The last news from Tennessee conceining the United States Senatorship is more encouraging. It is now believed that the Republican plan will

Dr. J. Marion Sims, a native of Georgia, and one of the most emineat physicians and surgeons in the Union, is now very dangerously sick in New York.

Marshal Fitzsimmons, of Atlauta Ga, is now known to be in arrears \$5,000. He will be removed, it is thought. He is one of Hayes's Demcratic selections. It was not a good

Blaine is going to Europe and will be absent on a tour of eight months. such is the report from Washington. This is denied, however, and another report is that he will be Secretary of State under Garfield.

The New Orleans papers anticipate considerable immigration from Germany during 1881. The first instalment-some twenty-odd in number-arrived a few days ago and obtained work at once.

John Robinson's big elephant, "Chief," that killed his keeper at Charlotte, gave a drunken fellow a tremendous hug in Cincinnati on the 26th. His name is Sullivan and it is feared he will die. He undertook "to prodgick" with him.

The friends of the venerable Major N. H. Hotchkins, our old railroad man, sent him a Christmas stocking. It contained \$1,200. We never heard of an editor's stocking, except the heelless one he hung up to catch a lew hot bunns from Santa Claus.

There is another diplomatic scandal. A Washington lady, Miss Carrie Carroll, was married two years ago to W. H. D. Haggard, an attache of the British Legation. The fellow has abandoned her, leaving her in England. Mrs. H. now sues for a divorce.

Professor Abbe, the gentleman who attended to the scientific part of the Signal Service under Gen. Myer, says only about one fourth of Vennor's weather predictions come true. We give an interesting paragraph from a recent scientific talk about weather and its prognostications, as he, Prof. Abbe, is reported in the Washington Post:

"I was a little amused last Tuesday morning,' said Professor Abbe, 'to hear ever so many people remark, as they made the best of their way through the heavy snow, that Vennor was indeed a wonderful man. Yet he did not, as I understand it, predict this storm in the slightest. He prophesied, if he said anything at all, a heavy snow storm on or about the 22d of December for the Dominion of Canada and the New England States. The snow, as everybody remembers, was to be eleven feet deep. Our weather-map will show you just how near Mr. Vennor came to his predictions. The storm did not extend further west than Columbus por further north than Philadelphia. He was just about 500 miles away from his mark."

THE MORNING STA

VOL. XXVII.--NO, 83.

WILMINGTON, N. C., THURSDAY, DECEMBER 30, 1880.

The Railway Keview tells how distance is to be annihilated between New York and Philadelphia. The distance is eighty miles and a fraction. It is thought by the new route proposed an engine of sufficient power can make it in an hour. On the trial trip of the Baldwin locomotive, No. 5,000, it ran at the rate of eighty-one miles an hour on an ascending grade, and no doubt on a level road it would have run ninety miles. Mr. Le Van explained how he proposed to make a locomotive that can perform the latter distance.

Edwin Booth is gaining ground in England. On Monday night he played Bertuccio in the "Fool's Revenge," and with splendid success. The London papers are very cordial in their praise of the personation. The Times says:

"There are scenes in the Fool's Revenge in which Mr. Booth confirms the opinion that he is a most accomplished actor; but neither in his tenderness, rage nor despair was there sufficient depth. He acts in the last scene with admirable skill. Mr. Booth was badly supported.

The Irish Home Rulers are waxing more determined. At a meeting held in Dublin on Monday there were thirty-seven members of Parliament present. They resolved "to sit in opposition to every government measure that refuses the just demands of the Irish people, especially that for legislative independence." Thirty-seven resolute, united men-some of them of good abilities-must make themselves felt.

Here is something that concerns North Carolina and one of its mining companies. The New York letter to the Philadelphia Ledger says:

"The King's Mountain Mining Company has been placed in the hands of a receiver, Jonathan Brownell, on the application of Chauncey T. Bowen, a creditor. The company was incorporated September 10, 1877, with a capital stock of \$1,200,000. It had 500 acres of mineral lands in Gaston county, North Carolina, the buildings and improvements on which were valued at \$200, 000. Hon. Andrew Curtin, of Pennsylvania, was President. The last sale of the company's stock was on December 23-300 shares at 60 cents per share."

Pierre Lorillard has purchased recently in England fourteen mares and youngsters that will be shipped to this country.

The venerable W. W. Corcoran. the well known very benevolent Washington banker, has just celebrated his 82d birthday.

eduits Turpentine

- The Legislature meets next Wednesday.

- On January 1st, 1881, the Salem Press enters upon its twenty-ninth volume. A staid, sensible paper, that does good. Long may it flourish.

