

An English clergyman, Rev. T. P. Dale, has been imprisoned on account of certain ritualistic practices. At last accounts steps had been taken to procure his release, and a writ of habeas corpus had been granted.

The Canadians are proud of Hanise. They wish to tender him the freedom of Toronto, and to relieve him of taxes during life. It is not every Canadian who has muscle enough to beat the world in a rowing match.

Vice President Wheeler is a gain in Washington. After a long fi-hing vacution he is now ready to draw his pay. He is really giving an opinion about the business before Congress just as if he knew anything about it. But Wheeler's roign is nearly at its end. The Loue Fisherman will then return to his bait and pole.

It is said in Washington that nei ther Judge Swayne nor Judge Clifford is able to sit again on the Supreme Court Bench. Devens wants Clifford's gown. But Clifford is so bad off he cannot resign and he cannot be displaced, so Dovens must bide in patience. But is Devens bound to have it any way?

Galusha Grow, who is a strong aspirant with a good following for the U. S. Senatorship from Pennsylvania, hoots at the idea of Grant's getting it. He says he is not now a citizen within the meaning of the law. He must have resided twelve months in that State before his election. But we are not in favor of either of the G's. Give us Wallace or let there be no Senator.

General Garfield has been a member of the Free Trade club of London, the Cobden, since 1869. He is a pronounced free trader, and General Hancook favors a tariff for revenue-is not a free trader. The South Carolinians seem to be well pleased with the views of Gov. Hagood as set forth in his inaugural address. He does not dodge the importance of guarding the ballotbox, and thus refers to the Constitutional requirement concerning the

registration law: "This positive mandate of the Constitution has not yet been obeyed. It is one of the mist obvious means of securing the purity of the ballot-box; and the failure to provide it was justly urged in complaint

giust thes who controlled the State goverum out for the eight years following the adoption of the Constitution. * * * In my judgment, the discharge of this imperative duty should no longer be delayed. Indeed, in many particulars, our election laws, as they now stand, are defective, and their revision is one of the most important subjects which demands your attention."

It is mentioned in the London press as a curious fact that the Duke of Devonshire has 60,000 acres in Ireland and that the rents are all paid regularly. The following is given as the true explication of the matter :

"Many claim that the secret of this is the fact that- the Marquis of Hartington, the Duke's son, is Secretary of State for India, is very influential in the Cabinet, and the Land League, being anxious to secure his opposition to coercive measures, has secretly ordered his tenants to pay up a full and without murmuring."

The Marquis is opposed to coercion or the suspension of the writ of STAR habeas corpus.

any kind of medicine which we did not know to be good—particularly for infants. But of Mrs. Wins-low's Soothing byrup we can speak from knowl-edge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and its parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the awakes as "bright as a button." And during the process of teething its value is incalculable.
