

RALPH REDTHORNE. Oh, sweet Blue Eyes, by heaven's name I love you beauty well; You've knotted in my heart a flame That might not ever quell.

For each to your limp'd dears - I joy enough for me; For there a soul that never sleeps So plainly I can see.

I've seen the fairest diadems, A flood of light out-letting, But never yet pair of gems So beautiful a setting.

While dazzling by your splendor all, Give but one ray to me; And when your fringed curtains fall, I'll dream sweet dreams of thee.

TWINKLINGS.

— He who seeks a nomination for office and finds it not like unto him who attempts to sit on a chair that has been suddenly jerked away. —Hacksack's Republic.

— The papers make a great prospect about a number of people who are expected to be in a good accident. Wouldn't they have been in the same had there been no accident? —Boston Transcript.

— The sale of "gold" bricks, made of brass, is brisk in the West. The dealer is pure gold, and from that is clipped the sample to be assayed.

— The Elmira Free Press tells this week: "Will you oblige me with a light?" "I am a gentleman," said the other, "and, indignantly, 'do you take me for a night-rocker?'"

— The total aggregate of the debts of the States of the Union at the present time, as given by the Bureau of Statistics, is \$250,722,031, and the total as a sed value of real and personal property is stated to be \$1,344,585,768.

— Any good shooting on your farm? "I've asked the hunter of the farmer," "I've asked," replied the agriculturist, "to drive a well-made down in the meadow, a clubbed deer at the side of a candidate on the cart, and two traps down in the stock-yard. (Climb over the fence, young man, load the traps, and sail in)." —Hawkeye.

PERSONAL.

— Thomas Hughes says that the origin of his "Tom Brown" was Dean Sage.

— E. King Amadens is now on a tour in England buying up horses for the royal stables of Italy.

— The Doomsday Book of Ireland credits Mr. Charles Stewart Parnell with 4,992 acres, valued at \$1,480 a year.

— M. Dumais is described as a tall and vigorous man, with blue eyes, a clear complexion, and silvered hair and mustache.

— Adirondack Murray's first lecture in Boston will be given November 8, upon "Free Trade and the National Policy of the Future."

— Col. Nicholas Smith, who married Miss Ida Geisley, has a son named George. He is being christened the Smith name. He has a daughter named Nichola Smith.

— George Munroe, a publisher of New York, has endowed a chair of history, political economy and rhetoric at Dalhousie College, Halifax, N. S., the incumbent of which will be Rev. John Forrest.

SOUTHERN ITEMS.

— Fifteen new school houses have been completed in Montague county, Tex., within the last six months.

— An elegant new steamer is being built to run on the line between New York, Fort Royal, Fernandina and Jacksonville, Fla.

— The Commissioner of Immigration of Florida thinks that 18,000 people immigrated to that State within two years.

— Some English capitalists own 500,000 acres of land in Alabama on the line of the Alabama Great Southern Railroad, which are very rich in timber and minerals and which they intend developing. The present chief attention will be given to developing the mineral resources of these lands, which are almost boundless, but the farming interests will not be neglected.

— Justice Smith said, on opening his court at Connorsville, Tenn.: "William Henry Smith is arraigned for assaulting his father." The magistrate, on the previous day, knocked his father down with a club, and it was himself that he was now arraigning. He continued: "The evidence is conclusive, and I am not sure but I ought to send myself to jail for ten days. But as this is my first offence, and I certainly had a good deal of provocation, I will simply impose a fine of ten dollars."

DRAMATIC NOTES.

— Mr. Tom Keene, the new tragic star, is said to be backed financially by Cole, the rich circus manager. The manner in which he has been advertised in the West seems to give a color of probability to the story.

— Miss Eva Sothorn, the only daughter of the well known actor, has been offered an excellent theatrical engagement, but as she is a ward of the Court of Chancery, it will be necessary to make application to the Court before she can accept the engagement.

— Clara Louisa Kellogg succeeded so well in Vienna that she has secured a four months' engagement at St. Petersburg. To pass the critical ordeal of the "fourth gallery" in Vienna is a feat any artist may well be proud of, and we congratulate our greatest American singer upon her success in passing the severest test of the most critical capital in Europe. —Richmond State.
