

PLATES OF SUBSCRIPTION IN ADVANCE: One year, (by mail postage paid) \$7 00...

MORNING EDITION.

Entered as the Second Class at Wilmington, N. C., as provided in Act of Congress, March 3, 1879.

OUTLINES.

Moro strikes threatened among the weavers. — The latest returns from Maine indicate a probable small majority for Plaited. — A fire occurred in the coal of the Anchor Line steamer Albatra...

When Hon. Lyman Trumbull, Democratic candidate for Governor of Illinois, was speaking at Du Quoin, he was interrupted by a colored man...

Six thousand immigrants arrived at New York last week. — New York imported to the amount of \$12,797,557 last week.

Bishop Doggett has suffered from a relapse, and his death may be expected. — Dr. Tanner is not a success. His lecture halls are as empty as he was at the end of the forty days.

Maud S. has beaten the time of every other horse. At Chicago on Saturday she made a mile in 2.10 1/2. — Gov. Vance spoke at Harrisonburg, Va., on Monday. The Richmond Dispatch's special says that a "powerful impression was created."

The notorious Acklen is a bolter and is running in the Third Louisiana District against the regular nominee. — A Portland, Maine, dispatch to the National Democratic Committee, says: "The dispatches of Blaine to Garfield caused much comment here by reason of their terseness and audacity. His agents were in every corner of the State, and every vote was bought that could be."

The report that Byfield, Democratic candidate for Congress, has withdrawn in favor of De La Matry, creates much consternation among the Republicans of Indiana, according to a special to the New York Herald. If a trade has been made it is thought it will affect the whole State and insure the triumph of the Democrats. But it is not certain yet that the trade has been consummated.

A large number of steamers left New York on Saturday heavily loaded. Among the shipments are 740 head cattle, 250 sheep, 3,480 quarters fresh beef, 500 carcasses sheep, and 800 bales dry goods. Among other things, the Britannia took 12,500 boxes cheese; the England, 58,000 bushels wheat; the Albatra, 32,000 bushels corn; the Otranto, 57,000 bushels grain; the Minorca, 32,000 bushels wheat; the Somerset, 36,000 bushels wheat; the Sarvia, 175 bbls. dried apples; the Main, 100 tons machinery.

In Indiana the Democratic plurality was 5,515 in 1876. In 1878 it was 13,736. The Philadelphia Times says this increase was brought about by the Greenbackers. It thinks the Republicans have the odds in their favor now. It gives many reasons for this opinion; among them are the heavy percentage of probable Independent votes; the prosperity of the people; the importation of colored voters to the amount of several thousand; the gerrymandering of the State by the Democrats; the thorough discipline of the party and so on. The news from Maine has made the Republicans the more watchful and determined. How these speculations will turn out will be seen hereafter. It says the Democrats will do their utmost.

THE MORNING STAR.

VOL. XXVI.--NO. 157. WILMINGTON, N. C., WEDNESDAY, SEPTEMBER 22, 1880. WHOLE NO. 4,089

The Republicans in New York are so much in love with Lord Roscoe Conkling's fusillade against the South they will circulate 250,000 copies. Like was said of the preacher's sermon, if truth had been his text and it had been suffering from small-pox his speech would never have caught the infection. The New York correspondent of the Philadelphia Ledger (Independent Republican) says: "Democratic criticism upon it makes the point that if, as the Senator says, no one would not a Democrat has liberty to speak or print his sentiments, or to vote as he wants to at the South, then the war, with its costly expenditure of blood and treasure, was a failure, and, therefore, if the Union has still to be restored, it would be better to hand over the task to some other party than the one that has made so bad a failure of it. These are almost the exact words of a distinguished Democratic Senator, in answer to an inquiry as to what he thought of the Conkling address, and they are worth quoting, therefore, as representing the average Democratic opinion of it. At the headquarters of the State Committee it is said that the Conkling will be 'effectually disposed of' by the eminent speakers who will address the public on that occasion—including, possibly, Speaker Randall, Senators Bayard and Kernan and ex-Gov. Seymour.

