Will the papers be never done writing about Miss Neilson? If good Queen Victoria had died they could have said hardly as much about her as this queen of the stage.

General Eppa Hunton and Mr. A. M. Keiley, of Virginia, are confident that that State will cast its vote for Hancock. Let us hope so, but how is this to be brought about?

"A ticket that takes" is what a Radical paper said of a Radical ticket. Garfield will be reminded of that \$329, received from Oakes Ames and that other \$5,000 received from De Golyer and McClellan. Yes, it is a ticket that "takes."

Here is the latest summary of the New York market:

"Business is fair with the dry goods commission houses; the jobbers also are fairly lusy. Cotton goods are firmer. Pepperel line brown sheetings are advanced } of s cent Several grades Amoskeag tickings are also advanced 1 cent. Prints in fair demand; ginghams active and scarce: woollen goods sluggish, and foreign goods of all descriptions in moderate demand."

The Virginia Democratic State Central Committee is to meet on the 15th inst., when they will consider the whole situation. It is said to be an excellent body, and we hope they will be able to compromise matters so as to prevent Garfield from gobbling up Virginia's eleven votes. They may be needed.

We give the estimates of the census of 1880 as they appear in two leading Independent papers. The New York Herald gives it at 49,-302,144. The Philadelphia Times at 49,157,404. The Herald places North Carolina at 1,400,000; the Times at 1,410,138. The Territories are not included. So the total population will exceed 50,000,000. The entire returns are not in, but the probability is that the above estimates are not far out of the way.

John Ruskin, great as he is as writer, has some literary opinions that will cause school-masters and Grecians generally to turn up the whites of their eyes. For instance, he wrote in his copy of the greatest Greek orator's efforts-"Demosthenes's Orations" -"Old school trash; never read a line of it." He gives an opinion ex cathedra, but without condescending to read. In his copy of "Pliny" he wrote-"Poor stuff, not worth the paper it's printed on."

The Tarboro Southerner says that two white men are strongly suspected of being the assassins of Gen. Bryan Grimes. We quote :

"Mathews is a young man from Gran-ville county, keeping bar for Burt Para-more, in Newbern, and Parker resides near the locality where the desperate deed was committed. Both of these men are quite intimate with the Paramores, between whom and Gen. Grimes a bitter feud existed. Gen. Grimes' evidence, it is thought, would have involved Paramore in the areon of Gen. Grimes' mill. Our informant says Mathews wears a No. 5 or 6 shoe, which would correspond with the size of the track ound on the edge of the swamp. The parliculars of the evidence against these men we could not gather, but it is thought Parker piloted the way in the swamp, and Mathews shot Grimes as he was passing. Our informant thought that these parties were arrested, probably, as he was telling us, on Tuesday. We understand both New York and Baltimore detectives have been at work on the case."

Coming from the circus. about the same distance apart .-Going to the circus Thursday night,

though it was located on the rising grounds somewhere between Twelfth and Fourteenth and Princess and Chesnut streets, in the midst of what is known as "Slab Bottom," was comparatively an easy undertaking; but coming back, after having your eyes subjected to the glare of the lights over the ring, together with the changes wrought in the appearance of things by the removal of the other tents and appurtenances preparatory to an early start of the show after the performance, in the direction of the depot, it was a different thing. In fact nearly everybody became so bewildered after getting outside of the tent that they didn't know whether they were going towards the Sound or in the direction of home. One poor fellow found himself, after a long and fatiguing tramp, in the neighborhood of the Athletic Club grounds; two young men, who thought they knew a thing or two, and considered it strange that the bulk of the crowd didn't follow them. "run up and butted" in the vicinity of Bellevue Cemetery, whence they started on what they thought to be a "bee line" for Princess street, and brought up at the Wilmington Gardens. A gentleman of unexceptionable habits, who lives only about the distance of a block from Market street, between Seventh and Ninth, was told in the neighborhood of Mulberry and MacRae streets, in response to an inquiry, what direction it would be best for him to take in order to reach his home. But the best joke in this connection remains to be told. A young unmarried gentleman was plodding along in the midst of the darkness and jostling, bewildered conglomeration of human beings, when he suddenly felt himself seized by both arms. and found that he had been pressed into service by two lovely but unknown young ladies, evidently from the country, and soon ascertained from their conversation that it was a case of mistaken identity, they having lost or mislaid their original escort. The young man concluded he would hold his peace for a while to see what would meeting of the Duplin county Democratic | turn up, and after walking the distance of a block or two, during which the ladies had not discovered their mistake, the lost gallant put in an appearance and relieved him from his somewhat embarrassing but pleasant

A DOWN TOWN MERCHANT, having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and becoming conyinced that Mrs. Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and acquainting his wife with what he had done, she rofused to have it administered to the child, as she was strongly in favor of Homeopathy. That night the child passed in suffering, and the parents without sleep. Returning home the day following, the father found the baby still werse, and while centemplating another sleep-less night, the mother stepped from the roem to attend to some demestic duties, and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and said nothing. That night all hands sleep well, and the little fellow swoke in the morning bright and happy. The mother was delighted with the sudden and wonderful change, and although at first offended with the deception practiced upon her, has continued to use the Syrup, and suffering crying babies and restless nights have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and overcome the prejudices of the mother. Sold by all Bruggists. 25 cents a bottle.
