5,879 immigrants arrived at New York last week.

Charleston had an immense Democratic display on Monday night. Numerous speeches were made and great enthusiasm was aroused.

It is not the time for Democrats to be tooling over the Greenback nonsense. If Radicalism be right, then goit without hiding under a cloak of another color.

The Richmond Dispatch does not think that the Mahone party will elect more than two members to the House. How many Radicals will be elected it does not say.

The news from California continues to be encouraging. There is great enthusiasm and much confidence in Hancock's carrying the State. Mr. C. F. Rubell writes to Col. Forney that he thinks the majority will be

In 1876 Tilden's majority over Hayes in Virginia was 44,112. The point is can Garfield get as many votes as Hayes, and can Mahone draw off 40,000 Democrats from the regular ticket? The Virginia papers

Another Tourgee appears to have been mixed up with carpet bag corruption in North Carolina. It may yet appear that the "errand" was a rogue's rather than a tool's - Louisville Courier-Journal

Wrong Mr. C-J. It was the same Tourgee (Albion by name) who wrote the "Fool's Errand."

The best proof that there is a bargain between Grant and Garfield as to the succession in 1884 is seen in the for mer's great activity in behalf of 329 since the visit to Mentor, (Garfield's home) with old Simon Magus Cameron and Conkling.

The State Democratic Committee of South Carolina has issued a stirring address to the people. They expose the Greenback-Radical alliance, and show how to win the fight on November 2nd. We copy a brief paragraph that will apply to the Carolina also:

"The lines are drawn and the issue joined. Those who are not with us are against There is now neither 100m nor place for Indedendents or third parties of any kind. No matter under what flag they vote is against us if it is not with us. Consciously or unconsciously, they are working for our defeat."

The Philadelphia Ledger is Independent now, with great friendship for Grant. Its careful New York correspondent of the date of the 23d writes concerning Democratic prospects in that State :-

"The registration in this city closed to-day, and the total reaches the unprecedented figure of 216,895, an increase of 83,831 since 1876. It is estimated that the vote cast next Tuesday will be about 200,-000. Of this the Republicans claim 70,000, giving the Democrats 60,000 majority in the city. The Democrats estimate their majority in Kings county (which contains Brooklyn) at 20,000, and if this be conceded the Republicans must come from the intetior counties with more than 80,000 majority to carry the State.'

THE MORNING STA

VOL. XXVII,---NO, 30.

WILMINGTON, N. C., WEDNESDAY, OCTOBER 27, 1880.

Open and notorious frauds are now known to have been committed in Indiana. The Indianapolis correspondent of the Louisville Courier-

Journal says on the 22d: "In Delaware, Henry, Randolph, Wayne, Warren, Hamilton, Lake, Howard, Wabash, Steuben and Parke counties open and notorious frauds were committed. The ballot-boxes were stuffed and gangs of repeaters got in their dirty work at nearly every polling precinct. These facts were being discussed in the committee rooms this

Besides over a million of new money (U. S legal-tender Treasury Notes, mark that) was scattered over the State. The Indianians may take a notion to stop the fraud in November. If carried for Garfield they say it must be done by a fair, square and honest election. If not, then Gov. Williams may not issue certificates of election and the Congress of the United States will investigate the fraud. That is the talk. The same correspondent says Indiana will go for Hancock "if the poor classes are not bought again with new Treasury

Hon. S. F. Phillips, of Washington City, spoke at Raleigh on Monday night, for the party that feeds him. There was nothing special in his harangue, judging from the report in the News and Observer, save a foolish, fulsome eulogy of Grant and an absurd and wicked statement as to Garfield. Listen to this scalawag and renegade:

"He declared on his honor and from personal knowledge that there was no spot on General Garfield's personal character. He further asserted that there was not a North Carolina Corgressman who, if asked privately, would not say Garfield was an onest man. Any of them believed just what Garfield said about the charges made

It would be interesting to know how much of that poor stuff this office-holder of two administrations believed himself.

During the past six months every Northern port has fallen off in the export of grain, whilst every Southern port shows an increase. The shipments of grain via Southern ports have increased enormously. Another significant fact is disclosed by this statement. The export of breadstuffs for the month of September, 1880, is \$12,000,000 less than for to it. the corresponding month last year. But this will not be given to the publie from the Bureau of Statistics until after the election. The reason is

Senator Bayard - the pure and wise statesman of Delaware-in his speech on last Friday night in Baltimore, when asked "How goes the fight," answered, "It is well," and then added:

"In 1876; of the votes for Mr. Tilden, there were counted 184, not of the votes for Mr Hayes, but for him there were counted 185. Of these there were 8 for Louisiana, 4 for Florida, and 6 for South Carolina, but does any one suppose that these 18 votes will be cast for Garfield and Arthur. (Cries of 'No.') If these are cast for Hancock he is elected, and if elected he will take his seat. (Cheers.) California will poll 6 votes for Hancock, Nevada 8 Oregon 3, and in Maine he will receive either 3 or 7, although three will be suffi-

The Radicals gained eight members of the House from New York in 1878. This was caused by the Greenbackers. There were no less than twenty running in as many Districts. This year there are but eight. This will guarantee a gain of at least four Democrats with a good showing in other Districts.

The New York Herald, anti-Hancock, has a correspondent in Connecticut. He thinks the Republicans will carry the State, but not by more than 1,000 majority, and possibly by not more than 500. That is rather close for a man to base confidence upon. But Tnesday will tell

There is not a Greenbacker of any tense in the Third District who has the slightest hope of electing Kornegay. What then must be the result of voting for him? Clearly, and every supporter of Kornegay knows it, to elect Canaday, a Radical, fire-tried and triple-dyed.