When Hon. Lyman Trumbull, Democratic candidate for Governor of Illinois, was speaking at Du Quoin, he was interrupted by a colored man who asked him if he thought that the Democratic candidates in 1864 for President and Governor ought to have been elected. The reply was no. Then came the following colloquy: "Then, sir," pursued the colored man, "will you tell me what the Democratic party has done since to make its candidates deserve election in 1880?" "A good many things," responded Trumbull. "Will you please name some of them?" persisted the polite son of Ham. "Well, among other things," said Trumbull, "the Democratic party in 1880 has nominated for President the man who saved the Union at Gettysburg, and for Governor of Illinois the man who wrote and reported to the Senate the Constitutional amendment that made you a citizen and voter!"

THE STATE CAMPAIGN. The Statesville Landmark praises Col. Kennan's speech at that place very highly. We are informed that Col. O. H. Dockery, Gen. Barringer and Maj. Marcus Erwin will speak at this place on the 5th of October.—Lincolnton Progress.

The returns from Mitchell will show that they did not knock Bob Vance had opposition. The people recognize the honest, good work he has done since he has been in Congress.—Asheville Citizen.

Col. R. F. Armfield is making a thorough canvass of the upper counties, and is doing good work for the party and the country, and will no doubt be elected by a very handsome majority.—Mooreville Gazette.

Col. R. A. Bynum, who was nominated for the Senate from Pitt county and E. J. Blount, Esq., nominated for the House have both declined, and another convention will have to be held to nominate candidates in their place.—Wilson Advance.

Barke county held a convention last Tuesday and nominated Col. S. McD. Tate for House of Representatives. — Dr. J. C. Newland, of Caldwell, and J. W. Gudger, of Mitchell, were nominated last Tuesday at Morganton for the Senate.—Hickory Press.

The political outlook in Montgomery county is reported encouraging. A good majority for Hancock and Jarvis is looked for. — Maj. W. J. Montgomery, our efficient Solicitor, expects to make several speeches in this county during the present campaign.—Monroe Express.

And Col. Winston will try it again for Congress against Gen. Seales. A wild colt never wanted fodder worse than he does office. Well, we shall set him down so heavy this time that head won't know his heels. Let the Colonel run. And Col. Keogh too. The two Colonels may trust to poll more votes after than the author of the "Pool's Errand" did. But they won't. It's all sorts of fun. Let both run, by all means.—Reidsville Times.

A correspondent writes: The political outlook in Yadkin is quite encouraging. The prospects are that we will elect an entire Democratic ticket, and that this county which has been heretofore Republican, will have a majority for Hancock and English. We have a Hancock, Jarvis and Armfield Club at Yadkinville, numbering eighty-four members, and some of these, I have been informed, were Republicans heretofore, but they are done with Republican misrule and corruption.—Winston Sentinel.

The north Iredell Democrats are taking a step in the right direction. We understand their flag will be raised at Olin, and that the rally will take place there. — The Democrats of Coddle Creek township have raised a pole and flag—the pole 131 feet high—and last Saturday night Messrs. T. S. Tucker and J. S. Adams, of this place, were at Mooreville by invitation, and addressed the

people. — We hear from the mountain counties just back of us that scores of Republicans will vote for Hancock. A well informed gentleman expresses the opinion that in one of the counties west of us Hancock will run 200 ahead of the ticket. —Statesville Landmark.

Gov. Jarvis and Gen. Leach speak at Morganton on Thursday, the 25th, and on the night of that day at Hickory. — It is announced that Major C. Dowd, candidate for Congress; D. A. Covington, Democratic elector; J. F. Payne, sub-elect for Union county, and Col. Chas. R. Jones, will speak at Heilig's Store, in Union county, on the 24th, and Dowd, Covington and Jones at Matthews', in this county, on the 25th. Maj. Dowd will also be at the meeting in Concord on the 21st. — A well-informed and reliable citizen of Clay county writes: "The Democrats are gaining ground in this section. I am of quite a number of Republicans who are going to vote for Hancock and Jarvis. All that the Democrats lack is organization and encouragement from the leaders of the party."—Charlotte Observer.

Spirits Turpentine. — Raleigh Visitor: Seven deaths in this city last week—four white and three colored. The circus is going to Concord, and the young ladies are picking cotton. The Sun thinks the circus was the cause. — Winston Sentinel: Salem Female Academy opened its session last Wednesday, with fairer prospects than for several years previous. — Wm. Kelough was found dead in Cabarrus. Supposed to have died from an epileptic fit, to which he was subject, says the Concord Sun.

