

When insurrectionary force has been overthrown and peace established, and the civil authorities are ready and willing to perform their duties, the mili-tary power should cease to lead, and the civil admin-istration resume its natural and rightful dominion. - Hancock in 1867. -Hancock in 1867.

It shows | beginning with 1877, the expendithat South Carolina only increases one-third as fast as Pennsylvania, for Democratio rule aggregated \$459,instance, after all of the cry of fraud. 709,418 42. The difference is \$113,-The Times says: "The following table of the aggregate

vote of each of the States of South Carolina and Pennsylvania for President in 1876; the population they must have had at that time, allowing one-fifth of the population to be voters, and the census returns of 1880, throw a flood of light on the complaints made against the present census reports:

Census Presidential Population at of 1880. Vote 1876. 1-5 as Voters. Penneylvania, 4,222,707 767,556 3,787,789 South Carolina, 953,410 193,766 913,830 "It cannot be assumed that the vote of 1876 in South Carolina was manipulated by Southern leaders, as Governor Chamberlain and the Republicans registered, received, computed, certified and returned every vote cast in the State; and if the vote is correct, there must have been a population of 913,830 in South Carolina four years ago, or just about what the State census of 1875 made it. Pennsylvania, according to the same test, has increased 434,927 in four years on a population of 3,787,780, and South Carolina has increased 39,580 on a population of 913,830, or little more than one-third the relative increase exhibited in Pennsylvania.'

GROWING DISSATISFACTION. There is a growing idea in Engthat the House of Lords as nized at present is doomed. It lieved that the people, since they begun the agitation, will never e until there are such changes le that the Peers shall no longer ble to stop the wheels of reform o inflict great and gross injustice n the people at large. The Engpeople are conservative and they their country with the tenderof true patriots. But they love dealing and they love liberty too. a hundred years there has been a dy reform in the British Constion and laws. The people have relieved from year to year of y and grievous burdens. There more interesting study to the ent of constitutional history than reforms introduced in England luring the nineteenth century. The reforms will continue until burdens that are now borne will be lifted and

more liberty will be the inheritance of Englishmen. Mr. Gladstone has Migration of Popular Stories," by Sir been a great instrument in past reforms. The London Truth says of the House of Lords: "That the upper chamber will not long continue to exist in its present form can hardly be a matter of doubt; indeed, it has only existed up to now because there has never been a Democratic House of Commons. If the Irish Disturbance bill was thrown out because it remotely seemed to imperil the rights of landlords, is it likely that the drastic legislation in regard to land which is impending will meet with more favor ? With the exception, perhaps, of about twenty or thirty peers, the entire body is in antagonism with the political views entertained by the majority of Hagishmen.' profusely illustrated as usual. Price \$3 a Since the above was written the oable brings us news that may import much or little. Mr. Thomas Power O'Connor, Irish Home Ruler, has made his first movement against the British House of Lords. It may be laughed at now, but it may grow. When a half dozen abolitionists began their agitation in this country it was very contemptible, but it grew. We have seen the results. The movement of O'Connor may be the rift in the flute. Time slone will show. A demonstration is to be held Appeal. in Hyde Park, London, on Sunday. The London Times, which rarely takes sides with the people, censures the House of Lords for rejecting the Irish Registration bill. It seems to have been a mere wanton exercise of power, as the bill provided the same facilities for registration in Ireland

tures for the same purposes under 083,124 15. Republican statesmanship is estimated according to the ability "to get away" with the peo ple's money. Garfield is a success. 91.34 He beat the Democrats by more than

one hundred million dollars in four years. His statesmanship is brilliant, but unfortunately it is ruinous also.

Several of the Southern cities show an inorease of business in cotton. St. Louis exceeds the preceding year by forty-one per cent. New Orleans shows an increase of 311,714 bales or twenty-one per cent. Savannah shows a gain of 142,373 bales or twenty per cent. Memphis gained 15,000 bales, whilst Galveston lost 15,000 bales, Mobile 8,000, and Charleston 45,000.

Through P. Heinsberger we have received Herbert Spencer's "The Data of Ethics," it being the ninth number of the Humboldt Library of Popular Science, published by J. Fitzgerald & Co., 143 Fourth Avenue, New York. Price 15 cents.

Baltimore shows steady increase in its commercial statistics. During August the export of wheat aggregated 6,377,289 bushels, it being a large increase over August, 1879.

STATE OUNTEMPORABLES

The Democratic party, since it came into power, has done much for the material advancement of the colored race, with a very small expenditure of money. They have founded schools for the colored people over

the State, among them the Normal School at Fayetteville, to which many sludents from this section are going and being educated. They have established an Asylum for the colored unfortunate deaf, dumb and blind, so that they may be carell for just as the white people are. They have given the colored people opportunities to purchase lands on time and pay for them by the proceeds of their labor. - Carthage Index. John l'ool has become hungry and he hinks this a good time to abandon the party which lost its power in North Carolina to never regain it, eight years ago, and which will, next November, be utterly routed everywhere. Pool is a man who does nothing from principle. If he had been he would certainly have abandoned the miserable party to which he belonged after the disgraceful scenes of 1868-'69. But he not only cluog to it, but abandoned our people and was one of their chief persecutors. We have been relieved of Pool and his set for many years. The nuble Ransom now fills the seat Pool once dishonored, and

#### CBRSUS FRAUDS.

Of the 150 census supervisors only 38 are Democrats. The proportion of Republican and Democratic supervisors in the Southern States is as

follows: Dem. Rep. Dom. Rep. | N. Carolina.....3 Alabama... Arkansas . Florida... S. Carolina..... Tennessee.... Georgia ...... Kentacky..... Louisiana Mississippi. Total...

So if any frauds have been committed it will be seen that Mr. Hayes's own selections-his party friendsare more to blame than any one else. In only two States, as we stated before, North Carolina and Alabama, are the Democratic supervisors in the majority. In the former there will be no gain in the Representatives, whilst Alabama will lose one. Georgia, Kentucky, Mississippi, Missouri, Maryland, South Carolina, Tennessee, Texas and Virginia have a majority of Republican supervisors. In Arkansas, Louisiana and West Virginia the supervisors are divided equally between the two parties. So where do the opportunities for Democratic frauds come in? Secretary Schurz and Gen. Walker, both Republicans, have general control. In the Northern States nearly all of the supervisors are Republicans. there have been frauds who perpetrated thom? Were they not Re-But Gen. NEW YORK, September 3.-A special from St. Augustine, Fla., gives the following: There is very little doubt that the steamer City of Vera Cruz, of the Mexican hae, which sailed from New York on the 25th August, for Havena and Vera Cruz,

went down in the recent hurricane, which has already strewn our coast with wrecks. Only the faintest hopes remain that any of her passengers have survived. This terrible discovery was made here yesterday when portions of the mail carried by the ill-fated vessel were washed ashore some

envelopes bearing the post mark "New York, August 25." This at once indicated that the lost vessel was a mail steamer bound for southern ports, and the surmise was that it must have been the City of