- Charlotte Democrat: The carp fish, it is said, destroy all other fish in their waters. It may prove as great a nuisance as the English sparrow.

- The erring daughter of Rev. W Rawlings who ran away with the rascal J. O. H. Nuttall, has returned with her baby to her mother's home, a sadder and a wiser girl it is to be hoped.

- Statesville American: The Statesville post-office has been rased to the grade of a Presidential office, with a salary of \$1,000, in accordance with a suggestion made in the American a few weeks ago. 8) much for printer's ink.

- Washington Press: We notice with pleasure the growing increase in favor of a general prohibition law in all sections of the State. Halifax and Chatham counties, through their boards of county commissioners, have already refused to grant any more license for retailing liquors.

_ Mr. J. S. Tomlinson has disposed of the Hickory Press to Mesers. D. H. Tuttle and W. F. Tomlinson, who will have editorial charge with the next num-ber. A pleasant and profitable time to all concerned. The Press will begin its eleventh annual volume with its next issue.

- Charlotte Home: The Mecklenburg Riflemen gave a party, at the residence of Mrs. Margaret Brothers, last Tuesday evening. - Grace Everett, a colored girl, was arrested Friday, charged with having destroyed her infant by throwing it into a well. She is now in jail await-

- Raleigh Star: A telegram was eceived to-day by D. R. Lewis, of this city, announcing the sudden death of Mrs. Gen. Wm. R. Cox, yesterday evening, at 5 o'clock, in the city of Philadelphia. The lady was in that city under medical treatment, but her death was entirely unexpected, and is a great shock to her many

friends in this city. -Wilson Advance: Up to the present time 15,537 bales of cotton have been shipped from this place. There are 500 more which await shipment. - Judge Schenck and the members of the bar in attendance upon Court at Washington, Beaufort county, indulged in a little "mutual admiration and congratulation," at the close of the Superior Court for that county. Will this example be followed?

- The Charlotte Observer announces the death of Mr. Arthur Armour, the first settler of the land now occupied by Davidson College. He at one time owned nearly all of it. He had lived there sixty years. He at one time walked to New York, where he took a steamer to Ireland, where he was interested in the settlement of an estate, and on his return from abroad walked back home. Such were the men

house of P. L. Estes on Sunday night while must be a wonderful remedy. The price is you meet with the reward you deserve. he family were at church, broke open | nly 25 cents a bottle.

some trunks, and stole some seven hundred | Local Dots. dollars of money. - Mr. Robert Carson, living ten miles east of Taylorsville, in Alexander county, lost two barns of tobac co last week. He had fired up to keep his tobacco from getting in too high case.

- Raleigh Visitor: The Supreme Court meets in this city next Monday. -Early on Sunday morning last the body of Sidney Hinton, alias Sidney Baugh, was found on the west bank of Neuse river within a few feet of Milburnie bridge, six miles from this city. From the evidence elicited before the coroner's jury, it appeared that the unfortunate man had been drinking freely on the evening previous, and was seen going in the direction of the

- At a McDowell mass meeting Mr. W. H. Malone, an old legislator, said: "In my opinion this is a happy era for Western North Carolina. Railroad and telegraphic communications have been established with the outside world-we are no longer pent up amid impassable mountains, and our natural facilities are unequaled. Here in this great undeveloped empire" we have discovered a new source of wealth. Here we have found the "golden Eldorado"-the soil is peculiarly adapted to the raising of fine leaf tobacco. Ex-periments have fully demonstrated this

- Toisnot Home: Rev. J. E. Carter of Wilson, and Rev. W. P. Blake of Weldon, assisted by others, organized a Baptist Church in this place, last Saturday, with about fifteen members. From what we learn, it is contemplated that early steps will be taken to build a new church. -We learn that Spencer Harper and a negro by the name of Joe Bunting got into a difficulty at Eason's Store, Nash county, which led Bunting to draw a knife and cut Harper in several places. Harper, at last reports, was in a very critical condition, and not expected to live. Bunting made

his escape. - Winston Sentinel: Mr. James Shutt, who, as we noticed a short time since, had pulled up stakes and emigrated to the far west, has, after a few months, returned, disgusted with the promised land that "flows with milk and honey," and fully determined, for the rest of his days to make his home within the borders of "The Old North State." — Several months ago, the turbine wheels in use at the old Salem Mill were well nigh choked down by a large number of eels, which, by some means, had found their way into them. Last Wednesday night while the old mill was running at full blast, a gradual loss of power was again noticed, and Mr. Brant Breeson the miller, suspicioning the cause, examined the wheels. He found in them five large cels, one of the number pulling the scales to 44 pounds.