Greensboro Patriot: There is a marked improvement in the state of buildings which our people are erecting now, both business and dwelling houses. — Hickory Press: The tobacco barn of Mr. Joseph Mize, near Clarkesbury Church, Iredell county, was destroyed by fire last week. — The Wilmington Star keeps a close eye on doings about Washington. — Newton Enterprise: Henry Williams, charged with the murder of Harrison Kinder, both colored men, was convicted in the Catawba Superior Court last week, and sentenced to be executed on Friday, October 23, 1880.

Wilson Advance: Rev. J. E. Carter, assisted by Rev. T. Vann, pastor of the Baptist church at Enfield, is carrying on a protracted meeting in the Baptist church at this place. — A few days ago the tin house of Henry Finch, colored, which is situated three or four miles from Stanhope, was burned, together with its contents. — Some of the secular papers make loud professions that the great object of their existence is to build up the material and moral interests of the country, and for a few dollars they will advertise and commend a circus or a frog-shop. "O consistency!"—Raleigh Christian Advocate. What about publishing patent medicines and "sich"?

Tarboro Southern: Tarboro, N. C., was a colored woman who was raised in a boy, does not recollect whether she wore male clothing; still dresses and acts like a man; does a man's work, and bears a man's name. She has an aversion to being with women or doing their kind of work, and says she would go to the penitentiary before she would wear a bonnet. She is a mother, but not at all motherly, and her child calls her papa.

Concord Sun: On the day of St. John's fair the residence of Richard Walker was entered by a ward of the nation, who filled his pockets with a watch, a flask of brandy, and \$40 in money. — The pastor of the Presbyterian church in this city has initiated a crusade against dancing, and several young men and ladies have been called upon to give a little private interview with the session. — Our farmers are making complaint now about the cotton. The rust, they say, is doing much damage, and they will get out half the crop on the first picking. — Asheboro Courier: We learn that the diphtheria is raging on some portions of Richard Creek, in this county, and in many instances proves fatal to young and old. — A painful accident occurred at Ley's Cove's mill, in Pleasant Grove Township, one day week before last. A little boy, about 6 years old, the son of Mr. Hodgins, the miller, was caught by the shafting of the turbine when and thrown around at the rate of 320 revolutions per minute, stripping his clothing entirely off, and cutting him in a most horrible manner.

Raleigh News and Observer: The cotton market opened with fair prices yesterday, and at the close of the day the prices. Middling cotton opened at 11, but at the close of business found a brisk sale at 11 1/2. Some sales were made at 11 3/8. The receipts were very heavy, amounting to 723 bales. The Governor yesterday received a letter from Major-General A. Hun Barry, Adjutant-General of Massachusetts, requesting permission for Company M, Eighth Regiment Massachusetts Volunteer Militia, to pass through North Carolina en route to and return from Atlanta, Ga., on or about October 18th. This company, with many other organizations from the North, goes to Atlanta to be present at the late and military reunion of the Gate City Guards. — Bishop Lyman has returned from his visitation in the west, and is looking well, despite his arduous labors. He will attend the general convention of the Episcopal Church, at New York, on October 6th. — The Rev. B. C. Many has made the following appointments on his staff: John L. Bridges, of Tarboro, Major and A. O. S.; E. R. Page, of New Bern, Captain and A. D. C.; Mr. John D. Crook, of Thomas, Major and the medal of the Raleigh Gun Club in the weekly match, breaking 19 out of 20 glass balls. — Rev. J. F. Heitman, of Chapel Hill, proposes to publish at an early day an educational journal. — The health of the city is good. No contagious diseases have been reported to the Superintendent of Health.

Charlotte Observer: Our little neighbor, Mooreville, is an enterprising town. Her people are according to last census she has 510—400 newspapers, and the Observer leads them all. — The Superior Court winds up the three weeks' term to-day. It has been the most satisfactory held in several years, especially on

account of the large number of old suits of which the docket was cleared. — A man in Concord advertises "an all leather woman's shoe." Tough. — Prof. J. R. Blake, of Davidson College, was in the city yesterday and reports that there are already at the college over one hundred students, and he has no doubt they will start off of the year with a larger number of names on the roll than they had all of last year. — The Air-Line is likely to have another feeder in a railroad from Greenville to Laurens, a meeting to promote the enterprise having recently been held in Greenville. — Miss MacCall repeated her readings at the Charlotte Institute for young ladies last night, quite charming her audience. She goes North shortly, and will probably not read elsewhere before taking her departure. — Robinson's circus goes up the Western North Carolina Railroad next week as far as Morganton. — For the 20th of May, 1875, Mr. W. W. Pegram chartered from the Charlotte, Columbia & Augusta Railroad, two trains for excursions. One was in his own name and the contract for the other was signed by Mr. Pegram & Co. The railroad company did not furnish the trains and Mr. Pegram brought suit in the Superior Court for damages resulting from the loss he sustained by the failure to get the trains. The case was reached day before yesterday and finished yesterday, when he obtained a verdict of \$775, being the damage awarded for the failure to furnish one of the trains.