A correspondent, "W. F. B.," at Monroe, writes us on the 25th in. as follows: "Buxton, A. G. Moore and Jim Morris, col., spoke here on the pany: 22d inst., to seventy-five negroes and a dozen white Radicals. Their speeches were simply incendiary appeals to the negroes. Mr. Jas. F. Payne replied and literally took the hide off of Buxton. We are aroused as never before. This county will give the State ticket 800 majority and Hancock 1,200."

Judge Fowle delivered one of his earnest, eloquent speeches at Washington recently. The Press says: This much loved son of old Beaufort paid his native town and county a visit on Friday last, and was met on the road by a goodly number of our citizens, headed by the Cornet Band, and escorted to his home amid the burning of tar barrels, firing of rockets, &c., to signify the esteem which the people of his native home have for a worthy son and honored

The accident was caused by Engineer Price, of the freight train, who left the station nearest the point where the collision occurred, flifteen minutes ahead of time. It is said to be the third accident caused by engineer Price within the past two weeks.—New Berne Nut Shell. (Latest account says six have died and others are not expected to live. -STAR.)

- Concord Sun: Gen. Barringer's son Paul recently renounced his allegiance to the Democratic party, and now we hear that he is "a foughtin' for pa" in good style. — Mr. Nat Johnston sent out to a farm, in the upper edge of this county, last week, to bring in a corn tree that was reared there. We learn that epizooty, the disease that played such havoc in Wilmington in 1872 or 1873, has made its appearance here again, though up to this time only a few horses have been attacked with the disease. The epidemic was first noticed in Brooklyn, New York, about two weeks ago, and has

Water Works-Reduction of Insur- | Local Dota. ance Bates, &c.

While the subject of introducing water works into our city is a matter of discussion, it may be well to give some facts bearing upon the subject, and particularly The "Independent" ticket is quite as to the reduction of insurance rates. With the object of being correctly informed on this subject, a gentleman residing in a Southern city that had no water works, but was discussing the matter, wrote to a busthe third (Mason) is for neither, or iness friend in New Orleans, requesting both, whichever you please .- Pitts- him to get the views of the insurance companies on this point. In response to his | the city. application to the insurance companies, he received the following reply from the office

> "An answer to your several inquiries may be compressed in few words. In my judg-ment, upon the establishment of complete works to furnish that city with a constant and abundant supply of water, with sufficient public hydrants, and with proper fire would be reduced from one-fourth to onethird of rates which may now be demanded. Without going into figures and into detail, I think that may be fairly stated as the experience of the past in fire insurance. "Your most obedient serv't,
> "Thomas A. Adams,

of the Crescent Mutual Insurance Com-

"President." This opinion was endorsed by the presi-

dents of various other insurance companies in New Orleans.

The board of water commissioners o Marquette, Michigan, in their first report say it is within the personal knowledge of the board "that a general reduction of from 25 to 33 per cent, has been made in the rates upon stores and stocks of merchandise, and in some cases the reduction has been 10 per cent., while in other places, where it was impossible to obtain insurance at any rate by reason of the great exposure to risk, it can now be had at reasonable rates. The board would cite among the iscidental advantages of having | longed in Onslow. an atundant supply of water, the green lawns and sprinkled streets by which the beauty and comfort of our village have been greatly enhanced."

The town of Hyde Park, adjoining Chi-000, for which the town has issued her bonds. Mr. Cady, president of the board of trustees, in remarking on the subject, says: "History has told this story is all cases: where water works have been introduced large advances in property have followed, and great reductions in the cost of insurance. He knew of manufacturing establishments which had paid, formerly, from seven to ten per cent. insurance, whose rates were now reduced to three-fourths of one per cent."

If we had the space at our command we could give many more instances, now in our possession, to show the advantages to be derived from the introduction of water works in our midst, and the material reduction which will necessarily ensue in the

Fifth Ward Democrats. The Democrats of the Fifth Ward assembled last night at the corner of Sixth and Castle streets to listen to the speakers who had been invited to address the meeting. Under the direction of the Fifth Ward Democratic Club a stand had been erected for the occasion, which was handsomely decorated with flags and banners, bon fires blazed in the vicinity, and the turnout of the staunch Democracy of the Ward exhibited a gratifying enthusiasm.

The meeting was called to order by F H. Darby, Esq., and stirring and effective speeches were delivered by Messrs. D. H. McLean, H. A. Bagg, Thos. W. Strange, J. I. Macks, F. H. Darby, Mayor Fishblate and Col. B. R. Moore.

Colonel B. R. Moore was called upon, but excused himself on the plea that he was expected to speak at the meeting in the Fifth Ward last night.

Mr. J. H. Currie spoke at considerable length and with much effectiveness, and was followed by Mr. J. I. Macks in a very handsome effort, in which he stated that if the people came up to the full measure of their opportunities on the 2d of November Hancock would be elected, and, if elected, he would take his seat.

The next speaker was Mr. R. H. McKoy, who handled Garfield and his party with gloves off. He also made a strong appeal in behalf of Mr. Shackelford, telling his hearers that they had been asking for a farmer and a "man of the people," and now they had one, and one, too, who was in every way worthy of their suffrages.

The next and last speaker was Major C. W. McClammy, who made a rousing speech, and one which had a telling effect upon the audience. It was a speech worthy of the occasion and of the man, and there is no doubt that its effect was for good upon those who were so fortunate as to hear it.

The entire effair was a grand success. and the occasion will long be remembered by those who were present.

The Meeting To-Night.

The Democratic Clubs of the different wards in the city are expected to turn out to-night to escort the speakers, Messre. J. W. Shackelford and D. H. McLean, from the Purcell House to the stand at the corper of Third and Dock streets. The Young Men's Haucock, Jaivis and Shackelford Club will also be in the procession. It is hoped that the clubs will rally in strong force on this occasion.