- Hillsboro Observer: A young man named W. D. Cole, son of John A. Cole, Esq., living in Durham township, ten or twelve miles from Hillsboro, met with a terrible accident on Thursday, December 16th. He was at work running a saw mill on Eno river, when his right arm was cut off by the saw and dropped into the water. Making an effort to free himself from the saw, he fell on it, when his right knee-pan was cut off. His brother going to his rescue, carried him out of the mill and then fainted, and would have fallen, but his wounded brother held him up. Drs. Cain, Smith and Battle were sent for and amputated his right arm and right leg above the places where the saw had severed them, but their patient died about 8 o'clock that night. Mr. Cole was a young unmarried man, about twenty-five years of age, very industrious, and bore an excellent character.

Cedar Keys.....

Fresh and brisk northerly to westerly winds, rising barometer, colder weather on the coast, and areas of rain or snow, followed by clearing weather.

The Cultivation of Jute. Mr. W. T. Hall, of Bogue, Columbus county, sends us a specimen of jute raised by him, from seed sent him by Mr. Don. McRae, of this city. The stalk measures ten feet in length, and Mr. Hall informs us that the one sent us is not the only stalk that will measure that much, nor he the only one in his section that has grown them that high. The seed were planted about the middle of June, which is considered very late. It seems to thrive well on stiff clay lands. Mr. Hall and other planters in his section would like some information as to the cultivation of jute and its preparation for market.

- We were shown on yesterday the two beautiful pairs of roller-skates to be awarded to Messrs. W. R. Morrison and James Willson as first and second prizes in the skating tournament at City Hall on

-- Business, which was unusually brisk for some time before and at the commencement of the holidays, has now as-ONE EXPERIENCE FROM MANY.—"I had been sick and miserable so long and had caused my husband so much trouble and expense, no one seemed to know what alled me, that I was completely disheartened and discouraged. In this frame of mind I got a bottle of Hop Bitters and I used them unknown to my family. I soon began to improve and gained so fast that my husband and family thought it strange and unnatural, but when I told them what had helped me, they said 'Hurrah for Hop Bitters! long may they prosper, for they have made mother well and us happy."—The Mother,—Home Journal. sumed its ordinarily quiet aspect, and the overworked "bosses" and clerks are getting a little needful rest.

A Case of Larceny.

DOCTOR'S BILLS.—The man whose Blood and Liver are in good condition is all right in the midst of epidemics. This has been often noticed in the life of every one. If all would only avail themselves of the advantages of restoring and maintaining the health of the body, there would be fewer doctor's bills and much less sorrow. The one thing needful, and the one recommended above all others is found in Simmons Liver Regulator. The testimonials are counted by the thousands, and its merits are undoubted.

"Having passed through the slege of YELLOW FEVER, in Savannah, in 1874, and not having any physician to attend to my family, I resorted to the Regulator, and found it to be a perfect cure and preventive if taken in time. I had two children down with the Fever, used nothing but Simmens Liver Regulator, and am happy to say it cured them. It will cure and keep off Fever if taken in time.

R. J. LESTER, Macon, Ga." Davis is young in years, but is said to have been before the court at least once before on a similar charge.

Foreign Shipments.

The Norwegian barque Stanley, Capt. Ellingsen, was cleared from this port for Liverpool, yesterday, with a cargo of 2,364 bales of cotton. Messrs. Williams & Murchison were the shippers.

In addition to the above, the German barque Therese, Capt. Hanson, was cleared for Hull, and the Norwegian brig Dolen, Capt. Dietrichson, for Trieste, Austria, the former with 250 casks spirits turpentine and 2,980 barrels of rosin, and the latter with 200 casks spirits turpentine and 3,000 barrels of rosin; both by Messrs. Paterson, Downing & Co.

January 1st, 1881, will be paid at the Bank

A colored boy by the name of John Davis was arrested yesterday by Officer Watkins, of the police force, charged with stealing a a sail cloth from the boat of a colorod man named Joe Johnson, somewhere in the neighborhood of Market dock. It seems that Johnson missed the article from his boat and had a suspicion that Davis, who had been seen lounging about in that vicinity, had stolen it. He thereupon put Officer Watkins on the track of the boy and he soon afterwards captured him on the street with the stolen sail in a bag on his head. Both boy and bag are now in the guard house awaiting an examination before the Mayor this morning.

Forgot the Baby. A woman started from Laurinburg for this city a few days since and left her baby on the platform at the depot. She didn't miss the little one until the train had gotten some distance from town, when her distress was painful to behold. At the first stopping place she got off and footed it back to Laurinburg, where she found her baby, but her mind was so upset in consequence of the incident that she concluded to indefinitely postpone her contemplated trip-although her "Saratoga" awaits her in this city.