Condition of Waters in and Around Wilmington. The following are analyses made at the Agricultural Experiment Station of waters from Wilmington, for the North Carolina Board of Health:

Table with columns: LOCALITY, Total Solids, Chlorine, Free Ammonia, Albuminoid Ammonia. Rows include Spring cor. Dock and Second St., Well cor. 8th and Market Sts., Driven pump, Chestnut and 8th, Wall, Market St., S. 8th and 9th, Same as above, S. 7th, 4th St., Smith's Creek, taken at Hilton, S. Smith's Creek, taken at Little Bridge.

The following notes will serve to give an interpretation of the analyses reported above: "Free ammonia not over 0.1 parts per million is of little moment. "Chlorine alone without albuminoid or free ammonia is not suspicious even when present to the extent of 9 or 10 grains per gallon. "Albuminoid ammonia over 0.10 parts per million is always suspicious, whether alone or accompanied by free ammonia. "Albuminoid ammonia over 0.10 parts per million with chlorine over 5 grains per gallon, is bad. "Free ammonia over 0.08 parts per million with chlorine over 6 grains per gallon, is suspicious. "Any waters containing the following combinations are very bad: "Albuminoid ammonia over 0.10 parts per million, plus free ammonia over 0.08 parts per million, plus chlorine over 6 grains per gallon. "Albuminoid ammonia over 0.10 parts per million, plus free ammonia over 0.08 parts per million, plus total solids over 25 grains per gallon. A. R. LEDOUX, Ph. D."

It will be seen by this standard that specimen No. 2 is bad, No. 6 is also bad, although lacking the requisite amount of chlorine. The specimens from Smith's Creek, taken at two stations, are suspicious, and this is worth careful investigation in view of this stream being possibly selected for our future water supply. An analysis made of the water of Greenfield mill pond, several years ago, gave total solids at 2.68. Prof. Kerr remarked at the time of publishing the above report, that "Greenfield mill pond water shows a very remarkable degree of purity, surpassing even Croton."

Other analyses of Smith's Creek water are in progress. THOS. F. WOOD, September 21, 1880.

The Demijohn and Honey Case. Peter Croom, the colored individual charged with trying to "honey-fuggle" a number of our citizens out of demijohns a few days since, and who succeeded by false representation in getting several, had a hearing before Justice Gardner yesterday morning in three cases, besides one for obtaining money under false pretence. When one of the cases was called, in which defendant was charged with stealing three demijohns, he interrupted the reading of the warrant by the ejaculation that there were only two of them, which didn't help his case as much as he seemed to have imagined. He afterwards explained that one of the three got broken, and so he didn't count that one. It was considered a singular notion on the part of Croom that he should confine his stock in trade to demijohns, and more singular still that they were all to be filled with honey. At the close of the investigation the accused was ordered to enter into a justified bond in the sum of \$100 for his appearance at the next term of the Criminal Court, in default of which he was committed to jail. Croom is said to have been sentenced to the County Work House for three years for stealing a magnolia plant from a lot in Oakdale Cemetery some three or four years ago, and that he made his escape after having served out but a very short portion of his sentence.

A Country Snake Visits the City and Creates a Sensation. Considerable excitement was created in the neighborhood of Fifth and Mulberry streets on Monday afternoon, by a colored woman from the country, who, while stopping at the residence of a gentleman, trying to dispose of some article of the product of her industry, suddenly experienced an unpleasant sensation, which caused her to give her skirts a shake, when out jumped a spotted snake, which commenced making its way off with all possible speed. The cries of the woman and of those who witnessed the novel incident brought others speedily to the spot, and a posse—come-and-take-us was soon organized and a vigorous pursuit of the saucy reptile entered upon, but without success, his snakeship—whose speed was accelerated by the rallying shouts of the pursuers—having made his escape into some of the adjoining lots. The snake is represented to have been a good sized one, but to what particular species it belonged, or how it came to hit upon such a queer hiding place, is unknown.

