Chairman Barnum has returned from Indiana. He brings good news. Indiana is certain for the Democrats and Ohio is not certain for the Republicans. Even the news from Vermont is somewhat encouraging. Ex-Governor Bedle, of New Jersey, says this State is sure to cast its vote for Hancock. There is great enthusiasm in that State.

When the Democrats hear Kurnel Kornegay Kunningly Konsidering the situation and pretending he is Greenbacker all over, be not deceived. It is the same old Radical, only he is covered with a greenback-skin. The voice may be the voice of Kornegay. but the hands are the hands of Canaday. We ere glad to learn from a very reliable gentleman that the Democrats in the upper portion of this Congressional District are more enthusiastic and earnest than we had hoped. There is so much apathy in this county and other sections we were apprehensive that it extended into the upper counties also. We are pleased to learn that the Democrats of Harnett are wide awake and have no doubt of 300 majority. On September 21, Mr. Shackelford addressed a large crowd at Lillington. An intelligent friend writes us, and our readers will be gratified to read it:

"Mr. Shackelford was met at the Cape Fear river, north of this place, and escorted to town by a large company on horses, under command of Maj. B. F. Shaw, and a reception given him at Rogers' Hotel by the most prominent Democrats of Harnett. Mr. Canaday had the opening speech, and Mr. Shackelford was introduced by Maj. W. E. Murchison and replied to by Mr. Canaday in a speech of an hour and a half, which gave the Democrats of Harnett full satisfaction. His comparison of Canaday and Kornegay to two old cats fighting and resulting in mutual friendship in making more Radical votes for Canaday, created great applause!" /

Strange to say a report comes from Washington that the Radical funds are becoming scarce. Manager Jewell has been extremely lavish, and now the pile is small. He lost \$100,000 in Maine alone. A Washington letter in the N. Y. Sun of 22d

"The Congressional Committee received very serious set-back in its work of collecting funds from the officeholders here when the news from Maine was received. Many clerks who had reluctantly come to the conclusion that the salvation of their places depended upon paying the levy, stubbornly refused to pay a dollar when the news of the Republican defeat was re- placed in the penitentiary. The scrub women, sweepers and porters have gone on short rations in order to meet the demands of the committee, but the total of their "contribution" was no large. The committee has industriously worked the Interior Department, in the absence of Carl Schurz, but many of the clerks have evaded payment, under one pretext or another, until his return."

In 1876 the vote for Governor of Colorado was 14,154 for the Radical candidate, and 13,316 for the Democratic - a Republican majority of 838. Since then Colorado has grown very much. It votes on October 5, and who will swear it will not go Demo-

Wayne Democrats will meet in convention on October 2.

Preparations for a grand Democratic mass and ratification meeting, to be held in Oxford on Wednesday, October 13th, are being perfected. A number of the most distinguished leaders of the party in the State have already accepted invitations and will certainly be present, including Gov. Jarvis, Hon. Duncan K. McRae, Hon. M. W. Robbins, Hon. Joseph J. Davis, Gen. W. R. Cox, Capt. Oct. Coke, and it is expected others will also accept. — Oxford Torchlight.

The meeting at Concord day before yesterday, at which Major Robbins, Major Dowd and Treasurer Worth spoke, was a very successful one. Major Robbins spoke nearly two hours, making a very powerful impression on his hearers. A gentleman eminently capable of distinguishing in such matters says it was the strongest political speech he ever heard, and some parts of it brought tears to the eyes of some of the farmers who heard him. The speeches of Major Dowd and Dr. Worth are also highly spoken of .- Charlotte

Messrs. Clement Manly and F. M. Simmons, of this city, addressed the good people of Jones county, at Trenton, on last Saturday, and also at Tuckahoe on Monday. Their speeches were elaborate and forcible, and from the earnest attention manifested no doubt did much good. -A large and enthusiastic meeting of our Hancock and Jarvis club was held last evening at their hall. After some preliminary business President Simmons, in a short but very happy speech, introduced Capt. Kitchin, member of Congress for this district, who favored the club and audience with an excellent speech of about an hour's duration.—New Bernian.

At the Johnston County Convention Mr. Stuart introduced resolutions which Capt. E. S. Abel contested, and casually inquired if Mr. S. wasn't a Buxtonite anyway! "Liar!" "smack !" It is related of a member of the Legislature from one of the eastern counties, in good old ante bellum times, that, upon being asked what were the principal productions of his immediate section, he replied, "Tar pitch and turpentine, and herrings in abundance." Substitute mullets for herrings, and the same remark will apply with some degree of appropriateness to this sec tion just about now. A friend who ha been down the river on a fishing expedition for several days past says Mr. W. E. Davis of this city, who has a fishery at Federa Point, caught at one haul, on Tuesday last about sixteen thousand mullets, which when saited down, would make in the neighborhood of eighty barrels. His sein was so loaded down with them that it burst or he would have taken even more than he did. He utilized every barrel that could be brought into requisition in which to salt his fish down, then filled a good sized skiff with them, and finally had to bury some for the lack of facilities in which to corn them properly to keep them from spoiling.

Lunatic at Large-Women and Children Frightened-His Capture and Confinement, etc.

For two or three weeks past people residing in the neighborhood of Castle Hayne Rock Hill and other localities northeast of this city, have been annoyed by a colored lunatic, who has been running at large in the woods thereabouts and frequently making raids upon their premises, to the terror of the women and ohildren. He is a small man, but he is said to be possessed of almost superhuman strength when his crazy fit is at its worst. Some one had something to say to him about his actions a few days ago, when he got very violent, and manifested his displeasure by actually pulling up young saplings by the roots and dashing them upon the ground. Finally, on Wednesday last, he was captured, tied and taken to the county poor house, being at the time in almost a complete state of nudity, where he was kept in close confinement until yesterday, when he was brought to this city in a cart, in charge of Mr. West, and with a straight jacket on him, for the purpose of undergoing the proper examination before being regularly committed as a lunatic.

The unfortunate man gives his name as Henry Brown, and says he used to work for Colonel H. B. Short, at Flemington. At this rate, in this season of the year, Gen. Jones says, it is impracticable to assemble the State Guard in force at King's Mountain. The proposed encampment

Companies that attend must go upon their own responsibility, and as individual organizations, it being out of the power of the State authorities, under existing circumstances, to afford them assistance. WHO IS MRS. WINSLOW?—As this question is frequently asked, we will simply say that she is a lady who for upwards of thirty years has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physicias, she has compounded a Soothing Syrup for children teething. It operates like magic—giving rest and health, and is moreover sure to regulate the bowels. In consequence of this article Mrs. Winslow is becoming world renowned as a benefactor of the race; children certainly de HER UP and blees her; especially is this the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No mother has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup.
