do not hesitate to say that Coup has the most complete and artistically arranged entertainment which has ever visited our city, and it is an admitted fact that W. C. Coup is the leading showman of America. The New York hippodrome, Gilmore's garden, and the New York aquarium are emanations of his fertile brain, and have been the most successful amusement ventures ever attempted. Miss Katie Stokes is the most artistic and accomplished eques-- There was evidently no truth in trienne in America.
