NORTH CAROLINA RESCTION RE-TURNS.

Our friends in all parts of the State where the STAR circulates who can leach a Western Union Telegraph thee by 12 o'clock on the night of the election (Tuesday, November 2d) are requested to send to the nearest telegraph-operator all the election returns they can gather by that hour. These will be forwarded to the Westtern Union Telegraph office in this city free of expense to the sender.

Those who are too far from such telegraph office to comply with the above request will please mail the election returns to the nearest te legraph office by the first mail which leaves their respective post-offices after the close of the polls, directing their letters "Western Union Telegraph Operator at ----, North Carolina."

In making up the returns state when possible the gains or losses of the Democratic electoral ticket as compared with the vote for the Tilden electors in 1876.

Remember that if you fail to vote you give half a vote to Garfield, half a vote to Buxton, half a vote to

The chances are that the Democrats will gain at least four, perhaps six members of Congress in New York, and one in Connecticut.

There is not much betting on the election in New York, says the Clipper, the leading sporting paper of that city. The ruling bet is even

But let the people vote for Hancook.

And so they will.

The North American, of Philadelphia, a Republican paper, says there is but little doubt that Pennsylvania will go Radical, but adds that Hancock is very popular in that State and will get a larger vote than is supposed.

Miss Clara Louise Kellogg (the American singers, some musical critics to the contrary,) has had a great success in Vienna. She was called six times before the curtain. The papers praised her very

The Philadelphia Times says that there is "good reason to believe that New Jersey and even little Delaware are to be debauched next Tuesday by the work of imported rounders in official guise, of repeaters from Philadelphia and Baltimore and the downright purchase of votes.

At Bishop Doggett's funeral in Richmond. Rev. Dr. John E. Edwards, of the Methodist, Drs. Reid and Hoge, of the Presbyterian, and Dr. Minnigerode, of the Episcopal Churches, delivered addresses. We copy from the State:

"Dr Minnigerode dwelt upon the faith-tulness of the deceased, and said Dr. Doggett was especially what would be called s holy man. The loss to the Virginia Bible Society in the death of this good minister

would be deeply felt. "Dr. Hoge closed the addresses. John Milton had said on his death-bed: 'I am like a letter that has been fairly written, signed, and sealed, and now it has only to be sent on its destination.' Bo was the deceased. His letter had been fully written nd has gone to reach its destination."

VOL. XXVII.---NO. 34.

WILMINGTON, N. C., SUNDAY, OCTOBER 31, 1880.

It most manifest that the Radicals in New York are not trying really to find out the truth about the genuineness of the Morey letter. It is only an electioneering dodge. The Democrats have got evidence of an important kind, no doubt, if they could only get a chance to put it in. But Gen. Pryor told the truth when he accused them of manœnvering to keep the country from receiving the facts and the proper impression. The New York letter in the Philadelphia Ledger of the 28th, says:

"The Republican leaders at headquarers, I find, are by no means agreed as to the political wisdom of the proceedings against Truth in the matter of the forged Garfield Chinese letter. While there is entire unanimity on the point that the forger, whoever he is, should be in the penitentiary or State prison-and the sooner the betterthe shrewder heads thinks it would have been best in a party sense to let the thing pass into silent contempt. As it is, they say it has put Mr. Garfield as if in a position antagonistic to Chinese immigration."

As our readers know, Landers, the Democratic candidate for Governor in Indiana, was not popular. Porter's plurality is 6,953. But the Radical candidate for Lieutenant Governor, one Hanna, has but 4,777. This in fact is the average plurality of the Radical State ticket. Who, will swear that Hancock cannot overcome that average? If it were not for colonizing of negroes from Kentucky and Radical whites from Minnesota and other States known to be safe for Garfield, we should expect certainly good returns from

It is suggested, as old registration books will be used on Tuesday, upon which will appear the names of many voters who are either dead or have moved away, that a list of such be promptly handed in to-mor row in, order to prevent others from assuming their names and voting in their places, which has been done in previous elections. It will not require much effort to prevent it, as gentlemen who formerly employed them, or who owned buildings occupied by them, or in whose family they were once servants, can easily furnish the information and evidence necessary, and our physicians could easily furnish the names of their deceased patients. This is a matter in which all of our citizens are

The Board of Aldermen met in called session yesterday afternoon, at 4 o'clock; present, His Honor Mayor S. H. Fishblate, and Aldermen C. D. Myers, John F. Divine, L. H. Bowden, H. VonGlahn, H.

Vollers, F. W. Foster, and J. A. Lowrey. The Mayor stated that he had called the meeting for the purpose of receiving the report of the Committee on Water Works, appointed at the last meeting.

The Committee made the following re-

The Honorable, the Boards of Aldermen and Audit and Finance: GENTLEMEN: - Your Committee, appoint

ed to examine the respective merits of bids for furnishing the city with water for public and private consumption, report favorably, as between the two submitted, on the proposition of Messrs. J. A. Cloud & Co. The following will justify the decision J. A. Cloud & Co. give nine more hose

connections on the original line of works than Mr. Wilkins. Less money is to be paid for the same to Messrs. Cloud & Co. by \$630 annually, which sum is sufficient to secure (10) ten additional hydrants. Mr. Wilkins' proposition would compel

the city to erect on all his extensions ten hydrants per mile, whether the city desired to increase its water facilities or no. The right to purchase in Cloud & Co.'s proposition insures every (10) ten years valuation io be made by disinterested experts. In Wilkins' proposition every fifteen years, in the same manner, with a

proviso that 10 per cent. shall be added to assessed valuation. If you should award the contract to Messrs. J. A. Cloud & Co. there are certain conditions which we think should be inserted, not referred to in the proposal, and one referring to the coupons of water works, eliminated. We suggest, in order to obviate any mis-

understanding between the two boards, that a committee of two be appointed to confer with the contracting parties and draft the contract. Very respectfully,

NORWOOD GILES. D. G. WORTH, RICHARD J. JONES. S. H. FISHBLATE, JOHN F. DIVINE, F. W. FOSTER

On motion of Alderman Myers the report was received, and a committee consisting of His Honor, Mayor S. H. Fishblate, and Norwood Giles, Esq., were appointed to have a contract drawn up, and the same, together with the bids of Messrs. Cloud & Co., and Mr. Wilkins, printed in pamphlet form for distribution, and all, when completed, referred back to the Board for final action.

The Board then adjourned.