Change of Quarters. Charles King, colored, who was sentenced to close confinement in the city prison for thirty days for stoning the late Democratic procession, was transferred yesterday to the House of Correction, his term of imprisonment under the Mayor's sentence having about expired. He has about three months to serve in the last named institution.

Death of an Old Citizen of Bladen. We regret to hear of the death, near Elizabethtown, Bladen county, on Saturday last, of Mr. Macum Monroe, an aged and widely known citizen. Mr. Monroe, who was just 80 years old at the time of his death, which occurred on his birthday, was the father of Mr. John Monroe, of this city, who was summoned to his bedside, but arrived too late to receive his last farewell. Deceased followed the business of a surveyor, and was well known here as well as throughout Bladen and the adjoining counties, where he was held in high esteem.

Homeward Bound. A gentleman who has been summering in the mountains, and who arrived at Winston a few days since, homeward bound, states in a private letter received here Monday, that he found quite a number of Wilmingtonians there, and that it appeared quite home-like to be in the midst of so many of his friends and acquaintances, who, like himself, had been health and pleasure-seeking in that magnificent and hospitable region of the old North State for several months past. The most of the absent ones will probably put in their appearance within the week.

We are always pleased to recommend a good article. Dr. Bull's Cough Syrup never fails to cure a cough or cold in a short time. The doses are small and it is pleasant to the taste. Price 25 cents. †

Excitement on Front Street. Quite an excitement prevailed for a few minutes on Front street yesterday afternoon. Two bales of cotton occupied a place near the curbing of the pavement in front of Maj. T. H. McKoy's store, and by some means one of the bales became ignited, and people in the vicinity were astonished to see a sheet of flame suddenly bursting forth from it. The fire quickly communicated to the other bale, but by this time those nearest the scene had taken in the situation and by the prompt application of water and empty bags the fire was speedily smothered and effectually extinguished, the damage to the cotton being very slight.

Schooner Loretta Smith, Watte, hence, arrived at Boston on the 18th inst.

CITY ITEMS. We guarantee no better goods made than Blackwell's Durham Long Cut and Cigarettes.

WORTHLESS STUFF.—Not so fast my friend; if you could see the strong, healthy, blooming men, women and children that have been raised from the beds of sickness, suffering, and death, by the use of Hop Bitters, you would say "glorious and invaluable remedy." See other columns.—Philadelphia Press.

Beats the world—Blackwell's Durham Long Cut and Cigarettes.

From eminent Dr. C. C. Clark, Oswego, N. Y.: "I have made sufficient experiment of Codrington's Liquid Extract of Beef and Tonic Invigorant, and can say it is a most valuable preparation of the kind (and more) that I have ever used. To the sufferer from chronic diseases, it is invaluable, as it is both nourishing and strengthening." GRASS & FLETCHER, Agents, Wilmington.

CONCEALERS pronounce them very fine—Blackwell's Durham Long Cut and Cigarettes.

THE MILES' ALARM MONEY DRAWER is an article almost indispensable to merchants. Being capable of a variety of combinations, and simple in its construction, it recommends itself to merchants as an important part of their store fixtures. It is made of the finest materials, and is an ingenious arrangement like that of the Miles' Money Drawer is indeed a necessity. They are sold by Messrs. Fairbanks & Co., 311 Broadway, New York, and the hardware trade generally.—New York Express.

A YANKEE GIRL IS LUCKY.—In the secluded town of Gardner, Worcester county, Mass., a happy couple, Russell Whitney and wife, have enjoyed the pleasure of a well secured fortune, and she, with a slight surplus Mrs. Whitney says, "I am a very happy woman, and I am sure that the next fortunate party to invest in the Grand Monthly Distribution on Oct. 13th, at New Orleans, La., will be a very happy one."

A BENEFACTRESS.—Just open the door for her, and Mrs. Winslow will prove the American housewife's friend. Her "Baby's Friend" is so sure that we will teach our "Baby" to say, "I am a very happy child, and I am sure that the next fortunate party to invest in the Grand Monthly Distribution on Oct. 13th, at New Orleans, La., will be a very happy one."

THE HEALTHIEST, SWEETEST AND PUREST SMOKE Blackwell's Durham Long Cut and Cigarettes.
