Gen. W. R. Cox as elected in the Third District by 1,313 majority. Latham's majority in the First District is over 500, but the exact vote has not been received. Col. The Democratic party had gone to a place he could not believe in -Bob Inger-

flow parties will stand in the next House is not known precisely. The Republican papers claim it by varying but sufficient majorities for party needs. The Washington Post, however, of last Saturday, gave the Radicals 146, Democrats 145, Greenbackers 3. The Greenbackers are Republicans. This will give the latter two more than a controlling majority. There are 293 members in all. The Senate will be Democratic in all probability.

There are dark hints among certain papers in New York that Hancock is elected and not Garfield. The Republican papers intimate very pointedly that unless New York is counted for Garfield by Congress there will be fight and no mistake. Whilst we have no doubt that the Radicals spent millions and polled thousands of fraudulent votes in New York alone, we have no idea there will be any trouble. The country submitted to the great steal of 1876, when it had first rate cause for a grand fight, and there will be hardly a small scrimmage now.

According to the New York Times Garfield will have a popular majority of 76,287. Some of our Democratic exchanges North of us have been claiming over 100,000. In New York Grace is elected Mayor by not more than 1,900, and the feeling against

Abstract of Proceedings of Adjourned Meeting.

The Board of Aldermen met, pursuant to adjournment, yesterday afternoon, at the City Hall, for the purpose of acting upon the report of the Committee on Water Works.

The Cape Fear Steam Fire Engine Company, No. 8, manned by colored firemen, celebrated their anniversary yesterday by a parade on the public streets, headed by a band of music. RIVER AND MAKINE.

- A flat loaded with colton, which was in tow of the steamer D. Murchison, ran on a snag near Kelley's Cove, about fifty miles up the Cape Fear river, on Sunday afternoon last, and sunk. The steamer A. P. Hurt, which arrived here on Sunday, left that night about 12 o'clock to render assistance in recovering the cotton, and the steamer Wass, which arrived here yesterday morning, at 4 o'clock, left with the same purpose in view early in the forenoon. The steamer was bound for this city, and the flat had on it about 300 bales of cotton, the damage to which will probably not be material.

WHO IS MRS. WINSLOW ?—As this question is frequently asked, we will simply say that she is a sady who for upwards of thirty years has untiringly levoted her time and talents as a Female Physician lady who for upwards of thirty years has untiringly devoted her time and talents as a Female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge obtained in a lifetime spent as nurse and physicias, she has compounded a Soothing Syrup for children teething. It operates like magic—giving rest and health, and is moreover sure to regulate the bowels. In consequence of this article Mrs. Winslow is becoming world renowned as a benefactor of the race; children certainly do mass up and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed.
