FOREIGN INTELLIGENCE

KURDS RAIDING PERSIA—THE HANLAN-LAYCOCK RACE—BRITISH REINFORCEMENTS FOR IRELAND—A DISTURBANCE AT NEW PALLAS—BRITISH SAILED—VESSELS DESTROYED ON THE VOLGA BY DRIFTING ICE, &c.

TEHRAN, November 30.—A report has been received here that Sadik, son of Shik Abdallah, with several thousand Kurds, advanced close to Urmiah and captured two guns. The Persian commander left Urmiah to engage him in battle.

LONDON, November 30.—At a meeting held at the office of the Admiralty, the report of the committee on the proposed sculling match between Laycock and Hanlan, over the Thames championship course, to take place in January 1881, at 2.30 o'clock P. M., for £250 a side, the sportsman challenge cup and the championship.

Two hundred of the Chatham division of marines, who were recently ordered to Ireland but whose departure was postponed, will start this week.

The Admiralty has received a telegram confirming the report of the murder of the commander and six of the crew of Her Majesty's schooner "Sandfly" in the Solomon Islands in the South Pacific. The party were attacked while some of them were bathing. A party from the schooner, under a sub-lieutenant, landed, recovered the bodies and destroyed the village, losing one seaman killed and one wounded. The commodore on the South Pacific station will dispatch another man-of-war to the island.

A large force of police accompanied by infantry and artillery, proceeded to New Pallas at 7 o'clock this morning to quell a disturbance.

The Times says the appointment of Mr. Shaw Lefevre, secretary of the Admiralty, to succeed the Rt. Hon. Wm. P. Adams as First Commissioner of Works, is important. His views in regard to Irish land are well known. He has made himself the special champion of the clauses of the Land Act of 1870 intended to facilitate the purchase of holdings by occupiers. In conducting Irish measures especially he will doubtless prove an able lieutenant to Mr. Gladstone and Mr. Chamberlain.

LONDON, November 30.—In an interview between the Paris correspondent of the Times and M. Delesserts, the latter said: "I have greater confidence in the Panama canal than I had in the Suez canal. The Atlantic and Pacific breezes will make it the healthiest route in the world. There are already excavators made which will excavate three hundred cubic metres an hour. Everything necessary is ready to start the work; the operation of England alone will make the canal a fact."

The Duke of Parma and Modena, brother-in-law of Don Carlos, has complied with the order to quit Spain.

CONGRESSIONAL COMMITTEES—THE YORKTOWN CENTENNIAL—REPORT OF THE CENSUS BUREAU.

WASHINGTON, November 30.—The House Committee on Appropriations has this far failed to get together a quorum for business. From present appearances none of the regular appropriation bills will be ready for the consideration of Congress upon the re-assembling of that body next Monday.

The committee on the Yorktown Centennial Celebration is to hold a meeting in this city on December 10th, to complete arrangements for the celebration. Hon. Robert Winthrop, of Boston, is spoken of as the orator of the occasion.

Gen. Walker, Superintendent of the Census, has submitted his regular annual report to the Secretary of the Interior. He says that although the work of taking the tenth census is substantially complete, returns having been received from all but seven of the total number of 31,265 enumerating districts it will probably be two or three weeks before the officers will be able to present complete statistics of the population of the country. He urges the importance of the earliest possible publication of the results of the census bureau's work, and recommends that instead of waiting for the publication through the government printing office, Congress authorize the printing of census returns and statistics by special private contract, under the direction of the Secretary of the Interior. The accounts of 28,410 enumerators have already been settled, involving the expenditure of nearly two million dollars. Only about 1,200 accounts remain unadjusted. The number of employees now engaged in the work of the census office is 1,084, a considerable proportion of whom are on duty at night with a view to the promptest possible completion of the work in hand.

The Chief of Bureau of Statistics reports that the excess of exports of merchandise for the month of October, stated in special values, is \$31,677,184. For the corresponding month of 1879 it was \$29,944,857. The excess of exports of merchandise for the year ending October 31st, is \$155,572,156, against \$209,257,132 last year. The excess of imports of gold and silver coin and bullion for October is \$1,510,372, against \$1,728,343 for the same month last year.

CRIMES AND CRIMINALS.

MURDEROUS ATTACK ON A SCHOOL TEACHER AT DANVILLE, VA.—A DRUNKEN MAN MURDERS HIS WIFE IN INDIANA.

DANVILLE, Va., Nov. 30.—Lorenzo Ivy, colored, teacher of a colored free school in this town, was attacked this morning by two of his boy pupils, brothers, aged 15 and 18 years, respectively, and was repeatedly stabbed with knives. His injuries are probably mortal. He had punished the younger of the boys for playing with the girls, and in revenge was attacked by the two brothers.

FARMLAND, IND., Nov. 30.—Last night Wm. Barres, who had all day been drinking and quarrelling with every one he met, especially with his family, took up a double-barrelled shot-gun, and while his wife was sitting on her bed in her room, he shot her through the head, killing her instantly. He was arrested and taken to Winchester. He says that the shot was accidental. He came near shooting her once before, when he was drunk, with the same weapon.

ELECTRIC SPARKS.

The official returns of Colorado give the Garfield electors an average majority of 3,000.

W. T. Bean, a prominent lawyer of Greenwood, Miss., died yesterday from the effects of an overdose of morphine.

The New York Post's financial article says: The stringency of the local money market has demoralized the market for exchange, and bills on London are pressed at almost any figure, for the purpose of getting money.

The receipts of the United States Patent Office from fees of various kinds during the past fiscal year aggregated \$730,549, and the total expenses were \$538,239, showing a net revenue to the government of \$191,310.
