in all probability. Our Independent and Radical exchanges claim this, and the Baltimore Fun, Democratic, gives the Radicals 3 majority. The Press, Radical organ, claims it by 12 majority over the Democrats and 7 majority in all. The Baltimore American, Radical, claims 21 Radical majority over the Democrats, and 19 over all. The Philadelphia Times, Ind., says the Radicals will have 5 majority according to the latest returns it had received. On the other hand the Washington Post, Dem., claims the House by 5 majority. Democratic majority over all ..... All this shows how the papers differ, no two agreeing. We believe that the Radicals have the House by a majority, but how much we are unable to determine as yet.

llere is a nut for the Yankees to digest. The Danville (Va.) News gives this:

"Reuben Mabes, a very aged citizin of Irisburg, died a few days ago in that neighborhood. He bequeathed all his property, including a small tract of land, to a colored man who had been his faithful servant for several years.'

We have no doubt that "faithful servant" voted against the interests of his best friend and benefactor ever since he became an elector.

The probability now is that 19 States voted for Hancock and 19 for Garfield.

Hancock received a majority of the entire popular vote, ranging somewhere between 10,000 and 100,000. Hancock has at least 800,000 white majority of the votes cast on Tuesday. Garfield's majority in the electoral college is 57. He is a minority President like Lincoln and Hayes.

Both gentlemen were also painfully injured about the face by the burning powder.

- Winston Leader : A young man saw an advertisement of the Chicago Miniature Prano Company, where for a dollar he could have a new instrument on which any one could play at sight. He sent his money and received not a plano, but the instructions how to make one. "Take a flour barrel-any old one will do -put as many cats into it as it will hold. - Raleigh News and Observer: Near Rockingham, on the Carolina Central Railroad, Wednesday morning, one freight train ran into the rear of another, causing considerable damage but injury to no one. It appears that the trains were running in sections, that is, on the same schedule, and that the first was compelled to stop to replace a broken coupling, and before it was started again, the other ran into it. The engine of the rear train, which, by the way was the K M Miller was considera-bly damaged, the tender having been thrown from the track down a steep em-

bankment.

- Pittsboro Record: The people of Chatham have cause to be proud of their Legislators-Merritt, Manning and Hanner -and we doubt if any other county is the State can equal them. Our people are also fortunate in being such clever and cometent county officers as Bremer, Exline. Strowd and Clegg. - The overwhelm-ing majority given in this county against the Constitutional Amendment in regard to the deal mutes, the blind and the insane of the State, is an endorsement of the position taken upon this question by the Record that is very gratifying to us. We ste gratified that the people of Chatham should have so endorsed our view of this question, and that they should have done so without re-

gard to party politics. - Weldon News: Our townsman, H. B. It is urged by the friends of the measure that with water pipes covering the area embraced in the proposition now before the Board of Aldermen one and probably two of the steam fire engines now in use could be dispensed with, and that as there is no limit placed upon the distance to which the city may carry the water in hose from the nearest fire-hydrant, buildings in the most remote

quarters of the city could be reached with ease where it is now almost impossible for fire engines to be of service on account of the lack of water.

The sum now appropriated by the city for the use of the Fire Department is \$8,000 per annum: the price asked for fire-hydrant rental by the water works company is \$5.250. Our readers can make their own calculations.
